To eradicate the poisons which produce fever and ague, take Ayer's Ague Cure. It cures without leaving any injurious effect upon the system, and it is the only medicine in existence which may be considered an absolute antidote for malaria.

Harry Fryling is a genius—sure enough. On the top of his repair shop he has placed a novel sign—a bicycle wheel, a gun and several other little tricks. The sign answers all purposes for an indicator, and when the wind blows the wheel runs like a wind mill.

"Five years ago, I was taken so ill with rheumatism that I was unable to do any work," writes Peter Christensen, Sherwood, Wis. "I took three boxes of Ayer's Pills and was entirely cured. Since that time, I always keep them in the house." They are easy to take.

The Executive Committee of North Carolina Lutheran Synod held a meeting in St. James Evangelical Lutheran church, this city, Saturday afternoon. No business of special importance to the public was transacted. The members present were Revs. V R Stickley, J Q Wertz, M G G Scherer and Mr. M A Ludwig.

On last Friday night some one who knows nothing of the joys and satisfactions of a clear conscience and the opportunity of happiness for this life and the future, went feloniously on the premises of Mr. N A Blackwelder, of No. 11 township, on the Mt. Pleasant road, and most wantonly cut to pieces bridles, carried off a large pair of scales and took off his wagon taps. Mr. Blackwelder is of course put to much inconvenience and will give a liberal reward to any one who will aid him in bringing the guilty ones to light and to justice.

A man's life may be saved in many ways. A man may commit suicide in a great many ways. Shooting himself through the head is quicker, but it is no more certain than neglecting his health. If a woman saw her husband with a pistol to his head, she would take prompt and vigorous measures to save him; but the same woman might see her husband on the down-grade to disease and death without seeing the seriousness of it. One-sixth of all the people who die, die of consumption. Consumption doesn't come all at once. It is insidious. The seeds of it are seemingly insignificant. Most people do not know how it starts. Thousands of people are on the road to consumption and don't know it. Whenever there is loss of flesh—paleness—wasting away—look out. Consumption easily finds a foot-hold in a weakened body. Low vitality, impure or poor blood, imperfect digestion, nervousness, sleeplessness—all these lead to consumption.

Taken in time, Dr. Pierce's Golden Medical Discovery will prevent the development of the disease. Taken according to directions, it will positively and perfectly cure ninety-eight per cent. of all cases of consumption, whether incipient or fully developed. Consumption is a disease of the blood. The "Golden Medical Discovery" is a cure for all blood diseases, no matter in what part or how they manifest themselves. If you want to know all about it, and what it has done for other people, send twenty-one (21) one-cent stamps to cover the cost of mailing only for a FREE COPY of Dr. Pierce's great 1008 page work, "Common Sense Medical Adviser." Every family should have a copy of this book for ready reference. World's Dispensary Medical Association, Buffalo, N. Y.

It is an old and homely adage and finds an application here. The maker of merchandise has reached the end of his summer. His season is over; yours has just begun. The Year Round

Some Medicines belong to one season and some to another.

DR. KING'S ROYAL GERMETUER

IS IN SEASON ALL THE YEAR ROUND.

IN THE SPRING

It purifies the blood, removes languor and depression, invigorates and exhilarates the whole system.

IN THE SUMMER

It overcomes the relaxation and debility caused by hot weather and corrects bowel troubles that are so prevalent then. Besides, it makes the most delightful and refreshing drink.

IN THE FALL

When malaria "rides on every passing breeze," it is the great preventive and the unfailing cure of troubles resulting from that cause.

IN THE WINTER

It is still needed for curing Colds, Grip, Catarrh, Rheumatism, and the ills that belong to cold seasons.

It does these things, not in a feeble and uncertain way, but with assured and triumphant power.
