**A Law That is a Dead Letter in Many Counties.**

There is one law in the State that is practically a dead letter. It is section 3,841 of The Code, which provides that every person using weights, measures, balances, steel-yards, etc., shall take them to the standard keeper of the county once every two years to have them tested and stamped. The section imposes a fine of \$50 for failure to comply with the law, \$25 to go to the standard keeper and \$25 to the county, but nobody seems ever to be fined. If the law were suddenly rigidly enforced the standard keeper would become a plutocrat in short order. And it is a good law, too.—Greensboro Patriot.

**Just Too Appropriate**

A young husband recently presented his young wife with a handsome lamp. He was much flattered when she told him she had given it his name, until he asked her reason for such a peculiar proceeding. "Well," she said, "you know, my dear, it has a lot of brass about it; it is handsome to look at; it requires a great deal of attention; it is remarkably brilliant; it is sometimes unsteady on its legs; it flares up occasionally; it is bound to smoke."—Anderson Intelligencer.

An exchange tells us that the proper method to keep apples in winter is to wrap them in old newspapers so as to exclude the air. The newspaper, however, must be one on which the subscription has been paid, otherwise dampness resulting from what is "dew" may cause the fruit to spoil.—Rocky Mount Motor.

It will not be a surprise to any who are at all familiar with good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by M. L. Marsh & Co.

The man who invented a perfect method for the culture of the memory forgot his hat. The man who wrote a book instructing mankind how to live a hundred years died at 88. The woman who wrote a book to prove that there is no death has buried two husbands. And thus it goes, showing the vagaries of life.—Durham Sun.
