CONCORD, NOV. 30, 1895.

Compressed air as a motive power for street cars is to be tried in Washington within a few days. Each motor when fully charged will run twenty-five miles without being recharged. The system has been used for years in Europe, where it has proved very economical. Congress permits no trolley wires (nor any new overhead wires) in the capital city, and the various car lines are being forced to find new methods of propulsion. Some have cable systems, others underground electric.

The Republican party, which recently succeed in electing its ticket in Baltimore, is already having trouble along the color line in the distribution of offices. The new Sheriff was appealed to by representative colored men for a share of the positions at his disposal, but he declined the request, whereupon a meeting of those who were disappointed by his action was held, at which he was accused of "ingratitude of the deepest dye."

A Milwaukee, Wis., man has the smallest dog on record. It is a black-and-tan, two and a half years old, four inches in height and weighs a pound and a quarter. The man is so proud of it that he carries it around in his pocket. He says he is going to take it to Washington and present it to President Cleveland.

The Rev. Dr. George W. Carter, who has been on trial before the Virginia Methodist Conference for breaking church laws, is 70 years old. He has been divorced twice, has fought two duels, has edited a newspaper, has been a college professor, and has always preached Gospel sermons.

There are at present two Chinese girls who are studying medicine at the University of Michigan. One of them, Miss Shie, has been elected secretary of the senior class. The ultimate object of these women is to return to China as Christian medical missionaries.

There has been so much crime and accidents recently that one quite naturally expected the clapping of the climax on Thanksgiving, but our exchanges make the result conspicuous by the absence of what was expected. It was indeed a great day.

It is not what is inside a man that makes him look distinguished; it is his clothes.

The German Reichsbank is said to keep gold pieces as much as possible

from circulation, on the ground that the wear of the coins foots up an annual loss of over \$100,000.

What is believed to be a fully developed case of leprosy was recently discovered by a New York physician. The patient is a Brazilian, and was found blacking boots in the streets of the metropolis.

That fellow who bought a \$150 pair of horses in Chicago, took them to the horse show in New York and sold them for \$6,000 to General Torrence, a Chicago man, struck a soft snap.

Some English papers say that for a long time the pocket money allowance of the Prince Maud, of Wales, was only \$5 a month. Her mother when a girl had the same amount.

The Florida orange crop this season will not be over 60,000 boxes, owing to last winter's freeze. Last year's crop was 5,000,000 boxes.

A remarkably beautiful diamond weighing 655 carats, has just been found at the Jagersfontein Mine, in the Orange Free State.

The Caucasian, Butler's newspaper, is prospering despite the hard times. It is putting in a \$4,000 press.

Does this Strike You?

An editor who has evidently felt some portion of the process gives the following instructions for killing a newspaper: Just let your subscription go. It's only a dollar or two—the publisher don't need it. If he asks you for it get just as mad as you can and tell him to stop the paper—you never read it anyhow. Then go and borrow your neighbor's. When the reporter comes for news always be busy. Make him feel as if he were intruding. When the advertising and job man comes tell him you don't need to advertise—everybody knows you; that you will try and get along without any printed stationary—it's too expensive; that business is slack and you must economize. Never drop in to see the editor unless you want a free complimentary notice or a lengthy obituary for a beloved relative. Never recommend a paper to anybody. When you speak of it always say, "Yes, we have a little sheet, but it don't amount to much." Keep this up a year or two and you will have a dead newspaper, a dead set of merchants and a dead town.

THE BEST FAMILY MEDICINE

She Has Ever Known. Words of Praise from a New York Lady for

AYER'S PILLS

"I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equaled."

When my friends ask me what is the best remedy for disorders of the stomach, liver, or bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent a gripe, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best all-round family medicine I have ever known."
—Mrs. MAY JOHNSON, 368 Rider Avenue, New York City.
