To add to the numbers of sudden deaths in our county was the one on Sunday morning when Mrs. Barnhardt, the wife of Jesse Barnhardt, dropped upon the floor and died. She was at her work in the kitchen at the time in their home just across the railroad bridge.

For over twenty years she has had a heart trouble which was the cause of her death. She was an aged lady. She was the daughter of Sam Murph, who lived a few miles above town. She has no near relatives living.

The remains were interred out at Mt. Olivet church after the funeral was preached by Rev. Nelson.

Admiral Schley has been asked to take the place of Dewey in presenting the sword to Lieut. Brumby. Schley will be going to Birmingham about Nov. 1st and does not want to make both trips, beside he thinks the honors of the occasion should all go to Brumby without being shared by himself.

## Sickness Easily Barred.

Keep your vitality above the negative condition and you will never know disease of any kind. "No disease can exist where there is an abundance of pure blood. To get the necessary amount, eat nutritious food; to circulate it perfectly, take proper exercise; to purify it, get fresh air and sunlight. If a perfectly healthy condition of the skin exists and an even temperature of the surface of the body it is impossible to catch cold. Cold water baths taken every day will do much toward producing the former; proper food and exercise, the latter. Nature gives you an alarm in the first chilly feeling. Head it at once or pay the penalty. Take a brisk walk or run, breathe deeply and keep the mouth closed. If you are so situated that you can do neither, as in a church, lecture-room, street or steam car, breathe deeply, rapidly and noiselessly until you are satisfied your body has passed from a negative to a positive condition."—Ladies' Home Journal.
