

TWO BIG COMPANIES TO-DAY CRATERED AT LARGE CAPITAL

Secretary of State Issued Charters for Companies at Marion and Salisbury, Light and Power Co. and Mammoth Distillery.

Negro Delivered to Penitentiary, Destructive Fire, Past Master's Jewel Presented, Concerning Establishment of Orphanage.

Special to The News.
Raleigh, Feb. 27.—The Secretary of State issued the Marion Light and Power Co., of Marion, a capital of \$25,000 by J. L. Morgan, W. W. Lott, of Asheville and R. H. Bennet.

Another charter is for the McColl Pool Co., of Salisbury, for the operation of a mammoth distillery at a capital of \$60,000.

Sheriff E. A. Dowell, of Vance county was here from Henderson today to deliver to the penitentiary Norman Jones, a negro who was convicted in the Superior Court the past week of secret assault in that he from time to time fired as many as eight shots into the residence of J. J. Betch, a well known brick mason of that town in the hope of frightening him and his wife so that they would leave town. It seems that the negro was not seen to fire either of the shots but he was caught skulking about the place right after the shooting repeatedly, and wrote notes that showed that he was guilty. Judge E. P. Jones tried the case and imposed a sentence of three years.

A fine farm horse, a herd of thirty less and a large number of improved farm implements, including mowers, reapers were burned in fire just west of Raleigh this afternoon, which destroyed an immense barn and its contents on the farm of Mrs. Elizabeth Gilmore. Quite a stir was created in Raleigh by a report which strayed when the fire was discovered, that the Roman Catholic orphanage was burning. It was only a few months ago that one of the principal buildings at this orphanage was burned, two lives lost and several others injured.

A handsome past master jewel was presented to J. H. Mullins, chief of police of Raleigh last night by the Vigilance G. Hill Lodge of Masons. Mr. Mullins is one of the brightest Masons in the city and is known throughout the State as an especially bright and aggressive member of the Grand Lodge. All three of the Masonic lodges in the city are growing rapidly now and they were looking forward with especial pleasure to the time when they can secure quarters in the new grand lodge Masonic temple. William G. Hill lodge has ordered and will soon have ready for use in their lodge workings, a very handsome and complete magic lantern. It is to cost about \$100.

Past National Councilor W. E. Fairson, of the Junior Order United American Mechanics said today that he is decidedly opposed to the establishment in this state of a Junior Order orphanage. Action regarding which was taken at the recent state council at Salisbury and he is satisfied that such an institution will never be established in this state despite the fact that a resolution passed the state council endorsing the orphanage if approved by the various councils. The resolution, he says, carries with it, if the institution is to be established, an eighty per cent increase in the per capita tax on the order in the state. This makes it doubtful if the councils will approve it.

And that there would arise the question of the National council allowing the departure as one of the four objects of the order at large is the main-underline the great national orphanage already established in Ohio. If they permitted North Carolina to found a Junior Order orphanage they could not refuse to allow the same privilege to other States and this would completely undermine the great national orphanage to which the whole order is committed. And even if the national council allowed it then there would be an appeal to the national judiciary which is the supreme court of the order. Nothing could be done toward work on an orphanage until all these appeals have been taken and settled.

William J. Bellamy, a prominent young lawyer of Wilmington, is chairman of the State Orphanage Commission and is leading the fight for the orphanage. It was an interview with him to the effect that the committee would allow the orphanage movement to early consummation, hearing it either in Durham or Salisbury, which elicited Mr. Fairson's statement.

W. A. Wyatt, a prominent merchant and the extensive property owner, had a vivid dream Saturday night that flames were bursting out of the pantry of numerous houses which he owns in this city. He waked himself up calling on the firemen to "put on the water." Then last night about the same time that he had this dream on the previous night, fire did completely destroyed the building. The strange verification of the dream has occasioned much comment about the city.

The argument of appeals from the fourth judicial district will begin today in the supreme court.

IMATIION OF CROMWELL.

Said He Had Received Something Like \$200,000. From New Canal Company.

By Associated Press.
Washington, Feb. 27.—The examination of William Nelson Cromwell, was resumed by the senate committee on inter oceanic canals. Senator Morgan asked what payments had been made to him from the New Panama Canal Company. Cromwell said while he did not think it any business of senators making the inquiry he would state that the total payments made to him would not exceed \$200,000; that was all he had received out of \$400,000 paid by this government, but he added he had not rendered his accounts for services. Said he had plenty of money of his own and had not had time to go to Paris to see the company.

A Little Sarcasm.
Cromwell said he did not think the country could be interested in his private relations as counsel to the New Panama Canal Company. "I think it is," said Morgan.

"You may monopolize the opinion of the country, but I don't think you do," replied Cromwell, and then upon having repeated the question concerning the funds he had received from the French Canal Co. he declined especially on the ground that he would not divulge professional secrets.

What Cromwell Received.
Answering the questions as to what he had received since the transfer of the canal to the United States, Cromwell said he had not received one dollar of the \$400,000 paid to the New Panama Canal Company, but would render his final bill in due course and that "it will be substantial and will be paid." He said he had not received from the Republic of Panama a single cent, and had received no benefit directly or indirectly from the sale of property; that his whole relation to the new Canal Company was that of a counsel, and that his sole compensation had been as such.

CASE OF ALBERT PATRICK.

In Hearing for New Trial Mr. Jerome Stated That One of Texas Witnesses Had Confessed to Perjury.

By Associated Press.
New Orleans, Feb. 27.—When the hearing of Albert T. Patrick was resumed District Attorney Jerome informed Recorder Goff that Joseph Jordan, one of the Texas witnesses, had confessed that he committed perjury on the witness stand when he denied that he had served a term of imprisonment at Huntsville, Texas.

Why He Lied.
Patrick's counsel said no one connected with the defense of Patrick knew Jordan had a prison record.

Jordan testified he had lied when asked about his prison record because he was ashamed to acknowledge the disgrace. All other things he had testified to he declared were true.

Jordan was indicted for perjury, was arraigned, and after pleading guilty was remanded until Monday for sentence.

Thomas T. McNeerney, another witness from Texas testified in the Patrick hearing that a year ago he heard Jordan tell Jordan that Patrick had nothing to do with Rice's death, but that he (Jordan) was hounded, harassed and bullied, threatened with imprisonment and electric chair, by officers in New York, and he had to put the blame on Patrick to save himself.

WAS NOT STRYCHNIA.

Dr. Matthews Said to Have Used Morphine—Supposed Cause of Wife's Death.

Special to The News.
Greensboro, N. C., Feb. 27.—A startling discovery made by Messrs. Guthrie, of Durham; Stelman and Cooke, of Greensboro, attorneys for Dr. John B. Matthews, in jail here under indictment for the murder of his wife December 1, by injecting strychnia in her arm, promises to revolutionize the tactics of both the prosecution and defense in the trial set for Wednesday of this week in the Superior Court, which convened yesterday.

Two weeks ago it has been discovered, the Solicitor sent Dr. Turner to an eminent chemist to make sure of the case and had him to analyze the contents of the syringe, which has been in their continuous custody, and the color test showed the powder to be morphine, the physiological test on a frog demonstrating it was not strychnia. The attorneys for the defendant accidentally learned this Saturday. Yesterday the chemist who made the test was located. He verified the rumor.

TECHNICALITIES TO BE RESORTED TO

It is Probable that Counsel for Hasty May Strive to Have Case Continued. Defense Seems to be Beating for Time. Thursday is Day Set.

Special to The News.
Gaffney, Feb. 27.—All day yesterday the county court house was full, all interest centering in the trial of Geo. Hasty for the murder on December 15, of the two show people, Abbott Davison and Milan Bennett, of the "Nothing but Money" Company.

The grand jury brought in a true bill during the morning session and after the dinner hour standing room was at a premium. Every one expected the prisoner to be brought in at once, but the first skirmish between the attorneys had to take place before he could be brought in.

About 3:30 the solicitor called for the prisoner to be brought from the jail. As he came in all necks were craned to see him. He was dressed in a neat suit, clean shaved and had an uneasy appearance.

Before he was placed in the dock, his attorneys, Butler and Osborne, entered an objection to his being arraigned at this time, claiming their client was entitled to three days before he was tried and that the arraignment was a part of the trial.

Mr. Sease for the prosecution opposed this position and was sustained by the court, who ordered the arraignment to proceed. Hasty's attorney wanted it understood that they consented to the arraignment under protest, and stated that they did not grant a thing by the consent.

The clerk told the prisoner to stand up and he then read the bill of indictment and then asked him if he were guilty or not guilty. He responded in a voice almost inaudible to those nearest to him, "not guilty," and in a voice just as weak and faltering said that he would be tried by his God and his country.

When it came to setting the time for the trial, the solicitor said that under the contention of the defense, Thursday was as soon as the case could come to trial. The judge then ordered that the trial be set for that day.

Mr. Butler said that the defense would not promise to be ready at that time, indicating that a further delay might be expected. It seems from the preliminary skirmishes that the fight will be made on technicalities. The defense seems to be beating for time, very much as the Chicago Blue Beard who was hung last week. They want all the time coming to them.

What the outcome will be is only speculation. Everything depends on the jury. It is hard to get an unprejudiced jury, and where there is prejudice it is hard to overcome.

Stray Shots Hit the Pug.
It's a good joke the policemen are having with one of their numbers. Early this morning Chief Irwin handed a certain patrolman a shot gun, assigning him to go out into Ward One and slay a homeless dog. The canine was located and the officer unhesitatingly pulled the trigger, but some of the little shot went astray, taking effect in the body of a pet pug that was a devoted addition to a family who lived nearby. The little pug was badly crippled and its owners are very much put out because of the mistake.

Was Afraid to Go Home.
Chief Irwin was telephoned for this afternoon to go to the residence of Mr. Scott at No. 305 East Ninth street, to locate a little run-away boy that ventured there this morning about 10 o'clock. It was some little time before the boy's parents could be located because of his fright as he feared to go home. It seems that he got one of his stockings torn at school this morning and the teacher sent him to have it mended.

DIED AGED 127.

Jack Smith Believed to Have Been the Oldest Man in This Country.

Dallas, Tex., Feb. 27.—Jack Smith, a noted character in Bell County, is dead at his home near Sparta. Those who knew Smith the longest say that from the accounts of his life told them years ago he must have reached the age of one hundred and twenty-seven years. He was born in Holland, and was a boy of considerable size when Napoleon was making his invasion and he remembered to have seen the General.

Judge N. B. Saunders, one of the oldest settlers of Bell County, stated that Jack Smith was there when he came to Bell County, forty-seven years ago. Smith was then an old man, and often recited his life to the Judge. Smith was forty years old when he went to sea, where he remained for forty years. The forty-seven years in Bell County proves his age to have been far beyond one hundred years.
