**The University Opens Well.**

President Alderman writes us that the opening of the 105th session of the University on September the 18th is the most prosperous one of its entire history. Four hundred and fifty-five students, exclusive of the Summer school, had registered at the close of the first week, representing eighty-seven Counties, eleven States and Japan. Two hundred and fourteen of these were new students. The College buildings are full and the town is filling rapidly. Numbers of these students are sustaining themselves by all forms of honorable work. The standard of admission has been raised, so that now it is the equal of any institution in the South. Two new buildings are going up and growth is everywhere apparent.

The new students show evidence of good preparation, and the preparatory schools of the State are to be congratulated for the high quality of work they are doing.

**Origin of the now famous Dog Collar Belts.**

At the height of hostilities around Santiago de Cuba, a celebrated beauty, Senora Hernandez, lost a beautiful St. Bernard dog—one she prized highly. It was her daily companion in all her walks and attracted considerable attention, not so much for its personal beauty, as for the jewelled collar it wore. After its death Senora Hernandez kept her favorite ever before her by wearing its collar as a belt. The fashion spread from Cuba to the United States and now reigns as one of the fads of the season.
