The advantage of a policeman over a burglar is that the officer has the law on his side. Health has the same advantage over disease. The Law of Nature is for people to be healthy. When they are sick, Nature steps in to cure them. Nature's law is the guide for curing sick people. There is no way but Nature's way. What the doctors call many different diseases, Nature cures in one way; by nourishing the whole body with good pure, rich blood. That is Nature's way of curing scrofula, erysipelas, kidney and liver complaint, consumption and every form of eruptive and wasting disease. When you want to help Nature with medicine, the medicine must work the same way as Nature works, then it has the laws of Nature on its side to make it powerful. That is the secret of Dr. Pierce's Golden Medical Discovery. It assists Nature's recovery of her own laws. It is on Nature's side and Nature helps it. It imparts new power to the nutritive and blood making organs to create a large quantity of fresh, red, healthy blood which drives every germ of disease out of the system and builds up strong healthy tissues and solid flesh. The "Discovery" completely clears away every form of blood disease from the system; it even cures consumption. It is the only true radical cure for that disease; facts and testimony to prove it.

"I would like to tell the whole world what your 'Golden Medical Discovery' has done for me. The doctor, who is considered an expert on lung troubles, told me I had consumption. He said both my lungs were diseased and I could not live long. I felt down-hearted for I have dear little children to live for. I just went to him to get his opinion. I am glad I did for now I know what opinion he will do. When I started on the your medicine, I was better in every way and was able to take a walk on every fine day. I enjoyed my sleep, my appetite was good, and by the time I had finished the second bottle I began to feel like a new woman. I still had a cough, so I got a third bottle and by the time it was half gone I was completely cured."
