**Injunction Served On School Board**  
Belmont And North Charlotte Citizens Formally Present Papers Restraining Board From Selecting Peg a Wadsworth Site.

The board of school commissioners met last evening in the council chamber of the city hall for the purpose of examining and approving the plans which were accepted recently by the building and grounds committee for new school buildings. The most noteworthy incident of the meeting perhaps, however, was the serving of an injunction on the board by the school patrons of North Charlotte and Belmont seeking to restrain the school board from selecting the Pegram-Wadsworth Land Company's site for a new \$200,000 building for North Charlotte and Belmont. This is the injunction that has been pending for some time, but the papers were delivered formally at the office of Mayor Bland only yesterday.

A copy of the "injunction" document was placed in the hands of Clerk Wearn to be offered to the board for perusal. The only thing the board did with reference to the matter was to pass a resolution unanimously whereby Chairman of the Board J. D. McCall, was authorized to cooperate with City Attorney Brenizer, in filing an answer to the injunction, the answer to be placed in the hands of Judge Superior Court which convenes in this city November 27. The citizens of Belmont and North Charlotte, it will be recalled, have hotly contested the Pegram-Wadsworth site ever since it was determined upon by the board. They have been before the school by delegation and represented by counsel urging the board not to select the above named site chiefly because it was away from the center of school population and because the people of Belmont gave a handsome majority for bonds in the recent election with the understanding that the present school building at Belmont would be enlarged and improved.

The board selected the Pegram-Wadsworth site because they deemed it well situated with reference to the future growth of the two suburbs.

**Boards Adopts Plans.**  
The board will not delay the plans for the new school buildings on account of the injunction but will proceed toward the erection of the new buildings with all possible rapidity. Water-color drawings and sectional sketches of the plans of the new buildings as drawn by the architects and selected by the buildings and grounds committee recently, were examined by the board last night. Hook & Rogers and Hunter & Gordon were the architects whose plans were accepted by the buildings and general committee and approved by the full board last night. The plans of Hunter & Gordon were accepted for the Fourth ward and Seversville, to cost \$20,000 and \$7,500 respectively. The plans of Hook & Rogers were accepted for the North Charlotte-Belmont and the First ward schools, each of which is to cost \$12,000. The report of the committee also specified that the architects' fees should be 3-12 per cent of the total cost of the buildings. The board also agreed to the recommendation of the buildings and grounds committee that Mr. John Hill be made supervisor of the work of erecting the buildings and that his pay therefore should be 1-12 per cent of the cost of the structures.

**As to Colored Schools.**  
A report was also heard from the joint committee which had been selected to investigate a site for a colored school, the report suggesting that the building be erected in "Fairview," a colored suburb in the northern section of the city, instead of in the Third ward, as originally planned. The report also suggested that the building cost \$75,000 instead of \$10,000 as originally intended. The reduction in cost was made possible by the utilization as material for this building of lumber from the present school building in the Fourth ward and from another building owned by the city. Another item is that the site was secured at a cost of \$600, a much lower figure than the Third ward site could be obtained at. It is also a growing colored suburb and is said to be very acceptable to prominent colored citizens who have expressed an opinion to Chairman J. L. Phillips of the buildings and grounds committee. The board adopted the suggestion of the committee as to this school.

It was further agreed that a \$20,000 building be erected on the one-acre site, at the corner of Fifth street and Travis avenue in the Third ward, recently donated as a school site, by the City Park and Tree Commission, on conditions that the building be a \$10,000 structure.

City Treasurer Wearn was instructed to advertise for an open competition among Charlotte architects for this building, December 1 being set as the date on which the buildings and grounds committee should examine the plans. It was decided also to specifically inform the architects that the buildings must be so constructed as to allow future alterations and expense. This will apply to all the new buildings.

**Baseball Magnates In Session**

By Associated Press.  
San Antonio, Texas, Nov. 15.—Delegates to the convention of the National Association of Professional Baseball Leagues, representing all parts of the United States as well as parts of Canada, were astray early today sight seeing in advance of the first formal session. The addresses of welcome and responses being delivered, and the convention adjourned to an hour later in the day, when the first business session will be held.

The American Association and Eastern League are represented. They seek higher classification. At present they are rated "Class A," the same as the Southern Association. They base their claims to advancement to "AA" on the census, asserting that New Orleans is the only city in the Southern Association comparing favorably with those of the American Association and the Eastern League.

Club disputes and personal controversies concerning players are to be considered by the national board of arbitration. About 200 cases are before the board as well as claims aggregating more than \$25,000; and besides these, there are to be considered various applications from minor leagues for an advancement in the classification.

A continuation of the ten year agreement under which the association was formed is considered a certainty.

**Some Baseball Fan in This Man**

By Associated Press.  
Chicago, Nov. 15.—J. J. Lawrea, of Milwaukee, is perhaps the champion baseball "fan" of the country. Lawrea, who came to Chicago yesterday said he started 17 years ago to collect his statistics on baseball and now has 42 large volumes. It takes him three hours each day to keep his records up to date.

He has the records of 17,000 ball players in his books and can answer any question on baseball that has come up during the last 17 years.

**An Obedient Youth.**  
It was the second meeting of the Sunday school class, and the teacher gazed with pride upon the row of happy little faces before her.

"You all look so happy this morning, children," she said, "that I am quite sure you must have obeyed my injunction to you last Sunday, to devote your week to the task of making at least one person happy. It is in this way that we obtain the greatest happiness for ourselves. Haven't you found it so, Willie?" she asked, turning to a beaming bunch of freckles seated on the end of the bench.

"Yessum," said Willie.  
"You have found it out from your personal experience, haven't you, dear?" she went on.  
"Yessum," said Willie.  
"And now I want you to tell these other children what you did last week in accordance with my directions, to make at least one person happy," said the teacher.

"I took the 25 cents my father gave me," began Willie.  
"Yes," said the teacher, "and what did you do with it?"  
"I spent it all in cake and candy and sody water," said Willie.  
"And all for some little boy or girl?" asked the teacher.  
"Yessum," said Willie, "it was for a little boy."

"That was splendid of you, Willie," said the teacher, "and I'm going to reward you with one of our largest merit cards."  
"Thanky—ma'am," said Willie. "I'll give it to the same little boy."  
"You dear, sweet child!" ejaculated the teacher, giving him a resounding smack on a kiss. "Who was the little boy, dear?"  
"Me," said Willie.—Harpers' Weekly.

**Spent Her Money Well**

On beautiful Sheridan avenue, in Detroit, lives Miss Marie Richter in perfect health, although a year ago she was almost a wreck. Writing of her condition at that time she says: "Last winter I was completely run-down and felt fagged out all the time, was nervous, and had indigestion.

"One of my friends advised me to take Vinol and it has done me great good. The tired, worn out feeling is all gone and I am strong, vigorous and well. The stomach trouble soon disappeared and now I eat heartily and have perfect digestion. I wish every tired, weak, nervous woman could have Vinol, for I never spent any money in my life that did me so much good as that I spent for Vinol."

Thousands of women and men who were formerly weak and sickly owe their present rugged health to the wonderful strength-creating effects of Vinol. If you are pale, weak, nervous and upset you owe it to yourself and your family to try Vinol. It will build you up and make you strong. If it does not we give back your money. R. H. Jordan & Co.

**Will Govern Georgia for 60 Days.**  
Special to The News.  
Atlanta, Nov. 15.—For 60 days will John M. Slaton, president of the Georgia senate, be the governor of this state, taking the oath of office tomorrow some time between 10 and 12 o'clock, contemporary with the resignation of Governor Hoke Smith.

"Governor" Slaton will not occupy the executive mansion, preferring to retain his Peachtree street residence during his brief stay in office.

Without ceremony will the change take place. Hoke Smith will notify Phil Cook, secretary of state, tomorrow morning that he has resigned, Phil Cook will notify Mr. Slaton, who will be sworn in quietly shortly afterwards by Chief Justice William H. Fish.

**Presence of Mind.**  
Miss, tells this one on himself.  
"Court had been in session in Tupelo and there were a lot of visiting lawyers. They were very congenial souls naturally a little game of poker started down at the hotel. I stayed out for several nights, but finally the breakfast table arguments got so pointed that I had to promise to be in that evening by 11 o'clock.

"When 11 o'clock came I cleaned up and could not leave a winner—that would have been snide—so I stayed to give the boys a chance to get their money back. Also, there was plenty of the sort of drinkables prohibited by law in Mississippi.

"Finally the game broke up, and I looked at the clock; it was 2:30. I started for home, making the best time I could. I slipped off my shoes at the front steps, pulled off my clothes in the hall and slipped into the bed room and began to slip into bed with the ease of experience.

"Mrs. Allen had a blamed dog that on cold nights insists on jumping in the bed with us. So when I began to slide under the covers she stirred in her sleep and pushed me on the head.

"Get down, Fido, get down!" she said.  
"And, gentlemen, I just did have presence of mind enough to lick her hand, and she dozed off again!"—Cosmopolitan Magazine.
