**CHILDREN** ought to be brighten a mother's daily cares and help her to be strong, capable and cheerful. It is not right for mothers to feel the burden of life growing heavier and heavier year by year because of child-bearing and child-rearing. That shows something is wrong in the mother's physical condition. There is some unnatural weakness in her delicate organism which disqualifies her for motherhood. When this is wrong everything is wrong. A woman's physical life is wrapped up in the special organs of her sex. When these are restored to health and strength the whole woman becomes healthy and strong.

Dr. R. V. Pierce of Buffalo, N. Y., has made a life-study of this problem of restoring health and strength to women. His "Favorite Prescription" is the most successful remedy that has ever been known for women's peculiar ailments. Its sale exceeds for women. It cures the most obstinate uterine diseases. It goes directly to the internal organism which is the real seat of all the troubles. It imparts vigor and health where they are most needed; heals ulceration; stops the weakening drains; promotes regularity; restores muscular power to the ligaments, thus correcting displacements of special organs in the only natural way.

Complete information regarding the "Favorite Prescription" and testimonials from hundreds who have used it, are embodied in Dr. Pierce's Common Sense Medical Adviser, a standard medical work of 1008 pages, profusely illustrated, which will be sent free on receipt of 21 one-cent stamps to cover cost of mailing only. This work is a complete family doctor book and should be read by both young and old. The profits on the sale of 680,000 copies at \$1.50 has rendered possible this free edition. Address, World's Dispensary Medical Association, Buffalo, N. Y.
