Concord is no exception to the general rule laid down in the following from the Madison Observer: "The most degenerating practice of modern times is that of allowing children and youths to run on the street at night completely outside of parental restraint. This practice prevails in nearly every town in the country. Give the children good literature to read, and keep them away from boys who congregate at places to tell smutty jokes." The whole matter may be summed up in a few words: make home attractive and cultivate a taste in the boys for better things.

More Cotton and Better Prices.

About forty bales were landed at the platform to-day.

We understand that previous to this difficulty the same man drew his pistol on Mrs. T E Nash at her home next to the covered bridge. He should be severely dealt with.
