NO FORETELLING THE PRICE OF COTTON.

It is next to prognosticating the weather to be guessing what will be the price of cotton.

From the best statistical information it is clear that the cotton crop is very much less than the estimate at the opening of the season. There seems to be the fairest promise that cotton will rise rather than fall in price. With this hope it is comforting to observe that the farmers have been in no hurry to sell.

We have noticed some advice to the farmers to hold for eight and even 10 cents a pound. We think the cotton raisers know as well when to sell or to hold as any one does for them. Hence we offer no advice and make no predictions. If we knew the exact number of bales made we could not tell the price it will bring.

Mr. Henry M Neill who has made something of a reputation for estimating made an early prediction of 12,000,000 bales and the prices were depressed at the opening of the season. There seems yet a disposition on his part to overestimate the crop. Elaborate and exhaustive reports from over the country justify the presumption that his estimates are altogether too high and have done some injury to the markets.

To say the least there is a degree of uncertainty about the price of cotton (as is well-known by our cotton raisers) that those assuming to know and presuming to advise may well enough be eyed with scrutiny.

PROF. COON ACUSED.

On the very heels of our announcement that Prof. Coon was making a good start with the graded schools in Salisbury came the announcement that charges were to be preferred against him.

From the best information we get, much of the friction has risen from his discipline that has wrought good in the school as regards a number of vicious practices. It is easily noticeable that those who do not control their children are apt to be over sensitive about the measures they make it necessary for a school disciplinarian to practice. This is the bottom of the trouble.

The only grave phase of the situation as we observe it is that Prof. Coon is charged with ridiculing the bibles, or at least certain accounts of old testament miracles. These charges are to be heard next Friday. It is to be hoped that it will be found to be a misunderstanding at most and that the trouble will soon blow over.

Good disciplinarians for our schools are as difficult to secure as they are essential to have.

A HUMAN HOUND.

About a year ago a young lady in the eastern part of the county put a mortgage on her land to furnish a young man she was engaged to marry \$125 to go to school on. A short time afterward he wrote to her for more money. She did not send it, and the fellow notified her that their contract was off. Yesterday the land was sold by the mortgagee to collect his note.—Newton Enterprise.

Can't the fair daughters of that community resent the deed with the cowhide?

THE Rev. J W Hypes, a modern sanctificationist or second blessing enthusiast is credited with saying: "The Spirit will come to tents, barns and lowly places where there is genuine faith, but he will not abide in the churches with their theatre-going and oyster festivals. If a child should be born into a church nowadays there would be no one to take care of it. The idea of a woman with her hair full of rooster tail feathers and wearing feather bob ear rings and yellow tan shoes, waltzing up to a sinner and offering spiritual aid. It is hypocrisy." He may be good authority on most topics but he needs to take a better look at the prevailing style of ladies head gear to see that it is a single feather and not that of a rooster feather.

IT IS announced that Gen. Wheeler will take his seat in congress at its opening. That does not seem like he will have much to do with the coming vigorous campaign in the Philippines as many had hoped.

ADMIRAL Dewey is said to be in ecstasies of requited love and sends his fiancée huge floral offerings with all the passion of a youngster.

Used By British Soldiers in Africa.

Capt. C. G. Denuison is well known all over Africa as command of the force that captured the famous rebel Galishe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved most beneficial." For sale by M. L. Marsh & Co.

War News Meagre.

There is something of a surprise in the lack of news of a decisive nature in the Transvaal regions. It seems that the British made little effort to hold Colenzo and with it in Boer possession. succor to Gen. White seems not easy. Ladysmith is well fortified and provisioned for some time and it is believed will not be forced to capitulate. Gen. Buller it seems will not be ready for operations in less than three or four weeks.

If Gen. White can hold out there is little in the situation to disparage English interests.

Bombardments about Ladysmith seem almost daily occurrences with some casualties.

An extended clinical use of Harris Lithia Water prompts me to the statement that I regard it as one of the best if not the best, Lithia Water known to the profession. In the condition of Phosphatic Urine, its action is marvellous. Its use in the Rheumatic and County Diseases afford me more comfort than either the Buffalo or Londonderry Waters.

Very truly yours,

A LIFE AND DEATH FIGHT.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5.00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and \$1.00 Trial bottles free at Fetzer's Drug Store
