

# Marlena ... Marlena... Marlena...

*There are two types of people in this world — those who watch, and those who do. Marlena does, you watch.*

*"This is a cut from my newest album, 'Marlena Shaw Out of Different Bags', which, if you run right down to your local record shops, you can get for about \$3.47. If you wait a couple of weeks, you can get it at my house for 86c - the record, that is."*

*Tell it like it thinks I am.*

*"Go away little boy..."*

*"When I say that, Do You Know What I Mean?"*

## Miss Shaw Entertains at the Club

The Club University presented Miss Shaw Friday night in the Parquet Room from 9:00 until 12:30 in the nightclub atmosphere. Singing "Go Away Little Boy", Miss Shaw began an evening of entertainment consisting of her lovely and original songs, occasionally spiced by her unique wit. To quote Miss Shaw, it was "sock-it-to-me time!" The audience fluctuated from tears to laughter as the very versatile performer sang familiar songs such as "By The Time I Get to Phoenix", "On A Clear Day", and many light, wispy tunes. Accompanying Miss Shaw was the

very fine and celebrated musician Leonis McGlohon. McGlohon and his orchestra provided a variety of dance music between performances. In an interview with Miss Shaw before her performance here, this writer was graciously received, and she offered information about herself freely and frequently quite humorously. She lives in New Rochell, N.Y. where she began her career singing jazz with her uncle, who played the trumpet. Asked if she would change her field of music, she replied very definitely, "No." She said, "Jazz is just a

part of your 'thing'." Jazz is in her and, as she said, if she tried to sing anything else, the result would have a jazz flavor to it. She has appeared at numerous night clubs and Playboy Clubs. Asked if performing at a Playboy Club is different from a night club, she said, "No, but the first time I sang there, I wore a dress up to my neck and down to my ankles—just to be different!" Though coming to UNC—C for her performance directly from a party with record distributors, Marlena Shaw looked fresh and

beautiful. At the party, she was poised, relaxed and forever smiling—the necessities for a professional. Although there were smiles and charm for the disc jockies and distributors, Miss Shaw says while on stage she sells Marlena Shaw, not the record she sings—and Friday night at the Club University that's just what she did! By the end of the evening, she had the audience, small as it was, swooning in the palm of her hand!
