

GOVERNMENT PRINTING.

A Resolution of Senator Hoar Brings Out Facts About High Price of Government Printing.

(By the Associated Press.) Washington, Dec. 18.—At the beginning of today's session of the Senate Mr. Hoar offered a resolution in order to have the committee on printing ascertain whether it is not possible to have the Congressional Record printed in better type than at present and briefly address the Senate on the subject, saying it is very difficult to read the records. Mr. Bacon was of the opinion that the prices of publications to the public should be reduced. Mr. Newlands suggested that there could be improvement in the printing of most of the government publications. The resolution was agreed to.

Dr. W. G. Stevens, of Rock Hill, is the city today on business. Senator Daniel was recognized to speak upon Mr. Hoar's resolution questioning the President to send to the Senate all the information bearing upon the Panama treaty had been discussed by President in his message amply in some respects, but in other respects very sparingly. Mr. Cullom called attention to the fact that the committee on foreign relations and intimated it was not in order to discuss it. Mr. Daniel replied by saying "There is so much information covering any inquiry on the part of Republican Senators as to cause them to jump before they have been spurred." He reiterated his statement that the President had discussed it in public and called attention to Secretary Loomis' New York speech as well as to the debate in Senate and declared "Never before had there been such a thorough defiance and contempt of the law of secrecy which prevails in diplomatic affairs as have been displayed in this matter."

Yarn Spinners in Good Humor. Mr. E. B. Dickson, a well known yarn commission merchant of this city yesterday visiting a number of yarn mills in nearby towns. Mr. Dickson says that the spinners of yarn are all in a good humor over the situation this week—in fact they seem to be enjoying a far better condition than that of a few weeks ago. The mills however are holding off from buying raw cotton very far ahead as they would be compelled to pay an average of 14 cents for the far months.

Another well known cotton buyer here states that he sold 2,000 bales to a mill last night after 10 o'clock.

No Funeral Processions. The drivers of hearses went out with the carriage drivers and as a result funeral processions will be curtailed during the strike. Neither the Teamsters' Union nor the Liverymen's Association apparently made any exception in the strike in order to facilitate burial arrangements, although instructions were given to pickets not to interfere with the wagons, which will be used in lieu of hearses.

Say our laundry work equals that which is to be found anywhere else in the country. Very few laundries pay any attention to the fit of the shirt. Every shirt we launder is ironed to fit just as the maker intended. Many laundries iron a collar or shirt with so much pressure and friction that it fairly crushes the life out of the linen. Our ironing is done by low pressure machinery and leaves the linen thick and pliable. Many laundries break collars after a few times laundering. We are laundering collars today that we have laundered for many months. May we have a trial package from you?
