CONCORD, OCT. 31, 1895.

WOULD BRING PROSPERITY.

The following from the Raleigh State, Capt. S A Ashe's new paper, is a very strong presentation of the position of the bimetalists. It claims to be Democratic doctrine and until recently was almost universally regarded as such. It is believed that if this policy was enacted into law and carried out by the government it would introduce the most prosperous era the country ever saw. The State says:

"The State advocates bimetalism. By that we mean the free and unlimited coinage of both silver and gold. Monometallism is a new thing under the sun. Its advocates are like a child pleased with a new plaything. They do not stop to think how it is working and how it would work, if presented in, in the years to come. It seems to us that it has been attended with evils which grow as the years pass, just as the bimetalists foretold.

Until recently no American statesman ever advocated monometallism. Now it has become quite the fad in certain circles, where it is treated philosophically as a natural evolution in money matters, just as many sapient men in a philosophical way argue that by evolution man came from monkeys.

It is said that there is gold enough. Twenty years ago when both silver and gold were in equal use as money there was more than six billions of metallic money, and so far from there being enough then this great country of ours possessed at that time none of either metal, and there were many other countries in about the same situation. Now, after the vast development of the last two decades in population, in wealth, in commerce and in the uses and needs for money, we are told that less than four billions is enough provided it is all gold.

And yet virtually we have no gold in this country. None, then, is a rough real money for us! Well, we don't think so. Our people are entitled to have real money equally with other people. There not being enough gold for all nations to have a money resort must be had to silver just as was done for thousands of years before 1873."

Each Odd Fellow in this State is called on by the Grand Master to contribute \$1.15 for the purpose of raising \$10,000, with which to erect a building at the Odd Fellows' orphanage, at Goldsboro.

Pennsylvania coal mines produced in 1894 85,306,389 tons of which 45,506,179 tons were anthracite and 39,800,210 tons bituminous. There

was a decrease of 5,295,072 tons on the output of 1893.

Dr. De Witt Talmage inaugurated his work as pastor in the pulpit of the First Presbyterian church, Washington, D. C., on Sunday last, with a sermon entitled "All Heaven Looking On."

The Manufacturers' Record says that the finest State exhibit of wood at the Atlanta Exposition is that presented by North Carolina.

Alabama's output of coal this year is estimated at 1,000,000 tons or nearly 3,000,000 more than last years.

ARRESTED THE CHIEF.

One of Buffalo Bill's Redskins Accused of Manslaughter in Baltimore.

Mohawk, one of the Indian braves in Buffalo Bill's Wild West show, was arrested this morning by Officer Huzzy of Baltimore, on a charge of manslaughter.

It seems that while the show was in that city some one threw a rock at a small white boy striking him in the side. The boy received injuries from which he afterwards died. An officer was sent after the offender, who was said to be one of Cody's Indians, and from the description of the man wanted, placed Mohawk under arrest this morning at the grounds. His trial is now on, with but little chance of conviction.

Some Figures.

Greensboro Christian Advocate: Dr. Carroll has been investigating a census of the churches in the United States. The table of communicants is as follows:

Catholics.....	6,257,871
Methodists.....	4,589,284
Baptists.....	3,712,468
Lutherans.....	1,231,508
Presbyterians.....	1,078,370
Disciples of Christ, or "Christians".....	744,773
Episcopalians.....	540,509
Congregationalists.....	512,771
Reformed.....	399,458
United Brethren.....	225,281
Mormons.....	166,125
Jews.....	130,812
Friends.....	107,263
All Others.....	812,582

Total.....20,618,307

In studying these statistics you must remember that the Catholic "communicants" include all members of families thirteen years of age. If we should number the Methodist or Baptist churches on the same basis, either of them would largely outnumber the Catholics. So there is no grounds for fear of the Catholics at present, but perhaps there is no other organization that is more diligent in cultivating its field than these who claim to be in the succession of Peter. They train the children. In this respect we might learn some valuable lessons from them.

Have you smoked the cigar I gave you?

No; the doctor says I musn't take any violent exercise.

The Husband—I wanted to be different from other men, I suppose.

"Never forget, brethren," said the clergyman in closing, "there is no power on high that is mightier than than the power of wealth. And now, sexton," he added, in a low voice, "you may take up the collection."—Adam's Freeman.

Cases Compromised.
We learn that the suit brought by Y B Brown, administrator of E W Durham vs. the Southern Railway Company for killing said Durham in the collision at Haw River, August 6th, has been compromised, the Southern Railway Company paying to the plaintiff \$2,400. The suit of his brother, J W Durham, who received injuries at the same time, has also been compromised for four hundred dollars. The same source says the attorneys received pretty good fees in these two cases—one third of the two thousand, eight hundred dollars.

NOT A SICK DAY For Over Thirty Years!

RESULT OF USING
AYER'S PILLS
"Ayer's Cathartic Pills for over thirty years have kept me in good health, never having had a sick day in all that time. Before I was twenty I suffered almost continually—as a result of constipation—from dyspepsia, headaches, neuralgia, or boils and other eruptive diseases. When I became convinced

that nine-tenths of my troubles were caused by constipation, I began the use of Ayer's Pills, with the most satisfactory results, never having a single attack that did not readily yield to this remedy. My wife, who had been an invalid for years, also began to use Ayer's Pills, and her health was quickly restored. With my children I had noticed that nearly all their ailments were preceded by constipation, and I soon had the pleasure of knowing that with children as with parents, Ayer's Pills, if taken in season, avert all danger of sickness."—H. WESTER, Byron, Ill.

THE RACKET

Large profits no longer come from merchandise sold at 50 to 100 per cent. on a credit of from one year to eternity, only four out of every hundred credit merchants ever succeed. We prefer 20 per cent. cash to a struggle with 96 chances against us.

Last Saturday we placed a lot of gingham on sale at 24 cents per yard and a lot of good towels that we snapped up at 50 cents per dozen that sell regularly at 10 cent each. We marked them 5 cent each. The gingham went before sun-down and the towels before we closed. When we counted out our cash we had our money invested in these and 20 per cent. profit ready to invest again Monday.
