Wind Your Watch in the Morning

Few people seem to realize what
a delicate instrument a watch is.
This is shown by the fact that nine
men out of ten persist in winding
their timepieces at night, when they
retire, instead of when they get up
in the morning. According to a
well-known watchmaker, the wind-
ing should be done in the morning,
so that the spring may be at its
strongest tension during the day,
when the watch is more liable to
jolts and shocks of various kinds.
At night the comparatively weak
spring will have nothing to disturb
it. A watch should be oiled every
eighteen months. It might run
years without lubrication, but the
wear and tear on the works will in
the end work devastation. The
watchmakers are also rejoicing in
the fad for women's watches, espe-
cially those who do a great deal of
repairing. The average woman may
be depended upon to neglect her
watch, particularly in the small de-
tail of winding it. In proportion
to the number sold, there are twice
as many women's watches brought
back for repairs as men's.—Phila-
delphia Record.

TO CURE A COLD IN ONE DAY

Take laxative Bromo Quinine Tab-
lets. All druggists refund the
money if it fails to cure. 25c.

Through the St. Louis Tornado.

Here is an illustration of the way
the wind handled things during the
big St. Louis tornado. This bicycle,

owned in St. Louis, was struck by
three barrels of syrup, a tierce of
lard and one barrel of vinegar. Ab-
solutely the only uninjured parts
are the saddle and the Morgan &
Wright quick repair tires, which
were full of air when the machine
was found. Even if these tires had
been punctured, unless severely
torn, any one of the holes could
have been repaired by the quick-re-
pair device in them, without trou-
ble. Riders of these tires, when
they have a puncture, need only be
careful to pump as much air as
possible into the tire before insert-
ing the quick-repair tool. The re-
pair can be made in two minutes,
at the roadside, without taking the
tire off the rim.

How to Live Long.

Prof. F. M. Heath lays down the
following practical rules:

Fix deeply in mind the grand
truth that life power rules the body,
and that it alone can cure disease.

Life power lives upon air, water
and food only; all else is harmful.

Make cleanliness your motto, and
watch against filth in both house
and grounds.

Few starve for food, but many for
air. Breathe deeply a hundred
times daily. Wear no tight clothing.
Above all, ventilate your sleeping
room.

Beware of gluttony. If the ap-
petite is dull, eat fruit only, or eat
nothing. Use no fiery condiments,
but live chiefly on natural grains,
vegetables and fruits. Never ask
your stomach to chew your food—
employ your teeth. Adorn your
table not only with viands, but with
flowers and smiles and kindly words.

Deformity is not awkwardness
only, but danger. A high chest will
give freedom to breathing and di-
gestion, and help to cure many dis-
eases.

Shun stimulants and drugs as
you do pestilence. For tea and cof-
fee drink hot water; and in illness
let the same magic fluid be your
physic.

Thick blood causes colds and
countless other diseases. Keep the
lungs active by deep breathing, the
skin by baths and friction, the kid-
neys by free drafts of warm water,
the bowels by correct eating, and
the blood will be pure.

Spend part of each day in muscu-
lar work, part in study, and part in
good deeds to men and in the wor-
ship of God.

The big hearty, healthy man is a
continual irritant to his dyspeptic
friend. Constipation is the root of
nine-tenths of the sickness of men,
and a large proportion of the sick-
ness of women. It can be cured
easily, naturally and quickly. Na-
ture is constantly working as hard
as she can throw off impurities, and
to force out poisonous refuse matter.
When there is an impediment, Dr.
Pierce's Pleasant Pellets set the
wheels working again without any
trouble. They assist nature in a
gentle, healthful, efficient way.
There is nothing violent about
their action, and yet it is just as
certain as is it were twice as violent.
"You do not become a slave to
their use." They are different and
better than any other pill for the
cure of constipation, headache and
kindred derangements. Almost all
druggists understand this, and are
conscientious enough to tell you so.
The druggist who tries to sell you a
substitute is not a safe man from
whom to buy medicine. Send 21
cents in one-cent stamps to World's
Dispensary Medical Association,
Buffalo, N. Y., and receive Dr.
Pierce's 1008 page "Common Sense
Medical Adviser," profusely illus-
trated.

A Folding Bicycle.

A folding bicycle for military use
has been invented by a lieutenant
in an Austrian infantry regiment,
and is being manufactured by a firm
in Grutz. Its weight is under thirty-
one pounds, and it is being made so
that one wheel closes upon the
other. The rifle is carried verti-
cally, the muzzle fixed near the
axle of the front wheel.

For Over Fifty Years
