A number of civic groups in Charlotte are corresponding with their affiliated clubs throughout North Carolina, so that these clubs can initiate supporting action in their individual areas. The Lions Club is contacting other Lions Clubs, the Junior Chamber of Commerce is contacting other Junior Chambers, and the Altrusa Club is contacting its affiliates throughout the state.

In addition, all city school superintendents in the state have been contacted, and it now appears as though the measure will have wide support from business, educational, and civic groups.
