CONCORD, N. C., Sept. 6.

ABOUT THE NEW DAILY.

We thank "Fair Play" very much for his kindly consideration of our situation and the compliments bestowed on us as being a success with The Standard.

There is only one side to our nature, that is frankness. We are pained to think that with all the self sacrificing efforts that we have made, in violation of the physiological laws that promise health and longevity, even, we are the subject of slaughter at the hands of those we have strived so hard to serve.

We have always suffered from diffidence that we were not equal to the legitimate demands of our town in learned editorial proficiency, but we have questioned whether the talent that ought to run a daily in Concord would receive such support as would be encouraging.

We are entirely satisfied to retire in favor of a superior, but a movement, which, to be successful, must necessarily crush us, we do not feel called upon to view cheerfully.

As for the press dispatches it is as "Fair Play" says, we are willing, even anxious to take them and it has been our grief that we could not feel justified financially in enlarging The Standard long ere this. There are other things in Concord that will be greatly improved and enlarged when finances justify.

From the best we can gather the new movement will depend for its materializing upon such support as would be of very material aid in bringing up The Standard to a desired status. This business men know full well. We therefore feel justified in asking that some reasonable and living chance be given us by which to retire and give an open field to the new daily with our hearty good will and the cheerful acquiescence of those who have shown us such kindness as to encourage us that they would not be willing to aid in our humiliation and financial distress.

We do not wish to be understood as playing the part of a mendicant but our sense of right gives us some claim to recognition and a chance for adjustment to a changed situation if our services to the public in our present position are not satisfactory. We know we deserve better than to be crushed and we feel as "Fair Play" says and we think every other thoughtful man will admit that Concord will not sustain two dailies.

That Lame Back can be cured with
1/2 Miles' NERVE PLASTER Only 25c.

DREYFUS CASE REPRODUCED.

We are about to have a reproduction of the Dreyfus case here in the United States in that of Capt. O M Carter, who has been charged with squandering great sums of public money on the harbor at Savannah or stealing outright.

He was arraigned before a court martial and was declared guilty by a vote of seven to four, we believe. His punishment was quite severe. We have seen the president severely criticised that he has not reviewed the case and executed the decree of the court. Now, however, strong and able characters avow their belief that Capt. Carter is innocent and the victim of envy and conspiracy.

The Chicago Times-Herald publishes a reputed interview with Frank P Blair, counsel for Capt. Carter, in which he is represented as preferring charges of perjury and subornation of perjury in the Carter trial against Gen. Otis and that he will at an early date prefer like charges against Col. Thomas F Barr.

The Chicago Chronicle of same date, however, gives a reputed interview with Mr. Blair in which he denies having made the charges but he declares faith in Capt. Carter's innocence, as does Hon. Wayne MacVeigh.

An incentive for the conspiracy is offered in the fact that Capt. Carter was placed on the Nicaraguan Canal Commission, in which capacity he said he would scrutinize the matter closely and would expose any crookedness he found. There was crookedness and Capt. Carter was not wanted. Hence the conspiracy to humiliate and crush him.

It promises to be a bad case and if a conspiracy, it will be equal in disgracefulness to the Dreyfus case.

CATTLE AND TICKS.

The August Bulletin contains a number of articles that should be read, especially by our farmers. One particular topic is very interesting, that pertaining to ticks and tick fever in cattle. It gives the experience of cattle men with it including their losses and the remedies for it. It is a subject that should be more closely studied.

Until a few years ago "distemper" was looked upon as an unavoidable evil and ticks were regarded with much indifference. Since the one is proven to be the cause of the other it is plain enough that great care should be exercised in keeping ticks off the cattle and avoiding, as far as possible, any contact with cattle not known to be free from them. We are just beginning to learn these valuable lessons, and it is reasonable to hope that the war against the disease will bring valuable results.

Before dismissing the subject we would like to say to those who recall that all cattle used to have ticks and they seemed to do little harm, that since you have the stock law, good improved stock has been introduced, on which you find no ticks and most of the farm herds are without ticks. All these are doubly liable to take the disease. Cattle that grow up among the ticks are like people growing up in the yellow fever districts, they are almost immune, but cattle unused to the ticks are so susceptible that herds are almost swept away if not treated vigorously and in due time.

We so often hear the charge that there is little done for the farmer. We see no chance to legislate agriculture into prosperity as is done in certain lines of manufacturing but North Carolina is doing probably all she can do at the Agricultural and Experiment Station to help our farmers to many practical ideas. The Bulletin is sent out every month free to all who will have their names put on the mailing list. The management desires to make its list anew so as not to send to persons dead or indifferent to it. Therefore notice is sent out with the August number that all who want it must signify it by sending in their names, excepting those who have subscribed for it since the first day of June. The Standard's farmer readers will please note this and attend to the matter. The Bulletin is a very acceptable gift.

Now it is whispered out loud that John R McLean does not care a snap to be governor of Ohio but wants to beat William J. Bryan at getting the presidential nomination next year. The step would be shorter and easier if he could win the gubernatorial distinction. It is even rumored that he would take the second place on the ticket or would put up with a senatorial plum if nothing better should come within reach. But allowance must be made for rumors.

Admiral Dewey is quoted in a dispatch of the 5th from Gibraltar as saying the next dry season will, in his opinion, see the insurgent forces subdued in the Philippines. There's nothing new in the idea but it is pleasant to have the hero giving opinions so in harmony with the general desire.

A MOTHER TELLS HOW SHE SAVED DAUGHTERS LIFE.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering. Yours truly, Mrs. Geo. F. Burdick, Liberty, R. I. For Sale by M. L. Marsh & Co., Druggist.

NO WEAR AND TEAR!

Is the laundry hard on your goods? Some are. Examine your goods as carefully when you send them to us as when you receive them back again and you will find that we sew up many a rip, mend many a button hole, put new neck bands on shirts not too badly worn (when requested), and in many ways try to prolong the use of your linen. One trial is not a test. Often damage has been done in previous laundering and we get the blame. Give us your steady patronage and we will guarantee your linen to last longer than when done at many other laundries.
