Worms is Found

New Orleans, Oct 10.—Cotton futures opened steady at a decline of 3 to 4 points. Cables were lower than due and encouraged short selling in Mr. W. S. Alexander, of Crab Orch- the early trading in spite of unfavoraard township, has found a way to get rid of the worms that are eating the the map too much rain was shown for cotton in the fields all over the country. He turns his hogs in the fields and they play havoc with the worms, indications of light frosts at a few eating them off the ground and even points. The market was not active and Mr. with no support coming the bulls was Alexander says that the way the hogs inclined to sag. At the end of the first

reported some little buying of an in It has been said that the worms do vestment character. Reports from net not hurt the cotton, merely opening a few localities in the cotton belt indi-up the leaves so that the sun can get coated a somewhat better spot demand to the bolls and open them up sooner but from samples that have been part of farmers. From several counties worms attack the bolls cutting great holes in them and completely destroy-

ing the immature cotton inside.

Unless hogs and turkeys are a remedy every field that the worms get at noon.

In the afternoon session cotton was the level at noon.

help is found.

From the general statements from the farmers of the county the worms begin in some small part of a field and spread over the whole field at the rate of from one to two or three acres each day, until the whole field is absolutely rained.

In the afternoon session cotton was at first depressed to almost the low levels of the morning by the declines in the southern spot markets, but later a heavy profit-taking movement started among shorts and this put prices at 2 o'clock 2 to 6 points over yesterday's close.

v. until the whole field is absorbationed.
