Salisbury Has the Spikes.

The Salisbury correspondent to the Charlotte Observer of the 5th says:

"Wednesday's Washington Post contains an interesting interview with Dr. Thomas J. Featherstonbaugh, of Washington city, who has made a special study of the history of the John Brown raid into Virginia. Dr. Featherstonbaugh describes the spikes with which the slaves were armed and tells how they came to be turned into the arsenal at Harper's Ferry, after which he loses trace of them. It may be interesting to know that a large number of these ugly weapons are now in the possession of different citizens of Salisbury. They were sent here upon the evacuation of Harper's Ferry by the Confederate forces, and being stored at the headquarters of Gen. Bradley T. Johnson, Confederate commandant, escaped the burning which General Stoneman gave the arsenal, prison and all other property belonging to the Confederate government upon taking Salisbury in 1865.

**A MOTHER TELLS HOW SHE SAVED DAUGHTERS LIFE.**

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. Burdick, Liberty, K. I. For Sale by M. L. Marsh & Co., Druggist.

They have a new revolution as to names in Tennessee. A paper says: "A girl named plain 'Mary' at her birth, dropped the 'r' when she grew up and became 'Miss May.' As she began to shine in social way, she changed 'y' to 'e' and signed her letters 'Mae.' About one year ago she was married, and now she has dropped the 'e' and it is just plain 'Ma.' That's evolution."—Burlington News.

**NO WEAR AND TEAR!**

Is the laundry hard on your goods? Some are. Examine your goods as carefully when you send them to us as when you receive them back again and you will find that we sew up many a rip, mend many a button hole, put new neck bands on shirts not too badly worn (when requested), and in many ways try to prolong the use of your linen. One trial is not a test. Often damage has been done in previous laundering and we get the blame. Give us your steady patronage and we will guarantee your linen to last longer than when done at many other laundries.
