New York Cotton

New York, March 30.—The cotton market opened steady at unchanged prices to an advance of 4 points in sympathy with the steady showing of Liverpool futures and the large English spot sales, but sentiment was very much unsettled owing to renewed selling of July by brokers supposed to be working for one of the old bull leaders and while the offerings were largely taken by leading spot people, it looked as though the purchases were against sales of May. May shorts were buyers and there was some support from Liverpool, but prices gradually eased off under the aggressive offerings of the summer months and the market during the middle of the morning rallied about one to two points net lower on old crop positions. New crop months were again relatively steady in spite of favorable weather reports.

Stop loss orders were reported later in the forenoon and old crop positions sold 12 to 13 points net lower under continued liquidation and bear pressure, the bulk of which was directed against July cotton. Around 1424 for May and 1397 for July, covering became more active and prices rallied from the lowest, being about 6 to 7 points under the closing figures of last night at midday. The new crop eased off to a net loss of 4 points in sympathy with the old crop weakness, but recovered 3 or 4 points of the loss on the rally. Spot quiet, middling uplands 14 1/4 nominal.

The market was less active during the afternoon and steadier on covering early sellers, reports that the recent cut in the price of cotton goods had stimulated demand and claims of a better demand for spot cotton in the south. Prices rallied to within 2 or 3 points of last night's closing figures in consequence, but the tone of the market was still rather nervous and unsettled.

New Orleans Cotton

New Orleans, La., March 30.—Cotton futures opened steady, unchanged to 3 points down compared with yesterday's close. Cables were encouraging as they reported a continued good spot demand in the Liverpool market but they were balanced by pessimistic accounts of trade from the cotton goods centers of this country. The weather map was dry, with temperatures about seasonable, which caused support to be withdrawn from the new crop months. Around the call the old crops were 1 point up but at the end of the first half hour of business were 3 points down compared with yesterday's last quotations. October lost 2 points.

The market became soft around the middle of the morning until a very steady but moderate selling. Orders apparently came principally from bearish interests although it was the gossip on the floor of the exchange that some hedge selling against spots was being done. The weather forecast promised rain in east Texas which was taken as a favorable feature that would result in benefit to fields already planted. The old crop months declined until they were 10 to 12 points under yesterday's close while the new crops were put to a net decline of 7 points. At noon prices were 5 to 6 points under yesterday's last quotations.

Open New Orleans Futures.
New Orleans, March 30.—Cotton futures opened steady. March 14.16 bid; April 14.17 bid; May 14.29 bid; July 14.31 bid; Aug. 13.65 bid; Oct. 12.55 bid; Dec. 12.47 bid.

New York Stocks

New York, March 30.—(Wall Street)—Canadian Pacific lost 1 1/2 of its recent gain at the opening of the market today but allied properties, Minneapolis, St. Paul and Sault Ste Marie, Wisconsin Central and Duluth South Shore and Atlantic were firm at higher prices. Southern railway, pfd. lost a point and National Railways of Mexico, 2nd pfd., 58.

The general list was irregular. After some hesitation the market stiffened although the improvement in the standard stocks was small outside of Erie, common and first preferred, which gained nearly a point. The secondary issues in the Canadian group made further gains, Minneapolis, St. Paul and Sault Ste Marie rising 2 3/4 above yesterday's close. Duluth, South Shore & Atlantic, preferred, 2; and Wisconsin Central 1 1/4. Canadian Pacific rallied a point but went off again to its low level and pulled down the market slightly with it. Associated Oil gained 2 3/8.

The trend of prices was downward during the morning and the market failed to respond to the bidding up of special stocks such as Erie and issues in the Canadian group. Reduction of the short interest by the vigorous upward movement of the earlier part of the week deprived the market of a source of strength. At noon outside of a few manipulated issues the market was ruling a slight fraction below yesterday's close.

Bonds were steady. Buying orders were distributed in the late afternoon and the market advanced to a slight fraction above yesterday's closing. The feature of the trading was the steady accumulation of materially higher prices of various specialties. National Biscuit jumped 3 1/2 to 3 3/4, the pfd. 3 3/4 and International Harvester 1 5/8. A further snarl of weakness in Canadian Pacific sent it down to 223 3/8 which was about 3 points below its high figure of yesterday. Deading and U. S. States, among others of the active group, went down a trifle further but speculation generally was of a perfunctory character. U. S. Rubber was in demand and improved 1 1/2.

London Stock

London, March 30.—Only a limited amount of trading was done in American securities during the first hour today. A good tone prevailed, however, and prices ruled on unchanged to 1 1/4 above yesterday's New York closing.

Canadian Pacific was an exception and declined 5 1/8. Prices eased off when Wall Street opened, but the market recovered later and closed steady.

Close: New York Money.
New York, March 30.—Close: prime mercantile paper 4 to 4 1/2 per cent; sterling exchange steady with actual business in bankers' bills at 4.84.10 for 60 day bills and at 4.85.95 for demand; commercial bills 4.82 1/2; bar silver 52 5/8; Mexican dollars 45; government bonds steady; railroad bonds steady.

Death of Captain Bogart.
Greensboro, N. C., March 30.—W. B. Bogart, a captain in the Confederate army, and afterwards a prominent merchant and banker here, died shortly after midnight. He was 72 years old.

Chicago Grain

Chicago, Ill., March 30.—Efforts at covering by shorts of the larger kind led to a recovery today in the price of wheat. The fact that cables did not fully reflect yesterday's decline here tended also to cause a firmer feeling. Furthermore, signs pointed toward greatly reduced shipments from Russia and the Argentine. Some attention too was given to a report that green bugs were threatening crops in Southern Oklahoma and north Texas. Opening figures were 1-8 higher to 1-4 off. May started at 86 to 86 1/4-86 1/2, the same change from last night as the market as a whole. A rise of 86 1/2 followed.

Absence of pressure let corn ascend with wheat. Demand, however, was not large. May opened unchanged to 1-8 up at 47 1/2-47 3/4 and climbed to 47 7/8.

Commission houses afforded support for oats. There was moderate buying on the part of a prominent local dealer May started a shade to 1-8 lower at 30 1/2-31 and then rallied to 30 3/4.

THE WEATHER

Forecast for Charlotte and Vicinity.
Fair tonight and Friday.

State Forecast.
Fair tonight and Friday. Brisk westerly winds.

Weather Conditions.
A storm center of marked intensity is central this morning over the New England states, the weather during the past 24 hours in the region east of the Mississippi river, having been influenced by its development and passage northeastward. General rains and high winds have occurred from the Carolinas northward and as far west as the Mississippi river. The pressure is relatively high from northern Texas to the Dakotas. It has caused fair weather over the western half of the country, and slightly cooler over the upper Missouri valley. Freezing weather covers the lakes, Illinois, Iowa, Minnesota and the Dakotas. Conditions at present indicate fair weather tonight and Friday.
