Before going on a sea voyage or into the country, be sure to put a box of Ayer's Pills into your valise. You may have occasion to thank us for this hint. To relieve constipation, and nausea Ayer's Pills are the best in the world. They are also easy to take.

A small colored child fell in a well on Vine street in Winston the other day, the well being 34 feet deep. It was rescued by its mother, who went down into the water and found the child floating. The well was walled with brick, and the mother stated, upon being asked how she descended, that she just "spread herself" and slipped down.

The Statesville correspondent to the Charlotte Observer says: "Referring to the silver convention in Raleigh and to the fact that Iredell people will not attend, I find that the call for the convention was not signed by Iredell citizens. The paper is here in the hands of a well-known gentleman who is a strong silver advocate, but there are no names signed to it.

Today's speaking was held in the Holmes grove in the West Ward. The crowd present did not number over 300, most of them being Populists. A few Democrats, some ladies and a slight sprinkle of negroes were in the audience. Shuford made a few remarks but Butler and Pritchard were the principal speakers. The crowd was very quiet and there was not much cheering. As a grand rally the meeting was a failure.—Salisbury Herald, September 19.

Prof. J A Holmes, State Geologist, who has the North Carolina exhibit in charge at the Atlanta exposition, telegraphs the following. "The North Carolina forestry and mineral exhibits were ready at the opening of the exposition, and were unsurpassed by those from any other State."

Nine marriage licenses were issued Wednesday by the Register of Deeds for Buncombe county. This rush in matrimonial circles is probably due to the fact that it is cooler in the mountains than in this section at present, and that snow and cold weather is expected during the coming winter.

There is a lady now living in Monroe who was married away back in the forties or fifties. She still has a large gourd which she grew the first year of her married life. Her husband planted a new ground and raised lots of gourds, one of which was kept as above. It is very large and holds just even nine dozen eggs, and she uses it for that purpose.—Monroe Journal.

W C Coleman returned this morning from Atlanta, where he attended the opening of the great exposition now in progress. He says many of the buildings are not complete and that the exhibits are not all there, but the work of arranging things is going on. The crowd is immense. The New Krag-Jorgensen Rifle.

The first man to be killed in this country with a bullet from the new Krag-Jorgensen rifle was Thomas Coffey, a desperate military convict. Sentinel Jacob M Kress killed him Tuesday at Fort Sheridan, near Chicago, when he made a wild dash for liberty. The nickle pointed ball at a distance of fifty yards passed through Coffey's head, then it went through a live tree eight inches in diameter and afterwards buried itself three feet deep in a hillside thirty yards beyond. The ball entered the back of the fugitive's head, just under his hat, and passed out through his forehead. The skull was broken so that only the scalp held it together. He fell in a heap beside the tree and did not move again. A story said the bullet exploded in the man's head but that was ridiculed, as the United States does not use explosive bullets.
