BROWN.

CONCORD, OCT., 13, 1896.

### GENERAL NEWS.

Only seventy years have elapsed since the first railway in the world was finished. During the comparatively brief period 400,000 miles have been constructed, the British empire accounting for about a sixth.

In certain towns of Germany the telephone is introduced by tobacconists as an additional attraction to customers. Any one who buys a cigar may, if he desires, speak over the telephone service.

A scientist has figured out that if all the campaign speeches of the present year were fastened together they would reach seventeen times around the earth and lap over into New Jersey.

Miss Georgia Richards, who occupies the position of County Clerk in Arapahoe county, Colorado, receives a salary of \$5,000 a year, the largest paid to any woman official in the West.

Recent insurance statistics show that if the wife dies first the husband on an average survives nine years; while, if the husband dies first, the wife survives eleven years.

A Waterloo veteran, aged ninety-nine years, has been discovered

among the inmates of the Nottingham workhouse, England.

The number of persons to the square mile in England is placed at 340; in the United States at seventeen.

A church in Boston has just appointed a woman sexton, probably the only one in New England.

### Old People.

Old people who require medicine to regulate their bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, aiding strength and giving to the organs, thereby aiding nature in the performance of the function. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price 50c and \$1.00 per bottle at Fetzler's Drug Store.

### A POOR FARMER MURDERED.

Killed for His Money While Driving His Ox-Team Home from Marshville.

MONROE, Oct. 12.—There was a murder committed near Marshville, this county, last Thursday night, the news of which has just been brought here. John B. Marsh, a poor white farmer, started from the above named village at night in his ox-cart. Not arriving home that night or the next day, his neighbors started out to look for him. His body was found near the roadside, about midway between his home and the village, which are five miles apart. The body was not removed until Saturday, when the coroner held an inquest.

There were three wounds on the head such as would be inflicted by a heavy piece of timber, the skull being broken. The dead man's hat was found near the town. Blood on the hat indicated that the man was struck just when starting out, and that he rode on in his cart, and finally got down, or fell, and crawled some distance from the road. The team went to the house of a neighbor. The man was seen to have some money at the store, and it is thought that for this the deed was done. The dead man had put his money in his pocket and then tied the pocket above, thus securing it. The robber must have been frightened before he had time to find the money. In the pocket thus tied up was \$5.56.

### Housekeeping.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world. But how different when every breath is pain, every step torture! This state of health in nine cases out of ten comes from some derangement of the delicate, feminine orders of generation. The family doctor inquires first concerning these. He most usually insists upon an "examination." From this the modest woman naturally shrinks. She is right. Except in very unusual cases of "female weakness" examinations are unnecessary. Dr. Pierce's Favorite Prescription is a simple, natural remedy for these ills. It cures safely, permanently.

Address with 21 cents in one-cent stamps, to cover cost of mailing only, World's Dispensary Medical Association, Buffalo, N. Y., and get a free copy of the "Medical Adviser."

### Experiment Farm Program During State Fair.

During fair week in Raleigh, October 19 to 24, visitors may expect to find the following order observed at the experiment farm. Those especially interested in any of the farm, stable or dairy operations are invited to visit the farm and inspect the work.

Because of the location within the enclosure for the fair, the time fixed for visitors has been advanced until after the regular opening of the fair gates each morning.

The milk separator will be in operation at 10 to 10:30 a. m. and 6 to 6:30 p. m. Stable work after 4:30 p. m. Churning and butter work-

### Fifty Years Ago.

This is the way it was bound to look when grandfather had his "pictur took." These were the shadows cast before the coming of Conjuror Daguerre and his art; like a girl in a pinafore some day to bloom to a goddess fair. Men certainly were not as black, we know as they pictured them, 50 years ago.

### Ayer's Sarsaparilla

began to make new men, just as the new pictures of men began to be made. Thousands of people fronted the camera with skins made clean from blotch and blemish, because they had purified the blood with Ayer's Sarsaparilla. It is as powerful now as then. Its record proves it. Others imitate the remedy; they can't imitate the record:

### 50 Years of Cures.

ing 10 to 11:30 a. m. 20th and 22nd. The Babcock Tester will be in operation part of every forenoon at the Experiment Farm Dairy. Both hand and steam machines will be used.

Those who do not know the location of the Experiment Farm will find it within the enclosure and west of the fair buildings. The flag pole on the lawn makes the place unmistakable.

### TO CURE A COLD IN ONE DAY

Take laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c.

### L. O. H.

Mutual Benefit Life Insurance has become a popular mode of providing for those dependent upon the labor and providence of others.

It is natural that improvements in the system should keep pace with improvements along all lines.

The Improved Order Hepa-sophis is an order not very well known in our community that for minimum expenses and prompt and satisfactory payment of claims, stands second to none.

Mr. L. H. Price was a member of Carolina Conclave, located at Monroe, N. C. He died September 21, 1896. Although a guardian had to be appointed for his two children on October 5 \$2,000, the amount of insurance, was paid to the proper person.

The Rev. Mr. Boggs, of Waxhaw, was also a member of same conclave. He had also a \$2,000 policy. Being somewhat discouraged he concluded to allow his policy to lapse, but two of his special friends kept up the policy for him without his knowledge. Rev. Boggs died October 10 when his friends had paid less than \$15.00 and his dependent family find themselves provided for with \$2,000 that they knew not of.

### Card of Thanks.

We desire to express through your columns our sincere thanks to our neighbors and friends for the many offices of kindness shown us during the serious illness of our children. We shall ever keep in grateful remembrance the tender, constant and faithful nursing night and day, the many errands done and numerous other labors and comforts bestowed.

Faithful friends, may God bless you every one.

Respectfully,  
S. M. FURR AND WIFE.

L. M. ARCHEY, M. D.

Physician and Surgeon.
