CONCORD, OCT. 19, 1895.

The Savannah (Ga) News reports that the crop of oranges from Florida region where all the trees were reported killed by last winter's freeze, will be a fairly good one, although much less than the normal, and that within a very few years Florida's orange crop will be fully as large as ever. Only from 3 to 5 per cent. of the trees in bearing have been destroyed; the remainder are slowly recovering from the effects of the cold nap. This is good news for all of us.

An Indiana couple—man eighty-seven and woman seventy-seven years old—were married the other day after an acquaintance of fifteen minutes. All things considered, the affair seems to have been quite sensibly conducted. They certainly hadn't any time to lose with theaters, oyster suppers and the like, and the chances are that they won't live to regret their impetuosity.

Milwaukee began the celebration of her semi-centennial yesterday with ceremonies appropriate to the occasion. Fifty years ago Wisconsin was a territory without a city within its borders. Now Milwaukee has over 300,000 inhabitants, while the State has a population of nearly 2,000,000. It has a story of marvellous growth and development that will now be celebrated in Milwaukee.

The first appearance of peanuts in the markets was when a consignment of 10 bags was sent from Virginia to New York in 1794. Over 2,000,000 bushel are now sold annually in the United States.

A newly married man in Cleveland county nearly lost his life Sunday night, in a singular way. He fell headforemost into a nearly empty flour barrel, and could not extricate himself. He was found the next morning nearly dead, but is now all right. He was intoxicated when he fell in.

Governor Carr has received a requisition from Governor O'Farrell, of Virginia, for Lonny J. Pee, a white man, who is in jail at Winston, and who is wanted for assaulting Anna Mace, a white girl under 12 years of age, in Washington county, Va. The requisition will be promptly honored.

An idea of the number of postal cards used in the United States may be gleaned from the official announcement that it takes 921 tons of paper a year to make them.

So Miss Vanderbilt is going to have 45 pairs of wedding shoes. There are probably 45 American girls who would be glad to stand in

them.

Spaniards in Havana are quoted as saying that when they finish up the Cuban job they will skip over, take possession of Florida and hold it until this Government shells out \$500,000,000 indemnity to Spain. There now, we knew Senator Call was going to get himself into trouble.

Henry Upton, colored, assaulted the 13 year old daughter of Gus Forney, also colored, in Cleveland county. He was hotly pursued, sprang into the river and was shot while swimming and captured. He is in jail and will die.

CONDUCTOR KILLED.

His Head Crushed Between Two Cars at the Lenoir Depot.

LENOIR, Oct. 18.—Mr. J. T. Payseur, one of the courteous and highly esteemed conductors on the Chester & Lenoir Railroad, was instantly killed last night about 8 o'clock on the depot yard here. Mr. Payseur was making up an extra train, which had run between Lenoir and Hickory for some weeks past, and used exclusively for lumber. A box car was standing on the track and the engine, with several flat loads of lumber, was backing to couple on to this box car. On the rear flat of lumber one long piece projected beyond the end of the flat, reaching so far as to almost touch the box when the coupling came together. It was in this death trap that this unfortunate man carelessly placed his head, in the act of coupling the cars, meeting death in the performance of a duty that was not required of him.

Mr. Payseur is highly spoken of by the officials of the road. Maj. Harper, president, and Mr. E. F. Reid, auditor, accompanied his remains to his home at Lincolnton today.

A SPECIFIC —FOR— La Grippe, for Colds, Coughs, AND LUNG TROUBLES, AYER'S CHERRY PECTORAL

"Two years ago, I had the grippe, and it left me with a cough which gave me no rest night or day. My family physician prescribed for me, changing the medicine as often as he found the things I had taken were not helping

me, but, in spite of his attendance, I got no better. Finally, my husband,—reading one day of a gentleman who had had the grippe and was cured by taking Ayer's Cherry Pectoral,—procured, for me, a bottle of this medicine, and before I had taken half of it, I was cured. I have used the Pectoral for my children and in my family, whenever we have needed it, and have found it a specific for colds, coughs, and lung troubles."—EMILY WOOD, North St., Elkton, Md.
