BILL NOT IN EFFECT.

The law was ratified today, but some one was perhaps purposely careless, and 8 per cent. is the rate for over a month yet.

Raleigh, N. C., Feb. 22.—The income bill was ratified today, but by the omission of the clause making it law at once it does not go into effect until thirty days after the adjournment of the Legislature.

Went to Mt. Pleasant.

It was a long, muddy drive, but those who went out to Mt. Pleasant to attend the reception at the Seminary Friday night, were well repaid for their trip. Among those who attended were: Mrs. R. A. Brown, Miss M. G. and Maud Brown and Miss Lillian Moss, Charley Lowe, and Louis Brown.

A New Teacher at the Graded School.

Miss Dodson, who sustained a painful accident about a week ago, had her resignation as teacher of the Graded School to the Board. She was accepted. Miss Mollie was elected to the position made vacant by Miss Dodson's resignation. There were two other applicants, all of whom are competent and experienced teachers.

About Murderer Ferron.

Ferron, the negro, who murdered Deputy Owen, was successfully carried through the country from Rowan to Lexington jail, by Sheriff Monroe.

Judge Frown was in Salisbury when the affair occurred and he instructed the sheriff to protect the prisoner at the risk of his own life. Sheriff Monroe did so.

An effort is being made to have a special term of court to try Ferron. If this is done and justice is meted out promptly, all will be well and much good against lynch law sentiment will be done.

Forty Years in a Well.

E. W. Coker, of Ashland, was having his well cleaned out a short time ago, and while the work was going on a china pitcher was found in good condition that had been in the well for forty years. When it fell into the well it was well covered and full of nice fresh butter, and when taken out the other day it was in perfect condition, except the handle being broken off. The butter was as nice and fresh as it was the day it went into the well. Strange to say this butter had never got strong enough to get out of the well, but it is true. The water in the well is very strong. There is also a fine gold watch in the well that has been there a number of years. The flow of water was so strong and deep that the watch could not be found, and like McGinty, is still at the bottom. This well is on the old Shockley place in the western part of this county, about eight miles from this place.—Georgia Tribune.

The kite season is on.

NO STRIKE.

The Committee Which Went to Washington Back—Railroad Affairs.

The committee of railroad employes, which left here several days ago for Washington to treat with the officials of the Southern Railway Company in regard to the 10 per cent. cut, returned yesterday. The committee consisted of Engineer T. J. Shriver, of Birmingham; J. S. Burden, of Atlanta; Engineers Fezer and McCullough, of Charlotte, and Conductor Walter T. Mooney, of the Air Line. The trouble, the committee said yesterday, was over, they thought; that everything was settled and that there would be no strike. One thing the men wish stated, and that is about the report that Third Vice President Baldwin had said if the men did not accept his contract they could get out. They say that Mr. Baldwin made no such statement; that is absolutely untrue. The Observer learned yesterday that if there had been a strike the Florida, Central & Peninsular men were ready to stand by the Southern men.—Charlotte Observer.

It May do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had Severe Kidney troubles for many years, with severe pains in his back and also that his bladder was affected. He tried many so called Kidney cures but without any good result. About a year ago he began the use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure all Kidney and Liver troubles and often gives almost instant relief. One trial will prove our statement. Price 50c for large bottle at Feltz's Drug Store.

A Caucasian Reporter Eats Rat Poison.

This is from a Raleigh letter: "Mr. Thomas Bailey, son of Rev. Dr. Bailey, and city editor of the Caucasian, was poisoned by Rough on Rats, which was on a biscuit which he ate. For several hours he was very sick, but is now all right."

He Took it Back.

An enthusiastic politician and advocate of weighing all the cotton at the platform, had to take water on Friday.

Everybody has a right, (except women) to be politicians and enthusiastic, but these two give no one the authority for uttering a broad untruth.

A man made the charge that the cotton sold here and weighed at Cannon's factory and Odell's was not weighed correctly. This was his argument for the platform, and he had no other. Representatives appeared on the scene about that time. Statements and proofs made him out a misrepresenter of facts. He begged off, fessed up and took water.

Possibly more misrepresentations have been made about the cotton weighing &c than about anything of this decade.

Found Through The Standard.

Friday afternoon the Standard advertised for a gold watch that had been lost in the city, on the streets, Thursday afternoon. The watch was found by Mrs. Ed. Cline, and within twenty minutes after the appearance of the Standard the watch was delivered into the hands of its owner. Verily, advertising pays.

A Dreadful Affair.

Gastonia Gazette: An awful death overtook a young man named W. F. Gladden at Mr. A. P. Fronberger's distillery last Monday night. Gladden was tight. He had lost some sleep and was sitting over the fire nodding. When the distillery closed about dark, Gladden was left there for the night, as he was not in a condition to be sent away. There was about a hatful of fire in the fire place. Next morning about daylight Gladden was found dead out in the floor, with all his clothing burned off. His tongue and lips were burned by the fire and smoke he breathed. There were signs of his having crawled around in the room in helpless distress. He was a young man of about 25 years of age, but was not considered altogether bright-witted. Nobody knows how or at what time of the night he caught fire. A negro woman not far away says she heard cries of some one in the night but as it was a common thing she paid little attention to it.

Under This Banner

Readers of this paper can now march to knowledge, honor and success. All intelligent people agree upon one fact—that there is no middle course to pursue in life. It must be progress or retrogression. We must go forward or backward.

To Succeed in Life

Is the desire and aim of all. Chief among the elements of success is education, and chief among the sources from which that education may be acquired is the ENCYCLOPEDIA BRITANNICA.

It treats of every subject on earth in a clear, practical and sensible way. It unravels to you all the secrets of nature, so far as they have been unlocked by the wise men of the earth. Far from wearying you, you will find it entrancingly interesting.

We will not tell you that you ought to have the ENCYCLOPEDIA BRITANNICA. You know that already, don't you? But we will tell you that you ought to get it now.

Why?

Because a good thing cannot be done too soon. Because if the books are of value to you, every minute you are without them is a loss of that value for that time; is it not?

Because the best terms and prices can be obtained now.

It is the opportunity of a lifetime. For specimen pages, prices of various styles of binding, etc., address—
