

LOCAL AFFAIRS.

This month has five Sundays. The horn of the thresher is now heard in the land.

Croquet games are now pleasant evening pastimes.

Quite a change in the weather this week. The nights are cool and pleasant.

We understand the salary of our postmistress has been advanced \$200 per year.

The campaign hat and the red bandana made their appearance on our streets Saturday in full force. Almost every voter has one.

Died, at the residence of his parents at Forest Hill, on Sabbath afternoon of consumption, Charles Haydock aged about 17 years.

Last Sunday morning Mr. Ed. Hall turned loose five carrier pigeons from the top of the new bank. They were from a New York sporting firm.

The Farmer's Store has a nice way of keeping their butter on ice. They have an ice box made for the express purpose of keeping it nice, cool and fresh.

Next Monday the Teachers Institute for Stanly and Cabarrus counties will open at Misenheimer & Lentz's Springs. We learn that many of our people will attend.

Messrs. Barubardt & Sons of Pioneer Mills sold this week to Mr. C. G. Montgomery 60 bales of cotton. The Brown Brothers have the contract to deliver it in Concord.

Salisbury base ball club No. 2 and Concord's No. 2 team met by mutual agreement Tuesday at China Grove for a game. The result was a score of 23 to 9 in favor of Concord.

Our new bank building presents a handsome appearance. It is completed and business opened Thursday morning. It will be of untold benefit to all business men of our town and country.

Communion services in the Presbyterian church Sabbath, July 7th. Preparatory services Thursday and Friday 8:30 p. m. in the church, and Saturday 8:45 p. m. at the chapel. The pastor will be assisted by Rev. I. L. McLees, of Charlotte, N. C.

We are in receipt of a copy of the Southern Home published at Mt. Holly. From it we learn that the fair to be held at that place this year promises to far surpass the previous one. Reduced rates will be given on all railway routes.

The 14th of July is set apart as a county day at Misenheimer & Lentz's Springs, during the holding of the Institute. The county board of education and all committeemen are urgently requested to be present. The programme laid out for a pleasant and profitable time during the whole session is complete. Prominent speakers have signified their intent to be present.

Rev. Charles Sherrill, who has just graduated from Randolph Macon Theological Seminary, preached in the Methodist church Sabbath evening. The effort is highly spoken of by all who were present, both as to delivery and sound theology. Our young friend bids fair to take a place in the front rank of able Methodist divines, and we are glad to note that the old North State will have the benefit of his energy, zeal and ability in the cause of the Master.

We very much regret to say that the services last Sabbath at St. Matthews M. E. church near Concord was greatly disturbed by a party under the influence of John Barleycorn. It is bad enough to get boozed at any time, but when a person goes to church in such a condition, to the annoyance of those who attend to be benefitted, there seems to us no excuse. The law forces no one to attend religious services, but it does provide for good behaviour by those who go.

Tuesday morning early an old man with several quarts of blackberries for sale, created quite a ripple of curiosity among the early risers with the statement that his daughter the night previous had thrown up a full grown frog. Ye local became interested and gathered the statement from him that his "darter" had certainly thrown up a frog, and that she was bewitched and pined by another family.

He picked, he says, to indite 'em, and if that don't do he'll try some other way. Later in the day one of our prominent physicians visited the sick girl and really saw a toad in a bottle, but we cannot hear that his decision is that the patient "throwed" up the toad or had any "pisen" symptoms. The old gent sold his berries.

I said in my last Items that I would give some experience of one of our farmers, who raised cotton. He commenced in 1886 by preparing 13 acres of land, then by using 175 pounds of acid mixed with an equal amount of made soil and manure, with about 8 bushels of cotton seed.

The result was 750 pounds of seed cotton to the acre. In 1887 he improved. He used the same land, 13 acres, on which he used 225 pounds acid, and increased his cotton seed, manure, etc., in proportion. The result was 1,200 pounds of seed cotton to the acre. This year he increased his fertilizer from 225 to 400 pounds to the acre. If he has success he will gather 2,400 pounds of seed cotton off of every acre planted. PEA JAY.

They played a full game and the score stood: Concord 23, Salisbury 9. Mr. Charles Foil was the hero of the game, having placed the ball away in the left field, thus bringing in three runs and himself making a home run. GUARD AGAINST THE STRIKE. And always have a bottle of Acker's English Remedy in the house. You cannot tell how soon cough may strike your little one, or a cold or cough may fasten itself upon you. One dose is a preventive and a few doses a positive cure. All Throat and Lung troubles yield to its treatment. A sample bottle is given you free and the Remedy guaranteed by N. D. Fetzer. Drug-gist.

From all parts of the State come tidings of more thorough organization than ever before in the Democratic ranks, of greater enthusiasm and of more earnest entrance upon the work of the campaign to the end that Democratic principles may continue to prevail. So it may be until election day; so may we roll up a majority of 30,000, but so only may we hope to win. Lukewarmness, too great confidence in our strength, may cause us to fall in our endeavor, and there is altogether too much at stake, so far as the real interests of the State are concerned, for us to allow the possibility of defeat to enter into our calculations at all. We all know what the result of a return to Radicalism would be. We must place the success of the Democracy beyond peradventure, and everywhere we must undertake the serious and sustained work necessary to this end. News and Observer.
