The fact that agriculture is in process of gradual abandonment in Great Britain may account in part for the increase in immigration from that country, the number of arrivals since August aggregating 238,000. It evidently does not pay the British farmer to raise wheat on high priced British land. The next problem is to make this land profitable in some other way. The decline in wheat acreage this year is 26 per cent. less than 1894. This indicates that upwards of 200,000 acres of land have failed of cultivation because agriculture no longer pays.

We know whereof we affirm when we state that Ayer's Pills, taken promptly, at the first symptoms of colds and fevers, arrest further progress of these disorders, and speedily restore the stomach, liver, and bowels, to their normal and regular action.

**Electric Bitters.**  
 Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the needs of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. 50c and \$1.00 per bottle at Fetzer's Drug Store.
