THURSDAY, NOVEMBER 16, 1911. MORE FOOL REFORMERS The "Association for the Advancement of Colored People," whatever that is, met last night in New York an ad hoc assembly to discuss the lynching infection in Dixie—to "save the South," as it were.

A sum was provided for the "investigation of the lynching problem in the South." It appears to have been the general feeling of the humanitarians present that the beleaguered section lying south of the Mason and Dixon's line was worth saving, and should be saved.

We await with unconcealed interest the first application of the salvage remedy. We hope the cure takes. But incidentally a few passing observations may not be amiss. It is rather strange that the members of the "Association for the Advancement of Colored People" managed to overlook the iniquities of Gotham in their salvation crusade. A few lynchings occur in the South and both races deplore them—that is the better class of both races. But in New York crimes of similar depravity are daily incidents.

Much Railroad Building in Sight (From Durham Sun.) There are some large and important railroad developments under way in the vicinity of Durham. Just what these developments are and the final outcome of the activities will be known only by those in the inner circle of railroad investors and promoters. Things are happening so rapidly and there is such a mixup of interests that it is impossible to get any definite line on what it all really means.

What do you think of that—deploring lawlessness and yet advocating civil war? Such reformers as these are the ones who really injure the cause they are endeavoring to aid. The South would welcome any agency which would effect a curtailment of crime, but if we may judge from the tone of the speech quoted above very little real service will be performed by the "Association for the Advancement of Colored People."

CHARLOTTE LEADS THE STATE. According to a report just issued, Charlotte made a better record in manufacture and products than any other city of the state.

FRISCO SYSTEM PURCHASES A NEW RAILROAD. Mobile, Ala., Nov. 15.—News received here from Pascagoula, Miss., says that the Frisco System has purchased the Pascagoula Northern Railroad. It is said the consideration was \$400,000, although nothing official can be obtained here.

for 1909 and these show the value of products to be \$23,272,000 and the number of employes at 3,718.

Henry Beattie must die for the murder of his young wife. His last hope is swept away. The jury heard the evidence and rendered an honest verdict. The court of appeals refused to interfere and now the governor refuses to take any hand in a case which has been fairly settled. It is hard to think of a young man, on the threshold of what could have been a brilliant career, being publicly executed, but there is no other course open in such a case.

Can any one tell us where the man who invented cuffs lived? queries the Greenville Piedmont. In the same house with the renegade who first discovered collar buttons.

The recent election in Charleston seems to have been a triumph of revolutionary forces over Manichus, figuratively speaking.

Even "possum hunting" has its drawbacks, as well as its compensations.

The Chinese rebels are taking queues from Manichus.

A Great Discovery. Some intimation of what the tariff board is up to comes in the Washington news of the day.

To protect this precious crowd, it can dig, delve, and legal grounds and evidence. To protect the producer—it can find nothing! It is a flagrant, a strange admission, to come from a department assumed to enforce, impartially, the laws of this country. Coupled with the report that some of its high officials previously sustained important connections with the New York cotton exchange, it points the imperative duty of congress to probe! The shamelessness of the thing is non-partisan.

South Carolina's Governor. The official has not added to his offenses against public decency and order by openly commending mob lynching of a negro.

He advocated "public executions" of such offenders in his inaugural message, and this is evidently a case in point. He refused to interfere with the lynching of the negro Willis Jackson a month ago, when the mob was led by a member of the legislature.

When he became Governor he voided the commissions of all notaries public in order to get rid of a few negro notaries. He has opposed the taxation of whites in help of negro education. In defiance of law he refused to appoint special judges on recommendation of Chief Justice Jones.

SAVED CHILD FROM DEATH. "After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy. FROM OTHER SANCTUMS.....

A Shameless Confession. An amazing admission is that of the attorney general of the United States of Representative Aiken, of South Carolina. He admits that he is armed to the teeth with knowledge to combat an effort to raise prices in this country, yet "he frankly confesses" that he does not understand the working of a "bear pool," or how such a combination could operate in restraint of trade.

Congressman Aiken had alleged to Attorney General Wickersham that a bear pool had deliberately depressed prices on the New York cotton exchange some three cents a pound, thus robbing the Southern producer of an amount approximating \$105,000,000.

And the attorney general blandly replies that he has no knowledge of such a combination, that he has not even studied the price-depressing side of the market sufficiently to know whether the reputed plot does not contravene the law.

In other words, the department of justice admits that it sees but one side of its job—that of proceeding against attempts to maintain prices, or to prevent their reaching lower levels. Of the other—equally as important, that of safeguarding the interests of producers against speculative bear rams—it knows nothing.

To protect this precious crowd, it can dig, delve, and legal grounds and evidence. To protect the producer—it can find nothing! It is a flagrant, a strange admission, to come from a department assumed to enforce, impartially, the laws of this country.

"Our Personal Guarantee to Skin Sufferers"

R. H. Jordan & Co.

We have been in business in this town for some time, and we are looking to build up trade by always advising our patrons right.

So when we tell you that we have found the eczema remedy and that we stand back of it with the manufacturer's iron-clad guarantee, backed by ourselves you can depend upon it that we give our advice not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons.

We keep in stock and sell, all the well known skin remedies. But we will say this: If you are suffering from any kind of skin trouble, eczema, psoriasis, rash or tetter, we want you to try a full size bottle of D. D. D. Prescription. And if it does not do the work, this bottle will cost you nothing. You alone to judge.

Again and again we have seen how a few drops of this simple wash applied to the skin, takes away the itch, instantly. And cures all seem to be permanent.

D. D. D. Prescription made by the D. D. D. Laboratories of Chicago, is composed of thymol, glycerine, oil of wintergreen and other healing, soothing, cooling ingredients. And if you are just crazy with itch, you will feel soothed and cooled, the itch absolutely washed away the moment you applied this D. D. D.

We have made fast friends of more than one family by recommending this remedy to a skin sufferer here and there and we want you to try it now on our positive no-pay guarantee. R. H. Jordan & Co.

SOUTHERN MEDICAL ASSOCIATION MEET. By Associated Press. Hattiesburg, Miss., Nov. 16.—The annual convention of the Southern Medical Association will come to a close this afternoon with the selection of officers and the place of next year's meeting.

At the morning session an address was delivered by Dr. Charles A. Mohr, of Mobile, on "Sanitation in Southern Cities," and Capt. Charles F. Craig, U. S. A., of Washington, read a paper on "Malarial Infection."

The health car of the Louisiana state board of health, in charge of Dr. Oscar Dowling, is the center of attraction.
