Why Leave the State?

Superintendent Mebane has written to the Superintendent of public instruction in Pennsylvania to recommend some good graduate from the Indian school in that State to take a position among the Croatan Indians in Robeson county. The instructions the Croatans have thus received has not been satisfactory.

If the superintendent wishes an Indian teacher he possibly might have found one among the Cherokees of our State. The Cherokees have had an excellent school in Jackson county for a number of years, and some of those educated there ought to fill the requirements of the superintendent. —Raleigh Post.

Announcement.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions, but changes them to a natural and healthy character.

The Iowans Coming Home.

The Iowa Regiment is the last of the volunteer regiments in the Philippines and it has been relieved to come home. It has done service all through the campaign and did not have a man killed on the field. Nine of the regiment died from wounds. Seventy five members have re-listed in the service.

A LIFE AND DEATH FIGHT.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5.00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and \$1.00. Trial bottles free at Fetters Drug Store.

Dreyfus' Destiny in Doubt.

The Dreyfus trial seems again to be shrouded in doubt as to its outcome.

Labori is trying very hard to get the German and the Italian nations to give their testimony, which would settle the whole question as to who sold the secrets, but this is envied in delicacy that makes it doubtful whether this evidence can be had.

The end of the trial is supposed to be a week off yet.

Ventured Too Far.

Some idea of the dangers and indescribable horrors that await men more brave and enterprising than cautions in their ventures beyond the sun's gentle, but potent rays can be conceived from the following dispatch of the 6th from Seattle:

"Otto Thews, of Primrose, Iowa, who has arrived here from Copper River, Alaska, brings news confirming the reported deaths of seven members of the Scientific Prospecting Company, of New York. The dead are: Earnhardt, Miller, Allerman, Schultz, Peter Siegel, Butner and Baumgarten.

George Hooker, another member of the party, got out alive, but is badly crippled with scurvy, which carried away the majority of his companions. Baumgarten went out hunting and was never seen again. The most affecting case was that of Butner, who was driven insane by his sufferings. His weak companions had to strap him down, but even then they could not restrain him. One morning, Thews, whose camp was near, found Butner sitting out in the snow with his clothes and hat off. The thermometer was 45 degrees below zero. Butner was taken inside, but he died in a few hours.

Thews also brings a gruesome story in connection with the finding of the remains of a jeweler, named Smith, who perished last November on Valdez glacier. Every exposed portion of the body had been eaten by ravens.

NO CURE, NO PAY.

That is the way all druggists sell Grove's Tasteless Chill Tonic for chills and Malaria. It is simply Iron and Quinine in a tasteless form. Children love it. Adults refer to it bitter, nauseating Tonic. Price, 50c.

Paid Very Well.

A Bibb county (Ga.) farmer kept an account of the cost of sowing, cultivating and reaping ten acres of wheat, which he ascertained to be \$57.67. He produced 180 bushels of wheat, which he sold at 75 cents per bushel, making \$135. In addition, he sold three tons of straw for \$24, making his gross receipts \$159; and leaving a net profit on the ten acres of \$101.38.

THE APPETITE OF A GOAT.

Children Too Practical.

The Philadelphia Times tells a story of some Sunday school children who had studied the crucifixion the Sunday before and concluded to demonstrate their ideas by selecting one of their mates, a little five-year-old girl, and actually nailing her to a tree. Her screams brought aid that found a nail driven through one finger. The result it is feared may be serious.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor, of Wind Ridge, Greene county, Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by M. L. Marsh & Co., Druggist
