CONCORD, DEC. 19, 1895.

GIVES IT THE LIE.

Those who had cussing in their hearts and just wanted to cuss Cleveland just to be cussing, are checkmated on one score.

The foulest month anarchist in this section sometime since cussed Cleveland just because he was "under the thumbs of England."

Now that Cleveland has shown beyond a shadow of doubt that he does not bow to the English throne and that the independence of this country is reflected through him, what will the cussers do on this score?

The Charlotte Observer puts it in a concentrated way that has all its force apparent:

"The yawpers who yawp so much about Cleveland being under the domination of England have occasion now to take a reef or two in their mouths."

THE SITUATION IN PARALLEL.

Cleveland's position—The doctrine upon which we stand is strong and sound because its enforcement is important to our peace and safety as a nation and is essential to the integrity of our free institutions and the tranquil maintenance of our distinctive form of government.

Salisbury's Attitude—"The dispute between Great Britain and Venezuela is a controversy with which the United States have no apparent practical concern."

The Charlotte Observer has a keen, good ear: "Miss Sadie Means, of Columbia, S. C., who was churched about two years ago for working in the telephone exchange on Sunday, she being a member of the Presbyterian church, was married a few days ago to Mr. W H Galloway, and the Spartanburg Spartan says she will find as a housekeeper that she will have to go to work again on Sunday. Yes, but she won't be churched for it and besides, "Mrs. Galloway" sounds better than "Central!"

If the house ant was as big as an elephant, it wouldn't do to fool with. An English writer says it can support three thousand times its own weight. There are a good many men who cannot even support themselves.

Street Commissioner Waring, of New York, suggests that if people would feed their banana skins to horses, the horses would appreciate

it and so would pedestrians who are averse to sitting down on the sidewalk.

Ten thousand miles of railway, known as the Atchison system, valued at \$350,000,000 (how much water in this not stated) was knocked down at auction at Topeka the other day for the small sum of \$60,000,000, and not a single editor bid on it.

Judge Campbell, of Mississippi, recently declared that the law against the carrying of concealed weapons should be abolished. He claimed that it operated to the injury of good citizens, who do not carry weapons; while the criminal not only carries a weapon, but knows that his victim is unarmed. A minister suggested a plan for overcoming the difficulty by prohibiting the manufacture of any fire arms shorter than three feet.

It cost about \$10,000 to launch a big war ship, but it costs a good deal more than that to keep her afloat. This doesn't include the wine that's spilled on her nose, and under other noses in the closing ceremonies.

The finding of the bodies of some well-known people in a dissecting room in a Medical College at Topeka, Kansas, came very near starting a riot and demolishing the institution. Respectable corpses don't like to be cut up that way, and it is not surprising that their friends cut up about it.

An absent minded man can never be depended upon. A Poughkeepsie man who thought he could keep his \$500, the savings of fifteen years, better in a basket which he carried around with him than the banks could, got along very well until he one day laid the basket down, forgot all about it and lost both basket and money.

THE RIGHTS OF HUSBANDS.

He has no right to save his good manners and good humor for company.

He has no right to come home with a hatchet cast of countenance and murder the innocent pleasures of the little unfortunates that call him father.

He has a right to remember that he owes his family everything, and that to deserve the respect and love of his boys and girls and the consideration and loyalty of his wife is glory enough for any man.—N. Y. World.

The Discovery Saved His Life.

Mr. G. Caillouette, Druggist, Beaversville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with LaGrippe and tried all the physicians for miles about, but of no avail and was given up and told could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at Fetzer's Drug Store.

An Incident in Judge Robinson's Court.

"Did I understand your Honor to charge thus and so?" asked Capt Cooper at Swain court, while Judge Robinson was presiding.

Judge Robinson replied: "Anybody that has ever seen a law-book, or has ever seen anybody that has ever seen a law book would know that I didn't charge any such damned rot."

Afterwards, at the suggestion of Mr. George T Brown, it is said that Judge Robinson apologized to Capt. Cooper.—Raleigh News and Observer.

LOSS OF VOICE After Acute Bronchitis CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.
