AN OLD TIMER. Has Had Experiences. A woman who has used Postum Food Coffee since it came upon the market 8 years ago knows from experience the necessity of using Postum in place of coffee if one values health and a steady brain.

She says: At the time Postum was first put on the market I was suffering from nervous dyspepsia and my physician had repeatedly told me not to use tea or coffee. Finally I decided to take his advice and try Postum and got a sample and had it carefully prepared, finding it delicious to the taste. So I continued its use and very soon its beneficial effects convinced me of its value for I got well of my nervousness and dyspepsia.

"My husband had been drinking coffee all his life until it had affected his nerves terribly. I persuaded him to shift to Postum and it was easy to get him to make the change, for the Postum is so delicious. It certainly worked wonders for him.

HORRIBLE DEATH OF NEGRO FIREMAN

(Special to The News.)

Columbia, S. C., Nov. 18.—At Bennettsville yesterday in his charge to the grand jury, Judge Gary said in part:

"It is pleasant but unusual to see 18 grand jurors answer to the roll call at the beginning of court. This duty is often shirked, and it is the best citizen who shirks it oftenest. Too many good men are released from the responsible duties of juror on account of private interests. The court has to take second choice, men who do not come up to the legal requirements. The consequence is often a miscarriage of justice, and the courts are held up to ridicule. The fault is not in the system, but in those who administer it. That community which does not set its face sternly against crime and criminals cannot prosper. The report shows that there are 17 criminals in jail here. Something has gone wrong in the cogs of the machinery in this county. The surest way to prevent crime is to convict those who commit crime. I do not wish to prejudice jurors against any unfortunate criminal, but you are here to discharge a very high duty, to punish criminals without fear, favor or prejudice."

After organization the court proceeded to take Judge Gary's advice by convicting several prisoners, among them, a white man, who was given thirty days on the chain gang for being drunk at a church.

There are three murder cases to be tried at the present term, two of them being white men. The most notable one is that of Henry Patrick, who killed his wife at Bennettsville a few days ago. Patrick claims that the killing was accidental and on this account has not yet employed counsel, although amply able to do so. His brother-in-law, Mr. Fitzpatrick, a well-to-do citizen of Athens, Ga., is present to investigate the case and see if there is any merit in Patrick's claim. His investigation has not yet led him to employ counsel.

At Union yesterday, Oss Miller, a negro fireman in the cotton mill, was crushed to death by walking into the large flywheel of the mill engine. His legs and arms were ground to a pulp and the entire top of his head was taken off. One of the man's eyes was found several yards from the body. Almost every bone in his body was broken.

A unique method of church revenue is reported from Yorkville. Last spring Rev. W. G. Neville, who preaches twice a week at Harmony Grove Presbyterian church, five miles from Yorkville, distributed about 60 quarts of cotton seed among the congregation of his church to be planted and the cotton made to be for the benefit of the church. Last Saturday a meeting was held at the home of Mr. John T. Latham, where the cotton was ginned and baled. A bale weighing 502 pounds was realized from the experiment.

As a result of the shortage of former County Treasurer John S. Campbell of this (Richland) county, suit was yesterday filed against the United States Fidelity and Guaranty company for \$30,000. The case will be heard at the next term of court.

Congressman Aiken has introduced a bill in Congress to provide for a post-office building for the city of Anderson. The amount asked for \$100,000.

The congested condition of the docket in Richland county is attracting considerable attention. The fall term of the circuit court which ended on Saturday last, left on calendar 1, 72 civil cases, which alone represents three's work.

Mr. W. H. Lytle, a prominent attorney, speaking of the situation yesterday, said: "The congested condition is indeed deplorable, and litigation will be discouraged if speedy relief is not obtained. I am heartily in favor of increasing the number of circuit judges to give the needed relief in Richland, I

think, only three counties should compose the district in which Richland is grouped—say Richland, Kershaw and Lexington.

"I am in favor of county courts also, for I think the condition in a number of counties is getting to be serious, as to make it imprudent to adopt some method for the speedy disposition of cases of minor consequence."
