A sure way to make farm life interesting and to stop the grumbling of boys is to awaken in them an interest in the remarkable things in nature to be found on the farm. Have one of the boys explain why grass is dark green when it grows rapidly. Tell him clover is hot grass, and then have him find out what it is. Give him the books to find out these things. The boys need some thing to think about connected with thing to think about connected with the intensely interesting operations of nature going on around them.

Give them the means, as well as the opportunity, to learn all about them and the furrows will be shorter, the hot days will be cooler, the comnands to horse and cow more pleasant, but just as impressive, and their faces will be drawn into handsomer lines and their thoughts purer ideals

experimented with upon infested animals the past winter with the fol-

while warm, not hot, thoroughy into

by using a small force pump with a few feet of hose attached and a Confirm our statement when we say nozzle. This method was found that Acker's English Remedy is in very desirable, as the application could be made more thoroughly, quickly and easily in this than in any other way. One man worked the pump, while two others with their finger tips vigorously "shamtheir finger tips vigorously "shampoced" the animal as the liquid was forced into the hair through the nozzle. The time required to treat the FEMALE SEMINARY ten animals was fifty minutes, and the amount of the emulsion required was less than eight gallons. When cloths were used it was found much more diffiult to thoroughly wet the hide, as the hair would mat down and shed the emulsion. The next day after making the above application the animals were examined and it was found that the lice were all dead. As an eight per cent. emulsion costs less than two cents a gallon, and as it takes so little time to make the application, it seems need-

POTATO WATER—A number of snimals were treated like the preceding with potato water. Seven bushels of potatoes were covered with water in a large caldron, and boiled until thoroughly cooked. The amount of water poured off the boiling was eight gallons. This was used like the kerosene emulsion, except the sound of Commissioners for the town of Concord do ordain—Sec. I. That any owner or the guardian of any owner of any premises or lot upon which there is a cellar, sink or excavation near or next to any sidewalk or pavement who shall not, within twenty-four hours after having been notified, in writing, by the Mayor, surround such cellar, sink or excavation so as to prevent injury to persons or stock, and in such manner as the Mayor shall direct, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined afty dollars or imprisoned twenty days. med like the kerosene emulsion, except that it was applied to the animals with a cloth, the water being too dirty to admit of the use of the the cattle the first, second and third says after the application showed no dead lice but plenty of living ones. About two weeks after this I was told by the men that eared for the stock that the lice had nearly all disappeared from these animals, and one examination I found such to be pump and nozzle. Examinations of on examination I found such to be the case.

less that any one should allow his

stock to become seriously lousy.

Capt. R. P. Speer, who requested that the above experiment should be made, says he has repeatedly freed his young stock of lice by two or three applications of potato water made at intervals of about one week. Those who use this remedy do not claim that it will destroy the eggs.

Pare pyrethram was dusted upon the back and neck of two young snimals where the lice were very numerous. The following day the hair was full of dead lice, and no live ones could be found about the treated parts.

Of other remedies that are often recommended, probably a strong depoction of tobacco and a mixture o sulphur and lard are two of the best. A solution of corrosive sublimate or a mercurial ointment will kill the lice, but these are dangerous to use.

Carbolic acid soap, sulphuret of potassium and ashes all have their

To THE EDITOR-Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently The Farm. cured. I shall be glad to send two bottles of my remedy free to any of your readers who have consumption if they will send me their express and post office address.

To the honest inquirer after truth, who, troubled with some contagious blood dis-VAN WINKLE, PRATT AND HALL troubled with some contagnous mood disease, seeks a remedy which will completely eradicate from his system every germ of blood poison, that the ones he loves-his wife and his children-may be saved, the experience of others comes as a mighty revelation. Common sense tells him actual results are the only sure proof of curative virtue. Read the inflowing true testimony:

BE OF GOOD CHEER.

Twelve years ago I contracted a terrible ct v of blood poisoning. My affliction was truly horrible. I had no appetite, did not sleep well at night, my digestion was impaired, my throat was full of ulcers, and in fact I was a total wreck. I had been under the treatment of several of the leading physicians of Atlanta; tried nearly every blood remedy advertised; went to Hot Springs, where I remained several months, receiving no bene mained several months, receiving no ben-efit whatever—the dread disease still clung

Three years ago I was laid up with rheumatism. My knees were drawn up in such a position that I could not leave my bed for months.

Last summer the disease seemed to re-

Last sammer the disease seemen to renew its attack upon me with all the ravages of death. My life was a lingering
torture, and I had despaired of ever getting well when a friend of mine recommended B. B. B. I began to use it at
once, and find myself permanently cured.
I refer to Rev. C. C. Davis, Dr. John G.
Westmender. and numerous others who know of my case. I cheerfully recommend B. B. E., for I really believe it is the best medicine for the blood in the world.

JAS. L. BOSWORTH, Atlanta, Ga. During the month of February I bought one bottle of B. B. B for my four-year old boy, who had what doctors term hereditary blood poison, and to my utter aston-ishment one bottle cured him. In February my elder son, twelve years of age, was literally covered with ugly sores on his legs, and a terrible cruption on his head. He was cured with two bottics of B.B.B. As a quick blood cleanser it has no equal. JAMES HR.L. Atlanta, Ga.

For several years I have been suffering from a constitutional blood poison, which has resisted the treatment of our best physicians, and the use of the most noted medicines.

I was covered with a copper-plored eruption all over my body and limbs, with firest and great nervousness. I became accredulous, but being told that B. B. B. was a sure enough blood puriner and that it did not require a patient to use a cross before he was cured. I commenced its use. Within two weeks time I fait im-proved. I have taken about tea bottles and feel as well and sprightly as any man. My appetite and strength have returned and my hair does not fall out. I do not tonic and keeps my system in a tine consufferer to me in person.

K. P. B. Jones,
Atlanta, Ga.

bottle of B. B. B. I experienced see may and my despondency was somewhat dis-pelled. I kept using it until I had taken sixteen bottles, and all the ulcers rhousestism, and other horror of blood me and well again, after an experience of wenty years of torture.

A. P. BRUNSON, Atlanta, Ga. Kennfsaw, Ga, Sept. 11, 1887.

B. B. B. Company—MY Dean Sig:
I take great pleasure in acknowledging
the great benefit my wife has derived from
your great and wonderful medicine. B. B.
B. For two years she was a great sufferer from Scrofula, or some blood disease which had lain dormant all her life.
We had attention from some of the most
skillful physicians in the country, but all
to no effect, until we had all despaired of
her ever recovering. Her mouth was one her ever recovering. Her mouth was a solid ulcer, and for two mouths or ma her body was broken out with sores until she lost a heautiful head of halv, also eve-lashes and eye-brows: In fact, she scenard to be a complete wreck want all the world to know: I use three bottles of Blood Bahn medicine has done

the work which would sound incredible to any one who did not know it to be so. To-day my wife is perfectly healthy and clear from any scrolulous taint, and she now has a three-month-old habe, also perfectly healthy. Very respectfully

H. L. CASSIDY.

GLEN ALPINE STATION, N. C. February 13th, 1888. This is to certify that three years ago I had my left leg amputated four inches below the knee, caused by blood poison below the knee, caused by blood poison and bone affection. After it was amputated there came a running ulcer on the end of it that measured 3½ inches one way and 4½ inches the other, and continued growing worse every day until a short time ago. I was given up to die by the best doctors in Charlotte. I heard of the wonderful B. B. B. I resolved to try that. My weight at the time I commenced B. B. B. was 120 pounds. When I had taken three bottles I gained 37 pounds in weight; when I had taken twelve bottles I was sound and well, but continued taking until I had taken fifteen continued taking until I had taken fiftee bottles. I now weight 180 pounds as measure five feet and three inches hig I contend that your medicine has no ec

as a blood purifier. It certainly worked like a charm. (12) J. R. Willson. W. J. MONTGOMERY. J. LEE CROWELL Montgomery & Crowell,
