

**A BATCH OF LOCAL NEWS.**

**Picked Up and Put in Shape By Our Hunting Pencil Pusher.**  
Prof. P E Wright, of Enochville, was in the city today.

Don't forget to provide your Sunday luxuries today.

One cent a mile rate has been secured to the State Fair.

Concord and Forest Hill are playing ball this afternoon.

Miss Ufford will open her school at Albemarle about Oct. 1.

"Dutchman," the big Express wagon horse is lame and off duty.

The southbound vestibule train was several hours late this morning.

Rev. B S Brown preached in St. Andrews Lutheran church Thursday night.

The boot-blacks are terribly uneasy about not being allowed to sell a shoe-shine on Sunday.

Mr. J T Pounds has up the brackets for the veranda at the Morris House. A metal awning will be built also.

A prominent man said to us: "If cotton would bring ten cents this fall, you would not hear of any free silver again."

Hickory Grove will get the usual number of representatives tomorrow, if the weather is favorable, as in former years at the camp-meeting.

A small country boy got lost from his parents this afternoon and put in an hour or more exercising his lungs. After a long hunt he was found.

Tomorrow has been set apart by the ministry of the city as a day of prayer for the missionaries in foreign fields. The day will be universally observed.

St. John's people of No. 8 came in today (Saturday,) hurriedly transacted their business and returned to church for the annual congregational meeting.

Capt. S A Ashe has in press here a book on the silver question, to which he has given much thought. It will contain 19 illustrations, by Mr. T C Harris.—Raleigh Correspondent.

Prof. Wright, principal of Enochville Academy, is running a boarding club in connection with his school. The cost to each student last month was \$2.90. There are seventeen in the club.

Mr. D R Hooyer has returned from a trip through Georgia. He thinks it a fine state and says that, while cotton will not be a full crop, the corn is splendid and that prospects are bright for a large fall trade.

Seventeen negroes of the Winston rioters were convicted in a bunch. Many of them plead guilty. The sentences are from 3 months to 12 months on the county roads. Two get off with \$50 and \$100 fines respectively.

Mr. Harry Fryling has completed the new reel for the fire company, and all it lacks before being ready to receive the 1,000 feet of new hose is a coat of paint. It is a pretty piece of work, and is a great deal lighter than the old reel.

The sanitary officers should make a tour of the town. But before doing so, they should possess themselves of a pair of magnifying eye-glasses and some sort of disinfectant. In nearly every back lot in the city there is a quantity of decayed melon rinds, and the odor from these to say nothing of hog-pens, is not delicious. Customers buy melons and eat them in the lots leaving the rinds to rot.

In attempting to step out of the furniture store delivery wagon backward Mr. James N Bell received a terrible fall by catching his foot in the rope that is tied to the hind end. Mr. Bell says the fall didn't amount to much, but the sudden stop was what hurt.

Not one complaint has ever been made by those using Ayer's Sarsaparilla according to directions. Furthermore, we have yet to learn of a case in which it has failed to afford benefit. So say hundreds of druggists all over the country. Has cured others, will cure you.

Mr. John W Cook, keeper of the county home, is in Charlotte today (Saturday). He went over to examine Mecklenburg's home for the poor, to see if our neighbor was in advance of us. Mr. Cook is always looking into the interests of the county as well as those under his care.

You cannot say that you have tried everything for your rheumatism, until you have taken Ayer's Pills. Hundreds have been cured of this complaint by the use of these Pills alone. They were admitted on exhibition at the World's Fair as a standard cathartic.

A man recently visited this city from a neighboring county, and in meandering around, walked into Brown Bros. livery stables. He was astonished to see a barn as large as that—he had never seen a livery stable before. He was 27 years old and had been to a town twice in his life time. He had queer ideas about the way the livery business was managed.

**Curiosities There and Here.**

Here's a curiosity sure enough. Dr. R K Gregory says about six weeks ago he cut some green willow branches and made a rustic screen of them, using them for the framework. As some of the pieces were crooked he straightened them and laid them on the top of a box with weights on them in the open air and sunshine to dry and season.

After this he gaye them three coats of white paint (lead and oil), and completed the screen. It has been setting in the front hall of his residence since it was finished and now green twigs are growing vigorously out of the frame, some of them being already over an inch in length. They are growing at the points where the little limbs were cut off.—Greensboro Record.

As to things growing after being painted, our friends, Graber Bros. last week had a watermelon sign painted. During the rainy weather they placed the sign on the ground floor of their ice house, and Friday morning when the sign was taken out, young melon vines were growing out of the painted melon, so natural was it.

**Bucklen's Arnica Salve.**

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tettered Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles or no pay required.
