A Big Meeting In Little Rock

Little Rock, Aug. 7.—The good relations between the white and colored people of the South and the readiness with which the white people assist negroes in any worthy endeavor was demonstrated here in the action of the chamber of commerce giving assistance to the colored people in the entertainment of the National Negro Business League which meets in this city August 16, 17 and 18.

Prominent negroes of the city contributed large sums to the entertainment of the Confederate veterans and in turn the chamber of commerce contributed \$500 cash and provided the beautiful Kemper Theatre for a meeting place for the league. Other individual merchants have contributed another \$500. Negroes from all over the state have raised \$4700 for the entertainment of the league.

The National Negro Business League brings to this typical southern centre some of the most prominent and successful negroes of the country, and a delegation of about 3,000 persons is expected. The central figure, of course, is Booker T. Washington, the founder and president of the league. The purpose of the league is to inspire negroes in the establishment of commercial enterprises, to promote and encourage a more intelligent labor and to maintain friendly relations in the south.

Governor Donaghy, of this state, will deliver one of the principal addresses. J. E. Bush, receiver of public monies, Scipio A. Jones, a prominent negro lawyer and Prof. J. A. Hibbler, of Arkansas Baptist college head the local committees.

NEW THEATRE MANAGER.

Chicago Grain

Chicago, Aug. 7.—Manitoba reports of black rust in all fields sent wheat prices flying skyward today. All northern western markets were up far more than here. Offerings did come at all freely and it was not till the market had made a steep ascent that there was any sign of a reaction.

Rains made corn easy. What little buying there was originated in sympathy with the wheat bulge. September opened 1-8 lower to 1-8 higher at 64 3-4 to 65 and weakened to 64 1-2-5-8.

Oats showed more firmness than corn at first but afterward followed the coarser grain downward until influenced by wheat. September started 1-8 higher at 42 5-8, sold at 42 3-4 and declined to 42 1-4.

Stock yard houses took the buying side of provisions and gave prices a lift. First sales were 2 1-2 to 10 up with January delivery 16.62 1-2 for pork, \$70 to \$72 1-2 for lard and \$45 3-4 7-2 for ribs.

TWO DROWNED AT COLUMBIA, S. C.

Columbia, S. C., Aug. 7.—Keane Brown and N. H. Driggers, Jr., were drowned at Ridgewood Lake this afternoon by the capsizing of a boat. The bodies have not been recovered and Coroner Walker will draw off the water at 6 o'clock this afternoon.

Yegmen Blew Safe.

Mcrae, Ga., Aug. 7.—Yegmen blew the safe in the local office of the Southern Railway about 2:30 o'clock this morning and demolished one end of the building. Only a few dollars were found by them. The heavy charge of dynamite or nitro-glycerine blew the safe door across the room and set fire to the debris of the building and furniture. The entire town was shaken and the people awakened. The robbers escaped.

Funeral of Capt. Adams.

Washington, Aug. 7.—Captain Thomas D. Adams, direct descendant of President John Adams and President John Quincy Adams will be buried this afternoon at Newport News, Va., whither his body was sent last night after his death in this city. Captain Adams was 74 years old and had served in the Union army during the civil war. He participated in 67 engagements during that struggle.

New York Cotton

New York, Aug. 5.—The cotton market opened steady at an advance of 7 1/2 points on covering and a renewal of bull support. The market was nervous and unsettled with many traders apprehensive of a renewal of bull support. The feeling appeared to be that there was still a large short interest outstanding and there was some pretty good buying during the early trading on which prices worked up to a net advance of 16 1/2 points on the new crop months. The south continued a moderate seller here. After the advance to 11 1/2 for October fluctuations were irregular.

Bull clique brokers were heavy buyers in the first hour. There were periods of hesitation and irregularity, but the advance continued until October and December contracts sold at 11 1/2, and new crop months generally to a net gain of from 20 to 24 around the level, and the market closed off 6 to 7 points, but bull support continued and the tone was steady at midday, with prices still showing a net gain of some 14 to 15 points.

Spot nominal. Reports of very high temperatures in the southwest were quickly followed by more aggressive support from leading bulls, and the market, after having eased off quite sharply during the noon hour, worked quickly higher with October and December selling at 11 3/8, or 29 to 30 points net higher by early buyers. Sellers checked the advance around this figure and reactions of 6 or 7 points occurred from the best.

Open New York Futures. New York, Aug. 7.—Cotton futures opened steady at January 11.30-31; March 11.39-40; May 11.46-47; August 12.60 bid; October 11.34-35; December 11.34-36.

Close New York Futures. New York, Aug. 7.—Cotton futures closed barely steady.

Open. High. Low. Close. Jan. 11.30, 11.52, 11.28, 11.47-48. Mar. 11.39, 11.60, 11.37, 11.55-56. May 11.46, 11.67, 11.45, 11.62-64. Aug. 12.60, 12.90, 12.42, 12.45-47. New York, Aug. 7.—Cotton spots closed quiet; middling uplands 12.75; middling gulf 13.00. Sales 49 bales.

New Orleans Cotton

New Orleans, Aug. 7.—Cotton futures opened steady at an advance of 6 to 13 points. The ring was well supplied with buying orders on and for some time after the first call and prices responded quickly to the demand. The weather over Sunday was beautiful, private crop reports were bullish. Private crop reporting bureau came out with reports showing a moderate improvement in crop conditions. The movement of new cotton was heavy and Mississippi sent its first bale of the new crop to this market. In spite of this all prices maintained a slow but steady advance until at the end of the first half hour of trading prices were 13 to 23 points over Saturday's close.

With the August delivery 20 points up and the more active new crop months 16 to 18 points up, short selling increased in volume of prices fell off under the pressure until the fall months were unchanged to 1 point down compared with Saturday's close. The minute scalping shorts tried to take profits, however, they found the market ready to respond to their buying. Much of the selling was based on the receipts here of 302 bales of new cotton and the rumor that much new cotton would be tendered against August contracts. Late in the morning session shorts showed no great confidence and a little buying for the long account put prices up. At noon the market was 5 to 6 points over Saturday's final quotations.

In the afternoon session the market was very steady. Offerings were slender and prices gradually advanced until at two o'clock the trading months were 18 to 25 points over Saturday's close.

By Associated Press. Dallas, Tex., Aug. 7.—G. M. Bowers, postmaster at Eagle Ford, this county, is charged by affidavit with criminal assault upon Myrtle and Mattie Adkins, aged 11 and 14, respectively. The affidavit was filed by the girls' father. An officer has gone to Eagle Ford to arrest Bowers.

Excellent Class Of Raw Recruits

By Associated Press. Washington, Aug. 7.—An excellent class of men is being recruited for the United States navy enthusiastically declared Captain Henry A. Wiley, in charge of the enlisted personnel who has just returned from an inspection tour of recruiting stations and training schools that extended across the continent. It is plainly evident, said Captain Wiley today, that the young men who are entering the navy are of high character with an intense patriotic interest in service.

Many young men of high school education who had begun an apprenticeship in some trade have recently entered the navy, he said, some because of a particular liking for the sea and others because of the opportunity offered to learn their desired trade, as the navy today employs members of nearly every craft.

Atlanta, Aug. 7.—Spot cotton 13 1-2.

New York Stock Market

New York, Aug. 7.—Pronounced improvement was shown by the stock market at the opening today, a number of standard shares, including Union Pacific, Northern Pacific, Great Northern preferred, General Electric and Amalgamated Copper making point advances with slightly less substantial gains in Atchison, Southern Pacific, St. Paul and United States Steel.

The better tone at the opening was followed by another receding movement which in some instances carried prices under Saturday's closing. Especial weakness was shown by Reading, Lehigh Valley, Union Pacific and Frisco second pfd. The Hill issues, Atchison, General Electric, American Smelting and coppers offered stout resistance to the decline which was indicative of further liquidation. Recoveries set in before the end of the first hour when the receding movement seemed to have exhausted itself and a general rally was in progress.

Trading fell off in a marked manner before noon and the level reached on the rally of the first hour was only partly maintained. The character of the support offered to certain issues impelled considerable short covering after which the market settled down to a period of dull expectancy and became heavy again at midday. On the curb Standard Oil fell to within a point of last week's lowest on offerings of 150 shares. Bonds were easy.

The annual report of the St. Paul road, showing a deficit of \$3,300,000 after payment of fixed charges and dividends, was used as the basis of a fresh attack upon prices, from which the list recovered with surprising vigor, but the market grew increasingly dull, business diminishing to merely nominal proportions.

Prices continued to hold around the day's best, but the failure of the long account to pursue its advantage to any extent, was the subject of general comment.

The market closed strong. Buying coupled with further short covering sent prices to the top level of the day in the final hour. The special features of strength were the Hill and Harriman stocks, Reading, Illinois Central, St. Paul, Amalgamated Copper, American Smelting, U. S. Steel, American Beet Sugar and General Electric.
