Mean Tracks and Average Daily Movement of Storms in the United States. ing an underlying plan is more powerful with many persons than the incentive, which depends upon curioscentive, which depends upon curioscentive, what it all realy means.

The storms of the United States follow, however, year after year a series of tracks, not capricious, but related to each other by very well defined Washington, D. C.,

Washington, D. C., Jan. 21—

The positions of these tracks have been determined carefully for the United States by studies made in the forecast division of the weather bureau, on the long series of maps that have been made during the past 20 years. The track that the central point of a high area or that the center of a storm follows in passing over the country from west to east is laid down on individual charts, these are collected on a group chart and from this the ed on a group chart, and from this the described. The chart herewith (see page 4) shows the general result of a study of tracks of storms in the United States. It indicates that, in gen-colder Sunday in north and central eral, there are two sets of tracks run-portions; moderate variable winds. ning westerly and easterly, one set over the northwestern boundary, the Lake region, and the St. Lawrence colder Sunday in interior; moderate Valley; the other set over the middle south winds becoming variable. Rocky Mountain districts and the Gulf States. Each of thest is double with interior; Sunday clear and colder, one for the "highs" and one for the rain in south portion; moderate varialows." Furthermore, there are lines ble winds becoming north, crossing from one main track to anrain, or snow-is in one to the other. The transverse broken lines show the average daily movement. On the chart the heavy

in last 24 hours, third, wind the lighter lines to the horth winds on the coast. Let us trace them somewhat Arkansas:—Tonight and in detail. A "high" appearing on the settled with rain tonight or Sunday, of areas of low barome or general storms, are the map by the word he centers of areas of States to the Florida coast; or it may oklahoma:—Tonight, cloudy, colder to the map of the word he centers of areas of the centers of the cent pressure by the word farther northward, cross the Rocky general movement of Mountains in the State of Washing-In the United ton, up the Columbia River Valley, generally fair, warmer in west por west to east, and in then turn east, and finally reach the tion. on they are similar to Gulf of St. Lawrence. The paths are determined by the laws of the general cloudy, colder; Sunday fair, colder chich are designated by the circulation of the atmosphere and tht in east portion; light to moderate configuration of the North American north winds on the coast. ### **Utterly Wretched**

Mervous Prostration Long Endured
Before Remedy was Found.
Miss Minerva Reminger, Upper Bern,
Pa., writes: "For several years I had
nervous prostration, and was utterly
wretched. I lived on bread and beef
tea because my stomach would not retain anything else. I took many remedies, but obtained no relief until I
took Hood's Sarsaparilla, when I began
to gain at once. Am now cured."
Pure, rich blood makes good, strong
nerves, and this is why Hood's Sarsaparilla, which purifies and enriches the parilla, which purifies and enriches the blood, cures so many nervous diseases. Get it today in usual liquid form or chocolated tablets called Sarsatabs.

Raleigh, Jan. 21.-All along the route of the proposed "Central Highway" from Beaufort to Marshall great interest is being awakened in tht project and a big crowd of good roads advocates will be in Raleigh, Feb. 14, to attend a convention of delegates

rom all the counties it traverses. Many responses are being received to the invitation to the convention ssued by the Wake County Good Roads Association and the prospects point to one of the best good roads neetings ever held in the state.

The idea of having a great "Central from the ocean to the canizations in cities and towns along he proposed road and those behind he movement believe that with the proper co-operation the road can be

Feb. 14, and close with Waynesville Some of the mort notable dates are Charlotte, April 3; Greensboro, April 5; Wilmington, April 7; Durham, March 8 and Asheville, March 24 and 25. There is no announcement yet as who will represent the United States war department in these in spections. The state will be repre sented by Col. Thomas Stringfield, of Waynesville, inspector general of the North Carolina Guard.
