PLAN AN ALL-SOUTHERN POULTRY SHOW IN ATLANTA

By Associated Press. Atlanta, Ga., May 26.--With the election last evening of Governor Hoke Smith, president, the Southern International Poultry Association was firmly established. Directors also were chosen and it was determined to have a vice-president from every Southern state. Plans for holding an all-Southern poultry show here next winter were tentatively made.

Communications in this program or additions thereto can be made by addressing the secretary, Dr. J. P. Munroe, High Point, N. C., or by mail, not later than June 10, 1911.

FRENCH AVIATOR COMPLETES TRIP FIRST

Pierre Vadrine Reaches Spanish Capital, Being First Contestant to Complete Third Stage of Paris to Madrid Aviation Race.

By Associated Press. Madrid, May 26.--Pierre Vadrine, the French aviator, arrived at the Spanish capital, Burgos, at 8:06 o'clock this morning, being the first contestant to complete the third stage of the Paris to Madrid aviation race.

He covered the distance of 140 miles between Madrid and Burgos, where he landed yesterday from San Sebastian, in 2 hours and 45 minutes.

Gibert and Garnos are still stalled in the mountain fastnesses and it is not probable they will be able to finish within the time limit.

Vadrine, on landing at the Getafe aerodrome, jumped from his aeroplane and flung himself on the ground to rest. A frantic crowd bore the victorious aviator on their shoulders to the tribunal. On reaching the judge's platform, he was showered with roses and kissed repeatedly by women.

The Paris-to-Madrid race was begun May 21 under the auspices of the Petit Parisien, which offered a prize of \$20,000. In addition, the Spanish Aero Club gave prizes amounting to \$10,000 and King Alfonso offered a special prize for the fastest speed over the Spanish section.

The journey was divided into three stages, Paris to Angouleme, Angouleme to San Sebastian, and San Sebastian to Madrid, a total distance of about 600 miles.

Twenty machines were entered to start the race, but as a result of the tragic accident when the start was made from the Issey-les-Moulineux aviation field, which resulted in the death of M. Berteaux, the French minister of war and the serious injury to Premier Monis, all but three of the aviators withdrew.

By Associated Press. Atlantic City, May 26.--The heresy cases now before the Presbyterian General Assembly, in session here, attracted vastly more attention than that body was called to order today than any other subject still on the assembly program to be considered.

The alleged heresy cases of the Rev. Dr. William Adams Brown, a professor in Union Theological Seminary, which was supposed to have been closed yesterday, will come up again through the instance of Dr. Edwin J. Reinke, of Philadelphia.

A report of the judicial committee exonerating Prof. Brown, and the Rev. Dr. Francis Brown, president of Union Seminary, was adopted by the assembly yesterday, but not accepted by Dr. Reinke. He placed before the assembly the following:

"Resolved, (1) that no action be taken with reference to the utterances of Rev. Dr. Francis Brown. (2) that this general assembly express its disapproval of the recent utterance of the Rev. Dr. William Adams Brown, in the January number of the Harvard Theological Review, as it is in apparent conflict with the doctrinal standard of our church, and admonishes him to desist from the disseminating of such views."

Debate on the resolution was cut off by adjournment yesterday and will come up at the first opportunity today.

The judicial committee is ready to make a report on the heresy charge against Dr. William D. Grant, of Northumberland, Pa.

The commission found that Dr. Grant "taught doctrines contrary to the Word of God in the Bible and the Presbyterian confession of faith." He is held to be guilty under the rules of the Presbyterian book of discipline and the commission recommends Dr. Grant to be suspended from exercising the functions of a minister of the Presbyterian church until such time as he can convince his own presbytery, that of Northumberland, that he has renounced the errors he has been found to hold and to satisfy the presbytery of his purpose no longer to teach them.

Mr. Grant Found Guilty. Atlantic City, N. J., May 26.--Rev. Dr. William D. Grant, of Northumberland, Pa., has been found guilty of heresy by the commission which heard the charges made against him. The commission reported its findings to the Presbyterian general assembly (North) this morning.

A motion to adopt the report and confirm the judgment of the commission was put to a vote in the assembly and was carried overwhelmingly without debate. There were only a few scattered "noes."

National Unitarian Church. By Associated Press. Boston, Mass., May 26.--Former Governor John D. Long discussed the question of a national Unitarian church at Washington, D. C., in a speech before the laymen's league of the church here today.

PROFESSIONAL GAMBLERS GET FAT PICKINGS

By Associated Press. New York, May 26.--There were fat pickings for two professional gamblers who came in on the Lusitania today. One passenger reported that in four days the gamblers annexed \$14,000 and that one of their victims lost \$1,000 in an hour.

"I've lived almost all my life in parts of the west, where gambling is wide open," said this passenger, "but I never saw such quick action at poker. Play usually began in the smoking room at 11 o'clock at night and lasted until 3 or 4 in the morning. The pigeons could evidently afford their lucking and as it was none of my business, I didn't interfere."

The steamship officers keep a sharp look-out for professional gamblers, but occasionally an unknown chevalier of fortune makes a smashing coup.

By Associated Press. Washington, May 26.--Representatives of the locomotive firemen of the Southern Railway today flatly turned down a proposal of President Finley of the Southern, that they submit the present wage controversy and threatened strike to a board of mediation.

The firemen insisted upon their demand for a 20 per cent increase in pay and declared that they would consider no other proposition.

President Finley asked for a further conference later today.

Vice-President H. O. Teat, of the Brotherhood of Locomotive Firemen, declared the men had no disposition to take "snap judgment" on the Southern's officials.

It was pointed out that the wages of the firemen on the Southern were below those on other first-class roads and even with the increase of 4 cents 100 miles on large engines and 11 cents on small engines, which was offered by the officials of the road, they would still be at a disadvantage, he said.

Following the early conference today the representatives of the firemen held an executive session.

THE PRESIDENT STARTS PARADE IN MOBILE ALA.

By Associated Press. Mobile, Ala., May 26.--President Taft, in Washington, touched an electric button at 10 o'clock this morning and signalled the start of the parade here to celebrate the 200th anniversary of the founding of Mobile by the French. The marchers went around the old limits of the city as marked out by the maps drawn by the pioneers.

Included in the parade were 300 blue jackets and marines from the fleet at Pensacola. They were under Rear Admiral Ward and Rear Admiral Luciano Young.

After the early festivities a tablet, in commemoration of the celebration, was unveiled on the city hall, which was the old French Palace Royal.

The celebration will end tonight with a banquet to the military visitors on an address by Governor Emmet O'Neal, of Alabama.

By Associated Press. Indianapolis, Ind., May 26.--Lewis Strange, driving a Case car, was the first man today to qualify in the preliminaries for the 500 mile race on Memorial Day. Strange got away shortly after 10 o'clock. He was closely followed by Joe Jagger's Burger and William Jones, also driving Case machines. Both qualified. No time was given.

By Associated Press. San Francisco, May 26.--After wandering in the Mojave desert for nearly two days, without food or water, Maria Ferrari, an Italian immigrant girl, today is safe at the home of her brother here. Terrified by the malicious stories of Italians she met on the journey from New York, she jumped from a Santa Fe train near Barstow, preferring to chance death on the blazing sands of the Mojave rather than face the terrible fate she pictured awaiting her in San Francisco.

Taking advantage of her ignorance of the language and American customs, Italian passengers on the train told her lurid and terrifying stories of American laws and customs, making her believe her brother, whom she was traveling to join, was angry at her coming without his permission and would kill her.

By Associated Press. San Francisco, May 26.--The funeral of the late Senator Diaz, the French minister of war, who lost his life in the aeroplane accident that marred the opening of the Paris-to-Madrid aviation race on Sunday, was made the occasion of an impressive national demonstration here today.

Eulogies of the dead statesman were pronounced at the ministry of war by Antoine Pierre, the minister of justice who represented the cabinet; Henri Birron, president of the senate; and several deputies, who spoke on behalf of parliament, and General Michel, of the army.

General Francisco Golan today accepted the portfolio of the ministry of war in succession to the late M. Berteaux.

Francisco Leon de La Barra Takes Oath of Office

Lorimer Case Centers Attention

By Associated Press. Washington, D. C., May 26.--The Lorimer case, temporarily sidetracked in the senate, but considered in democratic caucus, promises to be threatened but on the floor today. There is a strong impression that the Martin democratic resolution, perhaps modified in some of its details, will finally be adopted.

The regular republicans, powerless to control the situation, themselves are said to prefer the democratic proposition to that of Senator LaFollette. Party lines will be split when the test comes, but a re-investigation of Senator Lorimer's election is assured.

Senator LaFollette still hoped today to secure the adoption of his resolution providing for an investigation by new members of the senate. He had the floor privilege and proposed concluding the speech that he had been making in installments for several days.

There was no business of importance for the house to consider today. Democratic leaders after the disposition of some formal business matters determined early in the day upon another recess until Tuesday, thus again avoiding the discharge calendar on Monday.

This calendar is heavily laden with motions to discharge committees on important bills which the democrats do not want to consider at this session. All the discharge motions have been placed on the calendar by republicans. They may be called up on Mondays, but thus far the democrats have bridged over the Mondays and avoided legislative measures not on their program. Next Tuesday there may be another adjournment until the following Friday.

New Provisional President of the Mexican Republic Succeeds Old Warrior, President Diaz, Who has Stepped Down and Out.

By Associated Press. Mexico City, May 26.--Francisco Leon de La Barra, the Mexican foreign minister and former ambassador at Washington, took the oath of office as provisional president of the republic today. He will act as the chief executive in succession to Porfirio Diaz, who resigned yesterday, until a general election can be held.

Order prevailed throughout the capital last night.

Senator de La Barra was escorted from the national palace to the chamber of deputies, where the oath of office was administered by the members of the staff of former President Diaz. The staff officials had resigned days ago but had asked permission to escort the provisional president to the scene of his inauguration. The new chief executive was accompanied by General E. Rescon, who took the oath as minister of war earlier in the day.

Most of the distinguished personages in the capital were present, including the diplomatic corps in full regalia, head by the American ambassador, Henry Lane Wilson, the dean of the corps.

Despite the multitude of the crowd which celebrated their business operations on a normal basis. A large crowd gathered about the chamber of deputies and cheered for Senor de La Barra, and General Madero, while the oath was being administered.

It is not regarded as certain that Alfredo Robles Dominguez, general Madero's representative here, and virtually the military commander of the federal district, will not find it necessary to call in the revolutionary forces from the cities of Cuernavaca and Pachuca to maintain order in the capital. The police and soldiers are acting under the direction of Senor Dominguez, with as much readiness as if they had never known another superior.

General Diaz's condition was reported as improved this morning. The inflammation of the military college, which have subsided greatly, and the fever to have disappeared. Members of the retired president's family expressed the belief that he would be able to sail for Europe from Vera Cruz by the last of the month.

General Enrique Torrella, substitute director of the military college, was appointed today chief of staff to Provisional President de La Barra.

Before resigning his office yesterday as minister of finance, Jose Yves Limantour exhibited to Jaime Guera, the new substitute secretary of the treasury, \$60,400,000 in gold in the vaults of the treasury. Senor Limantour turned over all the government funds in his possession, taking Seno Guera's receipt.

The passing of President Diaz was one of the most dramatic incidents in recent Mexican history. The venerable ruler was still confined to his palace, which was hedged about by strong guards and mounted police and soldiers, while across the Zooclo machine guns were manned, ready to deal with any further outbreak such as the night before.

Popular excitement was at a high pitch, but was held in check by the patriotic appeals of Madero's personal representative, Senor Dominguez, for the maintenance of order and the dignity of the cause. Crowds surged about the chamber of deputies, awaiting the words of Diaz's final action.</
