

THINGS REPUBLICAN PLANK SUPPRESSED

Special The News.
Greensboro, Aug. 25.—Although there was no meeting last night, as published, of the Cannon Club at the Assembly Hall of the Benbow Hotel, and no trace of a meeting anywhere else could be found, your correspondent was informed this morning by Mr. Crouch, Congressman Blackburn's private secretary, and the apparent "daddy" as well as wet nurse of the "boomlet," that a very enthusiastic meeting was held in the Tar Heel Club room. He said that at least fifty names had been sent in from the city and from sections in the country for enrollment as members. That an executive committee of thirty was appointed to see that every section of Guilford county was organized, not only into Cannon clubs, but into organizations for the promotion of Republican interests in the coming campaign. He said that steps were taken to see that every county in the State was organized in like manner, the Central Headquarters being in Greensboro. He would not vouch for the name of a solitary individual who was placed on the committees or furnish the name of a single member who had been added to the original number present Tuesday night.

From the scope of the plan for an anti-Adams, pro-Blackburn movement here and elsewhere, not trusting to the regular party machinery of the organization, are going ahead on their own hook, under the guise of "Cannon boomers" and have them an independent party organization of their own, in defiance of their defeat at the Republican State convention. It is an ambitious scheme, possibly mutinous, but it is in keeping with other bold and daring precedents of the only Republican Congressman from the State. In the meantime, it will be discreetly observed, that the Congressman's lieutenants here, discreetly and diplomatically declare, that the "Hon. Spence" knows nothing about it, and is not a Cannon man.

The insurgents, however, make no bones in declaring that the heads of the organization, State and county, are doing nothing whatever to advance the principles of Republicanism, and after waiting patiently until patience has ceased to be a virtue, to see what would be done, they have come to the conclusion that unless somebody loving Republican principles more than Federal pie, begins stirring, there will be no stirring gone.

dustrial News, to have that portion of the Republican State platform published demanding an extension of the grandfather clause in the suffrage section of the amended constitution, extended for twelve years, and the requirement for the prepayment of poll tax be changed from May 1st to September 1st. Not only had they failed to do this, he said, but not a single Republican paper in the State had been furnished this as a part of the platform, and it was being printed with this plank absolutely left out. He said the Weekly Tar Heel was the only Republican paper in the State, that had printed anything at all about this very important plank, which was as much a part of the platform as any other plank in it. This man seemed to feel that the plank was being suppressed because it was the work of Congressman Blackburn, and would redound to his advantage, and would form the honor of the committee on platform which failed to report this feature, when they handed in their type-written set of resolutions.

One thing is certain, no Republican paper, except the Tar Heel, has ever printed anything about the adoption of this plank in the platform of the Industrial News, published at the spot, in its detailed report of the proceedings of the convention, entirely suppressing any mention of this incident and action of the convention next morning, but printing the platform without the grandfather extension demand.

60,000 STRIKE IN SPAIN.

Guard Fire on Crowd Who Attempt to Stop Train, Killing Two.

Madrid, Aug. 25.—The Labor Federation has declared a general strike at Bilbao, which means that 60,000 persons have quit work. The outgoing trains are packed with fleeing inhabitants. The newspapers have been forced to suspend publication.

Strikers from Bilbao are visiting small surrounding towns in order to persuade workmen to join the general strike. Villagers at Castro-Urdiales, along the route of the railroad, attempted to stop a train. They were prevented from doing so by the guards who fired on them, killing two and wounding three others, one seriously. The military governor of Bilbao has made another effort to arbitrate the dispute between the operators and miners. The strikers refused to withdraw their demands for shorter hours and no settlement is in sight.

King Alfonso and Queen Victoria arrived at Bilbao on the royal yacht Giralda, from England. They have gone to San Sebastian. This is a mountain resort near the Spanish-French line, of which Bilbao is the port town.

TO ALL COTTON FARMERS.

Association Not Hurt by Conduct of Secretary—Will Choose Another Man and Go on to Victory. To Editor The News.

The public in general are greatly interested as to what the Southern Cotton Association will do in the case of Secretary Cheatham, that this matter will be disposed of in a creditable manner to the Association, may be depended upon.

Pres. Jordan when he learned that there was a suspicion that an official of the Association had engaged in "wire shop" speculation, appointed a committee to investigate the matter. Mr. Jno. P. Allison of Concord, was one of the committee, he can be trusted by any man in the state of North Carolina, we know that he is a most loyal supporter of, and that he is an earnest worker for the success of the Cotton Association, if he tells the public that Mr. Cheatham has been speculating in "futures," we may rest assured that it is so, and he will be among the first men to call for the retirement of the present secretary and the appointing of another man.

Mr. Allison being a member of the executive committee will attend the meeting of this committee at Hot Springs Ark. on Sept. 6th. There the matter of Mr. Cheatham and his speculation will be disposed of to the satisfaction of every one. The other committee men are of the same high character as is our Mr. Allison, they will do what is right and proper.

The Southern Cotton Association already has been of untold value to the United States. The officials will not allow any circumstances whatever to bar its future influence for good. The fight against the future gambling shops will be waged with a determination to drive these abominable places out of business. They are the greatest curse of the South. They cause suicides, bankruptcies, defalcations, embezzlements, forgeries, lying and stealing.

The whole of the United States is effected by these villainous "wire-shops" and there is a growing sentiment against them in every section of the Union. Cotton oil men, cotton mill men, bankers, merchants—in fact all classes clamor for their destruction.

The Cotton Association will go before the legislatures of all the cotton growing states and endeavor to do as was done in Georgia, drive out the so called legitimate "exchange" with the little 2x4 bucket-shop. Both are impediments to honest business transactions and must go.

The manhood of the South must now come to the front and sell the cotton product of 1906 for a price that will continue the prosperous times we have. Let us all join with the farmer and demand a square deal.

FOUND NEGRO UNDER BED.
Mt. Vernon Girl, Alone in House, Has Exciting Experience.

New York, Aug. 25.—Miss Bella Davis, fifteen years old, of No. 130 South Fourth avenue, Mount Vernon, had an exciting experience last evening. She was alone in the house, her parents having gone out for the evening. Going to her room, she lay down on the bed and began to read.

Hearing a noise, she got up, looked under the bed and found a man there, paralyzed with fright, she screamed, Patrolman Streeter, across the street, heard her and ran into the house. As he entered her room the man emerged from under the bed and made dash for the door. He was arrested and proved to be Walter Burrow, a negro. He claimed to have mistaken the room for his own.

It is said that on Monday the negro was in Mr. Davis' store, under the living rooms, and patted the girl on the shoulder, saying she was a nice girl. This she resented.

MARCHIONESS A SWINDLER.
Accused of Conspiracy with Priest in Big Fraud Deal.

Rome, Aug. 25.—A newspaper here publishes a detailed story concerning a marchioness, whose name it does not give, but says that she is a niece of a cardinal, in which she and priest are accused of using her uncle's name and influence in a large swindle scheme.

The police, it is reported, are searching for the priest, and the newspaper which published the account says that sensational developments are imminent. Other stories of large frauds, in which this woman and the priest are said to have been implicated are current. It is hinted that the marchioness had accomplices among persons holding responsible posts at the Vatican.

Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of the pills he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate stomach, liver, and bowels. Do not upset the "pill habit," but cure constipation. One or two each day for an active cathartic. Once tried always in favor.

\$50,000 GIVEN AWAY, in copies of Medical Advice. The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at \$1.00 per copy. Last year we gave away \$50,000 worth of these invaluable books. This year we shall give away \$50,000 worth of them. Will you share in this benefit? So, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 21 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Register's New Auto.

Dr. E. C. Register some time ago ordered a very handsome and expensive automobile, gasoline propelled, for use in his practice. The machine arrived a few days ago, and when the Doctor went down to examine it, he discovered that he had received not a new machine, he says, but a second-hand one which he has been compelled to refuse. The manufacturers of the machine have been notified and unless they furnish Dr. Register a machine which he considers to be entirely new and up-to-date, he will not accept it. Furthermore if the manufacturers persist in trying to make Dr. Register accept the machine now here, there will probably be some interesting developments. The machine that was ordered by Dr. Register was one of the finest made, and his disappointment upon examining the auto shipped to him, has been quite keen. Dr. Register does not think that there is much resemblance between the auto shipped, and the one that he ordered.

—Mr. John Short was quite painfully bruised this afternoon by a fall from his bicycle while crossing a street car track.

Protect Your Building With

Vulcanite Roofing

The Original Composition Roofing has stood the test 40 years. Flint coated both sides. Stands highest cold test. Nail small cement packed in roll. No tin caps used. If you can drive a nail you can lay it. Water proof, acid proof, sun proof. Write or call and see us.

Architects, Attention! Heavy Stock on Hand.
