New Grieans Cotton

New Orleans, Nov. 15 .- Cotton futures opened barely steady, 1 point up to 1 point off. Cables were better than due but traders on both sides were dispesed to wait for the revision of spot differences in the New York market before increasing their commitments. The weather map was very favorable, clear and dry weather being shown over the cotton country and this was against prices. In the early trading the near months were first two points up but at the end of the first half hour of business the trading months were 2 to 3 points down compared with yes

The market was very dull the morning through. Trading was confined to small scalping operations. The tendency was downward as the result of the forecast of good weather for tomorrow over the entire cotton country and gossip to the effect that the interior was offering spots more freely. This was denied by telegrams from points in Alabama but other sections sent in reports to the contrary. Spot men generally said that they were finding it easier to trade. At noon price es were 7 to 8 points under yester day's close.

The same night an attempt wa made on the safe of H. A. Cook & Co. just one block from the plant of the Carolina Manufacturing Company. Thi was also unsuccessful. The work was evidently done by the same people though different tactics were employ ed. In this case the attempt was mad with a crowbar, but the work was jus as ineffectual as in the first case, not more so. Not even the combinatio was taken off in this case, though was badly bent and had to be straightened with a hammer before the safe could be opened. It was open ed then only with difficulty. Further than the damage done to the lock there was no loss.

The third attempt was on the house of Mr. Springs Alexander, at No. 71 Trading was dull in the afternoon North Davidson street. The whole family had gone to the matinee yesterday afternoon and the house was locked and left alone. When the family returned about 6:15 they found the back door a hinge loose. It is evident that the ate west winds. door was broken down by the force of a shoulder thrown against it, as there was no print of a blow on the outside of the door. There was absolutely nothing disturbed in the house and it is thought that the house-breaker heard the family coming up the cement walk at the front of the house and fled immediately after opening the door. There were tracks of a man or boy found in the yard. The only suspect for this attempt is a negro boy who delivers groceries there and who knows the premises thoroughly, and is accustomed to come to the In the other two cases there has been no clue found as to the identity of the criminals.
