

Barry Goldwater

Barry Goldwater On Campus

April 17, Tickets Disappearing

1964 Republican presidential candidate and former senator from Arizona Barry Goldwater will lecture here on April 17, Wednesday, in the Union Cafeteria at 8:00 p.m.

Tickets for the lecture are \$.75 for students, faculty, and administration and \$2.00 for the general public.

Barry Goldwater served in the United States Senate from 1953 until 1964. He was the senior Republican on the Labor and Public Welfare Committee and a

member of the Armed Services Committee and its key Preparedness Subcommittee, which oversees the Nation's armed might.

He also served three terms as chairman of the Republican Senatorial Campaign Committee --and received the unanimous acclaim of his colleagues upon relinquishing this key post.

Mr. Goldwater is a World War II veteran who flew cargo across the "Hump" from India to China. Now an officer in the Air Force Reserve, he has logged over 8,000 hours of flying time in jet and conventional aircraft.

Born in Phoenix, Arizona, on January 1, 1909, Goldwater attended public schools in Phoenix and Staunton Military Academy in Virginia. He entered the University of Arizona but left school on the death of his father to become the head of the family.

He began working at Goldwater's Department Store as a junior clerk. At the age of 27, he became general manager and thereafter initiated a 5-day work week and provided liberal life insurance, hospital and surgical policies for employees.

Barry Goldwater began his political career in 1949 when he was elected to the City Council of Phoenix on a "reform" ticket. In 1952 he launched a hard-driving campaign to defeat the Democratic Senatorial incumbent,

then majority leader of the U.S. Senate. In a startling upset, Barry Goldwater won. He easily won reelection in 1958.

He is one of the most widely read men in America as the author of three best-selling books, the latest of which is *Where I Stand*. For four years he wrote a political column carried in 200 newspapers from coast to coast.

He met Mrs. Goldwater, the former Margaret Johnson of Muncie, Ind., in 1932 and two years later they were married in Muncie. They have four children, and four grandchildren.

BSU Presents Dr. Schweitzer

From U. of Tennessee

Dr. George K. Schweitzer, professor of chemistry at the University of Tennessee, will speak on campus at 11:45 a.m. on Wednesday, April 10 in C-122.

His topic will be "Scientific Faith and Christian Knowledge." His visit here is sponsored by the Baptist Student Union.

Dr. Schweitzer, a native of Poplar Bluff, Missouri is at present at the University of Tennessee. His duties include teaching and directing research in the fields of inorganic and nuclear chemistry both on the main campus and at the Oak Ridge division of the University.

Professor Schweitzer received a B.A. in chemistry from Central College, an M.S. in geochemistry from the University of Illinois, an M.A. in religion from Columbia University and Union Theological Seminary, a Ph.D. in inorganic chemistry from New York University, and an Sc.D. for work in the history of science from Central College. He is author of over 80 papers in organic and nuclear chemistry, a textbook on radioactivity, a book on the doctorate, numerous papers in the interesting spheres of science, philosophy, and religion, and is contributor of essays to a number of books.

He is a member of Phi Beta Kappa, Sigma Xi, The American Chemical Society, The American Philosophical Association and the History of Science Society. He has acted as scientific consultant for the Atomic Energy Commission, Monsanto, Proctor and

Gamble, American Cyanamid, the Army Radiological Defense Laboratories, and other companies and agencies.

Dr. Schweitzer is a member of the First Baptist Church in Knoxville, and is active as lecturer to the University Seminars in Religion, a program attracting about 200 students each Sunday.

 FUN IS WHAT CYCLING IS ALL ABOUT KEEPING IT THAT WAY IS WHAT SAFETY IS ALL ABOUT SO DRIVE SAFELY!!!

COST: LOWER THAN EVER
 Connecticut Mutual Life has increased dividends again. The new dividend scale for 1967 is substantially higher. Result: Next year policyholders will receive over \$5 million more than they would have if the scale had remained unchanged. In fact, the new scale is almost double what it was 20 years ago. In that time, there have been 12 increases in dividends.
 That's what we mean by "low in cost, too!"
 But that's not all. We've added new benefits and riders--and have liberalized others. All "Blue Chip" quality.
 Look into "Blue Chip" life insurance today. It's better than ever.
