

HUSBAND TESTIFIES FOR HIS WIFE

Relates Some of Her Former Difficulties, And How They Were Overcome.

Lora, N. C.—Mr. W. S. Poteet, of P. O. No. 1, this city, makes the following statements for publication: My wife suffered from troubles common to all women, for about three years. She took one bottle of Cardui, the woman's tonic, and was cured and well.

About three months ago, she was taken down again, and I went, at once, and got her another bottle of Cardui. She felt better very soon. By the time the bottle was used up, she was well again.

We had a neighbor who was in similar condition as my wife, and we advised her to take Cardui, but she did not. Her medicine bill was \$100 and she is not strong yet. Which was the best? Think of paying \$10 to \$15!

I will certainly speak a good word for this remedy, every chance I get.

It is the greatest woman's remedy on earth.

Cardui has a record of more than 20 years' success as a medicine—a tonic—weak, tired, worn-out women. Its wonderful success is due to the fact that it goes right to the spot that needs attention, and does the work that is required.

All women need Cardui—at times. When you do, give it a trial.

STATE SCHOOL LAW-SUMMARY

Mr. N. W. Walker, professor of secondary education in the University of North Carolina, has written for the State Journal a summary of the school laws enacted by the last legislature:

Summary of Laws.

The main thing in the six month's school law is the setting aside of five cents annually of the state levy, in addition to the 20 cents now levied for schools, as a state equalizing school fund to be used in lengthening the term in every district to six months, or as near thereto as possible. Cities and rural districts alike share in this distribution. It is to be used only for teachers' salaries, and a county must first provide a four month's term, by special levy if necessary, in every district; but such levy must not exceed 15 cents on the \$100, even though so high a levy should not produce the money requisite for the four months' term. A direct state appropriation of \$250,000 is made to be distributed by the state board of education to the various counties on the basis of school population. This combines the \$125,000 heretofore distributed to the various counties on the basis of school population and the \$100,000 (commonly called the second \$100,000) heretofore distributed among the weaker counties to increase their terms to four months. To these is added \$25,000.

Compulsory Attendance.

The age limits in the compulsory attendance laws are from 8 to 12 years; the term of attendance required each year is four months; there are ample provisions for exemptions and temporary absence; the violator is guilty of a misdemeanor and is subject to a fine of not less than \$5 and not more than \$25 and costs, and may be imprisoned. Attendance officers are appointed by the county board of education to enforce the law; the attendance officer is made school census taker and record keeper; and provision is made to guard the equality of work done in non-public schools.

State Superintendent J. Y. Joyner says in his opinion it is obligatory on every county to provide compulsory attendance and no county or state has any authority to adopt different rules and regulations. If the amendment were construed as conferring on these boards power to make different rules, it would be a grant of legislative power and hence unconstitutional. The attorney general concurs in this opinion.

A statute now celebrated confers on women the right to hold positions on committees for state and graded schools, boards of trustees for state schools and colleges for women subject book commissions, provided such places are not filled by vote of the people.

Other Changes.

Money is now to be apportioned directly by the county to the school districts, instead of first to the townships.

The county board of education may pay one-half the salary of a health officer for the county, to instruct the teachers on matters of health. First, however, the six months term must be provided.

Section 41 31 has been so amended as to give boards and trustees and committees of graded schools the same authority to secure sites for schools as possessed by county boards of education to secure sites for county schools.

Section 41 31 has been so amended as to allow any county having a school fund not exceeding \$10,000 to unite with an adjoining county in employing a superintendent of schools jointly for his full time.

Hereafter the county board of education is required to appoint the school committeemen for each district as follows: one for a term of three years, one for a term of two years, one for a term of one year, and their successors each for a term of three years; the term of only one member will expire each year.

Electing Teachers. Applications for positions as teachers must be filed with the county superintendent and the county board must fix a day in each township for the election of teachers, when the committeemen of the different districts will meet with the superintendent to elect teachers.

Teachers' salaries are to be paid promptly at the end of each month, even if it is necessary for the board to borrow money to do this.

No assistant teacher may be employed in any school unless the daily attendance averages forty, and when this average drops for four consecutive weeks below forty the assistant may be dismissed.

Treasurers of city school funds are required to report to the state superintendent just as do treasurers of county school funds.

A county superintendent's teaching experience shall have been within five years immediately preceding his election. An appropriation of \$1,500 was made for traveling libraries. This being too small to be used in establishing any general system, will be used in extending the work already underway, to increase the number of libraries used for debate and to provide for traveling libraries in the rural districts, as far as the money will go.

Public high schools are now required to run seven months instead of five months.

Section 41 35 of the revision has been so amended as to allow a part of the loan fund to be used for the erection of dormitories for the rural high schools. Heretofore this fund has not been available for this purpose.

Farm Life Schools. Chapter 49 of the local laws of 1911, entitled "An act to promote the teaching of agriculture and domestic science in the public schools of Guilford county," has been so amended as to apply to the whole state. In making this special law for Guilford county or state-wide application it has been further amended so that no county is entitled to its benefits until a six month's school term has been provided in every district. This law simply makes it easier for counties to establish farm-life schools, and it authorizes the establishment of such schools in connection with the public high schools

A Staple Medicine For All Families

From Infancy to Old Age a Reliable Family Laxative is Most Needed. Try This One.

DR. GEO. T. HULL.

It is inconceivable in this day of general intelligence that any family would be without a simple remedy for the minor ills of life, for often by giving such a remedy in time a serious disease can be frustrated and a life saved.

For example, if at the first sign of a cold a simple laxative-remedy like Dr. Caldwell's Syrup Pepsin were given the beginning of a serious lung affection or of a typhoid fever might be avoided. And also in headaches, nervousness, etc., a small dose of this remedy would relieve the congestion and replace distress with comfort. Mothers give it to tiny infants and little children, and grown people take it with equally good effect.

Thousands of good American homes are never without it, among them the home of Dr. Geo. T. Hull, Prop. Hull Drug Co., Prue, Okla. Dr. Hull has for a number of years recommended Dr. Caldwell's Syrup Pepsin in his practice and writes that "for stomach and bowel disorders, worms in children and a general laxative-remedy it has no equal." Syrup Pepsin saves the health of the family, and it saves doctor's bills. It is a guaranteed cure for any form of stomach, liver and bowel trouble, constipation, indigestion, biliousness, gas on the stomach, headaches, drowsiness after eating, etc. Have no hesitancy about giving it to any member of the family, however young or old, for it contains nothing injurious to the youngest person.

A bottle can be obtained at any nearby drug store for fifty cents or one dollar. The latter size is more economical and is bought by those who have already convinced themselves of its merits. Syrup Pepsin users learn to discard pills, salts, cathartics and purgatives generally as they are too great a shock to any average system.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

Daughters Of The Revolution Meet

By Associated Press. Philadelphia, April 28.—The general convention of the Daughters of the Revolution opened its 22d annual convention yesterday when more than 30 delegates representing eighteen states assembled here and journeyed to the Washington Memorial Chapel, Valley Forge. The chapel was profusely decorated with flags, flowers and the society's colors of blue and gold.

Each of the stateregents carried a floral wreath. These wreaths were hung on the ends of the pews during the services. Mrs. Clarence L. Bleakley of New York, president general of the society addressed the members at the close of the church services.

An informal reception was held last night and the committee on credentials will meet today when various points of historical interest will be visited. The annual banquet will be held tonight and the first business session tomorrow.
