

Campaign Against Pestyferous Fly

The Health Department of The Woman's Club Will Start an Active Campaign Toward Swatting the Common And Ubiquitous House Fly.

The health department of the Woman's club has begun their crusade against the fly. This work has been going on all over the United States and it is only at the present time that the people of this locality have become fully awakened to the dangers of this most pestiferous and poisonous animal.

Where the work of making the "city beautiful" is a matter of beauty the "city healthful" is a matter of necessity and it is upon this phase of the community life that all other life rests.

All means will be taken to awaken the people of Charlotte to a realization of the fact that a "flyless town" practically means a healthful town.

There will likely be several other matters of interest, among them a charge of neglect of duty against two members of the police force for neglect of duty; Messrs. Joe Orr and John McGraw, and in consequence of which charge they were suspended from the force this morning by Chief Christenbury.

Fat Hog Has Advantage Over Sick Woman

By Associated Press. Kansas City, Mo., Nov. 15.—"I would rather be a fat hog suffering from cholera than the mother of a large family in the first stage of the disease, for if the government were notified by the owner of the hog, it would give immediate aid in the form of a bottle of serum, whereas, if the mother asked help she would receive none because there is no government bureau to aid her."

United States Senator Owen, of Oklahoma, expressed himself along these lines today at the trans-Mississippi Commercial Congress, while pleading for a government health bureau.

"There is something radically wrong with a country that has a bureau for the conservation of plant and animal life and no department adequate of conserving human life," declared the Oklahoma senator.

It was senators' day at the congress. The state executives present were Aldrich, of Nebraska; Stubbs, of Kansas and Harmon, of Ohio. Governor Aldrich strongly supported the rights of states to control interstate traffic rates as affecting themselves and criticized "minor federal courts" for "interfering" with state laws.

Lincoln Centre, Kas., Nov. 15.—Charging that County Attorney McCannless has conspired to spread erroneous reports of the tarring of Miss Mary Chamberlain, attorneys for the nine defendants accused of being members of the "tar party" today filed with Judge Grover an application for a change of venue. McCannless is accused of having caused Edward Ricard, the barber who betrayed Miss Chamberlain to her enemies, to be brought out of jail for the sole purpose of compelling him to give an interview to a metropolitan newspaper reporter and of having himself "interviewed" regularly, by night, in his office in the court house.

Arguments on the motion for change of venue were set for tomorrow.

Woman's Happiness

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an oily emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes.

During the last few years, conditions in all lines of business, even professional life, have changed so completely that every man is waking up to the fact that in order to win success he must specialize and learn to do some one thing and do it well.

So it is with any article that is sold to the people. It must have genuine merit or no amount of advertising will maintain the demand for the article.

For many years we have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp Root, the great Kidney, Liver and Bladder Remedy. From the very beginning the proprietors had so much confidence in it that they invited every one to test it, free of cost, before purchasing.

By Associated Press. New York, Nov. 15.—Grueiling cross-examination aimed at William J. Cummins, of Nashville, accused as a bank looter, is beginning to tell on him. This was apparent today when he resumed the witness stand to defend himself against the charge of having manipulated funds entrusted to him as chairman of the board of the Carnegie Trust Co.

In an attempt to establish that Cummins had participated in kiting operations, the prosecutor asked about the Carnegie Trust Co.'s loan of \$72,000 to Joseph G. Robin, a banker awaiting sentence on the same day the Northern Bank, said to have been wrecked by Robin, purchased a note for \$75,000 of B. F. O'Neil. Cummins was asked if the transaction did not amount to a trade of notes, "so that each of you could have money for your own purposes."
