

# New Officers, Candidates Are Interviewed

DUDLEY JARNIGAN  
Run-Off Presidential  
Candidate

Dudley Jarnigan has been at Charlotte College for two years. He attended West Mecklenburg High School, where he was president of the Engineer's Club. As a track man, he attended the State Track Meet, in which he placed high.

At Charlotte College Dudley is taking a Liberal Arts course. He plans to major in history and go into teaching. Eventually he plans to transfer to either Appalachian or Western Carolina.

On the subject of the Student Council, Dudley states, "I am for the best for Charlotte College through the students of Charlotte College." He agrees with Mr. Larry Lynn that there should be more improvements and that students should show that they are capable of accepting responsibility.

LARRY LYNN  
Run-Off Presidential  
Candidate

Larry Lynn has been at Charlotte College as a full-time student for two years. Before, he attended night classes on a part-time basis. Larry graduated from Winecoff High School, in Concord. He was in service during the Korean War.

Before entering Charlotte College, Larry worked as an electrician. He is now a widower and lives with his ten-year-old daughter in Concord.

Mis major at Charlotte College is Political Science. He plans to finish here and perhaps go into teaching.

In speaking of the Student Council, Larry commends it for the good work it has done in the past, but strongly believes there is still room for improvement. Students need to show their maturity, Larry feels. "Along with privileges go responsibilities," he says.

JOE WILLIAMSON  
Vice-President Elect

Joe Williamson came to Charlotte College from Myers Park High School. At Myers Park Joe was a member of the Engineer's Club, the Latin Club, and the French Club. A major in Electrical Engineering, Joe plans to complete his education at N. C. State College.

Joe holds a scholarship at the College, and he is the chairman of the Special Activities Committee, which inaugurated the "free flicks" for C. C. students. This Committee also started the Drama Club under the leadership of Freddie Cornue.

CAROL MINNICK  
Secretary-Elect

Carol Minnick graduated last year from Our Lady of Mercy High School. There she held the positions of senior class president, associate editor of the annual, member of the Honor Club, member of the Sodality (a religious organization), and cheerleader. Carol is also a Charlotte College Cheerleader. Her major is Political Science, which she plans to continue toward a degree from Charlotte College. "I will probably later go into law," says Carol, "but first I plan to get married after graduation."

SANDRA HODGES  
Treasurer-Elect

This is Sandra Hodges's second year at Charlotte College. Here she has been co-chairman of the Social Committee, member of the annual staff, and member of the Student Council.

At East Mecklenburg she belonged to the Drama Club, Choir, Safe-Driving Club, and Folk Dancing Club. She is presently majoring in Elementary Education. She, too, plans to finish at Charlotte College and later teach in a kindergarten.

## CC Club Joins Dixie Conference

By Tom Winstead

Early in April, Charlotte College joined the Dixie Intercollegiate Athletic Conference, Coach Irving Edelman announced. Other member schools are: St. Andrews, Wesleyan, Methodist College, Lynchburg College, and Charleston College.

The CC Club joined the conference to provide incentive for our athletic program and to increase competition. The Dixie Conference purposes to keep

sports on an amateur basis and maintain high scholastic standards for players.

The majority of the member schools are small, new institutions -- young in sports. The games will not be under such high pressure as bigger schools generate.

For the 1963-64 season, twenty-one basketball games have been scheduled, of which ten will be conference games. Other games will be played with Wingate (2), Asheville-Biltmore (2), Furman Frosh (1), and Spartanburg (1). Five games remain to be scheduled.

The conference games will be played February 20-22, in Charleston, South Carolina. Following this first season, the Dixie Conference plans to expand into other sports, such as tennis, golf, wrestling, soccer, track, and baseball, as the member schools increase in size and facilities.

## They Fly

(Continued From Page Three) of civil disaster to remove victims or ferry supplies. Presently, the Air National Guard wants to recruit prior service men in certain needed specialties. Detailed information can be obtained from Lt. Billy G. Shermer at Douglas Municipal Airport.

## Always A Lady!

(Continued From Page Three)

heard a splash and a weak bark. There was Murch! As the tide had gone out, our bow line tightened against the overhanging limb and held the prow above water. Murch had climbed on board and waited patiently for his rescue.

Needless to say, we bought a new boat, and now Murch always wears a life-preserver when we ski.

## Peace Corps Said To Offer Opportunities

"Often citizens of our country do not recognize their unique qualifications to work abroad. Americans generally don't realize how desperately in need of their everyday skills towns and villages in the southern half of the globe are today." These words were spoken by Lawrence E. Dennis, Associate Director of the Peace Corps.

With the addition of the junior year at C. C., perhaps future volunteers for the Peace Corps will come from this area of North Carolina. Students would be able to use their experience in various skills, learn about far-away places, and perhaps gain teaching experience. The romantic thoughts of cooking over campfires (while shooting mosquitos) and drinking from a sparkling stream (after sterilizing the water) go along with the ecstasy of high Peruvian mountains and the intangible Thailand.

Versatility, a collection of knacks gleaned from hobbies or summer jobs, participation in sports, a general broadness of experience -- these seems to be the decisive qualification.

How are candidates chosen? A volunteer Questionnaire, available at the Post Office, starts the procedure, and character references playing a large role. A Placement Test is then taken to determine the person's abilities in various areas. He is trained for his particular country or project at a nearby university, such as U. N. C.

The volunteers serve for a period of two years and live with other volunteers, if possible all the time. Married couples may serve together if they have no children. A month's vacation annually may be spent in a nearby foreign country.

The best time to join the Peace Corps would be after graduation from college or between the sophomore and junior years. Any student interested at present should see Mrs. Edyth Winningham or Mr. Archie Costner.

"There will probably not be a conference at Chapel Hill this year," said Mrs. Winningham. "But all the students should watch for the bulletin board on the Peace Corps."

## Peacocks Are Here

By S. O. Lindeman

Mr. Walter Q. Peacock, and his wife, the former Peggy Peahen, arrived at Charlotte College during the fall semester to begin studies toward a degree in Engineering Agronomy. Mr. Peacock is a former Presentation Technician with the Color Television Division of the National Broadcasting Company in New York.

The Peacocks are receiving visitors in their dormitory suite in our Agricultural Sciences

Building. However, Dr. Herbert Hechenbleikner, Mr. Peacock's Faculty Advisor, has advised that Mr. and Mrs. Peacock are likely to be somewhat edgy and out of sorts because of the strain of their rather involved curriculum. Visitors are requested to make appointments through Dr. Hechenbleikner's office if they wish to call on Mr. Peacock.
