SILVER PRODUCTION.

Upon reports already received and estimates for the rest of the year based upon production up to a recent date the director of the mint has made an estimate of the silver produced in the United States for 1895. It is placed at four million ounces less than last year's production, the falling off being due, of course, to the closing of mines which received unremunerative last year.

The following table shows the comparative production and price of silver in this country for the last five years and the present year, as follows:

| Year | Produced | Price per ounce |
|------|------------|-----------------|
| 1888 | 45,792,682 | 93.9 cents |
| 1889 | 50,094,571 | 93.5 cents |
| 1890 | 54,516,300 | 104.6 cents |
| 1891 | 58,330,000 | 93.8 cents |
| 1892 | 63,500,000 | 87.1 cents |
| 1894 | 59,000,000 | 63.5 cents |
| 1895 | 55,000,000 | 67.0 cents |

It will be seen that the production will be greater this year than in any of the years 1888, 1889 and 1890.

Our silver production this year will be nine million ounces in excess of that in 1888, though the average price of silver during that year was 16 cents higher than the price at present. Most of the mines in this country are now producing silver at a profit. When silver went to 164.6 cents an ounce in 1890 there was a boom in mining stocks and a great many worthless mines were opened, these met their natural fate.

The silver production of several countries will show an increase this year, but the total output will not differ materially from that of last year. The world's production of silver increased from 63,267,000 ounces in 1873 to 161,776,100 in 1893.—*Atlanta's Journal.*

THE TREAT OF MORMONISM.

The people of Utah by a large majority have voted in favor of admission to the union, and adopted a State constitution. When the result of this election is presented to the president he may issue a proclamation declaring Utah a State. It is said that the president will be compelled not to issue such a proclamation on the ground that the Mormon element, though it has been "slaying low" since the passage of the Edmunds act, is only waiting for the perfection of State sovereignty to reassert itself. The constitution of Utah forbids polygamy, but many of the Gentiles in that territory believe that the Mormons would disregard the law if they gained

control of the State government. These fears are, probably, without sufficient foundation. The Gentile population of Utah has increased rapidly in the last few years, and the Mormons are leaving. Recently they have established several large colonies in Mexico, where their peculiar institutions will not be interfered with and these settlements are growing rapidly. The Mormons want to be alone and they realize that if they are not now in a minority in Utah they soon will be.

Utah will probably come into the full fellowships of the States at an early day.

Mrs. Colt Has Failed.

PROVIDENCE, Nov. 13.—The proceedings for divorce begun last month by Mrs. Elizabeth W. Colt have to a standstill. The failure of her counsel to secure the slightest evidence to substantiate her allegation of adultery against Colonel Samuel Poineroy Colt will, in all probability, result in the withdrawal of the petition from the supreme court.

The end of the divorce case does not in the least affect the standing on the court docket of the suit of Colonel Colt against Jimmy Van Allen for \$200,000 for alienating his wife's affections.

A servant girl gets \$30,000 Damages. DALLAS, Tex., Nov. 13.—A jury in Judge Burke's Fourteenth Judicial Court, last night rendered a verdict against the Oriental Investment Company, owners of the Oriental Hotel, in Dallas, in favor of Maggie S. Lyne, a servant, who was injured about two years ago in an elevator in the hotel. She sued for \$30,000. There are three other suits pending by parties injured in the same accident.

A queer church quarrel is reported from Scotland, where an Episcopalian clergyman has rent his congregation in twain by trying to suppress a debating society connected with the church. This society, it seems, says the New York Times, recently considered the relative influence of the modern press and the modern pulpit, and decided by vote that the orators who sustained the newspaper side of the controversy had the better of it. The reverend gentleman therefore declared both himself and the church grievously insulted, and peremptorily ordered everybody connected with the debating society to resign from it. Nobody obeyed, and the result has been empty pews and much harsh language from the pastor and his rebellious flock.

LOSS OF VOICE After Acute Bronchitis CURED BY USING AYER'S Cherry Pectoral A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.
