

PRESIDENT WRITES ANOTHER MESSAGE

What He Wrote is Given Below -- The Events on the Isthmus Have Changed the Complexion of Affairs -- Strong Ground as to Canal.

(By Associated Press.) Washington, Nov. 14.—For several weeks President Roosevelt has had in preparation his annual message to the Congress to be presented at the opening of the regular session of the first Monday of December.

In his discussion of the canal treaty, it is stated, was completed about two weeks ago. Recent events which have occurred on the Isthmus and in this country, since that time have made it necessary for the President to completely rewrite that part of the message touching the canal negotiations.

In his discussion of the canal treaty, the President wrote: "High authorities on international law hold that the canal can be dug as an incident to exercising the power to prevent the obstruction of traffic across the Isthmus."

"It seems evident that in such a case we should finally decide which is the best route; and if the advantages of this route over any other possible route are sufficiently marked we should then give notice that we can no longer submit to trifling or insincere dealing on the part of those whom the accident of position has placed in temporary control of the ground through which the route must pass."

A Simple Remedy for Catarrh

Just Breathe Hyomei Four Times a Day and be Cured.
