Cotton Caterpillar is Ravaging the Late Cotton Crop and Will Materially Shorten the Total Production of The County, Say the Farmers.

Reports continue to come in from all parts of the county to the effect that the cotton caterpillar is playing havoc with late cotton. The first reported any where in the county was near Matthews the middle of last week, although the pest was likely present in small number before that date and at different points in the county.

Head was Crushed Between Rollers

Mr. T. M. Hargett was called to Stouts, N. C. yesterday by a message announcing the death in a most tragic manner, of his grandson, Cebe Hargett, the 12-year-old son of Mr. James Hargett, of Stouts. The boy was feeding an old-fashioned roller cane mill when he leaned too close to the rollers and his head was caught between them, death resulting instantly.

FIRE PREVENTION DAY SET APART BY COMMISSIONER

Insurance Department, Raleigh, N. C., Oct. 6. To the Citizens of North Carolina: After a consultation with and the approval of our governor, I, as insurance commissioner of this state, designate Oct. 9th as Fire Prevention Day in North Carolina.

The fire waste in this country is enormous, over \$250,000,000 each year. It is inexcusable and criminal, for the bulk of it is preventable. At the request of the convention of Fire Marshals of America and the National Convention of Insurance Commissioners, Fire Prevention Day is being named and observed in a large number of states by proclamations of governors and otherwise, and Oct. 9th is designated, the day of the great Chicago fire. The loss by fire in North Carolina is practically \$3,000,000 annually, over three hundred dollars per person, and more than one-half is not covered by insurance.

Life and Property.

Fires are not only destructive to our property but a menace to the lives of our people. Fires have caused the death of seventeen persons during the present year in North Carolina, to say nothing of the loss in property. Let our school committees and teachers examine our school buildings as to safety from fires and ways of escape in case of fire.

WHEN IT THUNDERS IN CALIFORNIA

your lights may go out and the tallow dip has to be brought from its hiding; the cars may strand you, and your connection for Stouts missed by 2 seconds; the Hendersonville folk may fumble and fizzle about while crime stalks about at will, but the MUTUAL BUILDING AND LOAN stands on just the same, earning a goodly interest for the widow and the orphan, the capitalist and the wise man of business. Yes, my erring and procrastinating friend, it does more. In summer heat, and in winter's cruel blast, when other financial institutions are tottering and fading from view, carrying with them the fortunes of the affluent as well as the savings of the poor and needy, this ship sails into port on time, and as she ties up at the wharf every 3 months, a cargo of sunshine and happiness is unloaded.

THIS IS THE PROPER CAPER, BOYS,

and you're wasting precious time and opportunity by dallying with other schemes and propositions which spell disappointment and failure.
