

It will not be a surprise to any who are all familiar with good qualities of Chamberlain's Cough Remedy. To know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by M. L. Marsh & Co.

NO RIGHT TO UGLINESS.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly, and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and purify the blood. It gives strong nerves, bright eyes, smooth, velvet skin, rich complexion. It will make a good-looking, charming woman of a run down invalid. Only 50c. at Fetzner's Drug Store.

The Coming Winter.

A weather prophet predicts that the coming winter will be a mild one for the following reasons:

"The husks on the corn are thinner than usual, and this is taken as a sure indication of warm weather until late in the winter. Birds that go south with the first approach of winter have begun repairing their nests built this spring, showing they will stay in this region until late in the fall. The fur of the chipmunk and squirrel, which is heavy just previous to a hard winter, is found to be thin."

In addition to this, on our own account, we notice that persimmons are scarce, some trees having no fruit at all. Coon grapes, however, are plentiful. The mast in the woods is not great, and Nature seems to have made light provision for the birds and beast.—Ex.

M. L. Marsh & Co. guarantee very bottle of Chamberlain's Cough Remedy and will refund the money to any one who is not satisfied after using two-thirds of the contents. What Gourmands We are.

The average man lived for 50 years consumes between 14 and 15 tons of bread in a lifetime. The weight of solid food of all kinds he consumes aggregates the starving total of a fraction less than 55 tons, while on the basis of three pints per day he consumes 42½ tons of liquid. Think of the woman's toil in preparing this amount of food and drink.—Anderson-Intelligencer.

THE NEWS IN WASHINGTON.

The Prospects Are Good for Us to Have An Open Door in the Flowery Kingdom—The Schley Fund Growing. From our Regular Correspondent.

On Monday, Gen. Lee attended the funeral services of the late Gen. Guy V Henry, who was laid to rest at historic Arlington, after simple ceremonies at St. John's church. The president and cabinet, and army and navy officers in large numbers were present at the side of the grave when the last bugle call sounded and the last salute was fired. Only a few years since, Gen. Henry was commandant at Fort Myer, just outside this city, and had a great many personal friends here.

There seems to be no doubt that the State Department is working quietly to secure for this country a port in China.

Just where the United States will gain an "open door" is not stated. The department is loth to give out any statement, but practically admits that our chances for success are good. For some years, American capital has been interested in obtaining mining, manufacturing, and railway grants in the "Flowery Kingdom." It is believed that the negotiations which the State Department is now carrying on are intended to insure, for both the present and future, free access for American commerce to the interior of China.

Admiral Crownshield, chief of the Bureau of Navigation, in his annual report, made public this week, stirs up again the old Sampson slime. He arraigns Congress because of failure to properly reward the men of Sampson's fleet. The report claims that these men were not even voted a medal, something that fell to the lot of those taking part in a victory "of a more propitious hour." This is plainly a covert allusion to the Battle of Manila. It would seem that we have had about enough bickerings on this subject. There are plenty of people in Washington, who think that Sampson ought to have a medal, but as to the material—well, it would not be of the same as that voted to Dewey.

Meanwhile, the Schley home fund is growing. Practical business men have been interested in the project, and the committee claims that the home is now assured.

Washington's army of the unemployed is planning an expedition to grab the Kimberly gold and diamond mines. If they succeed in enlisting every able-bodied man in the District, who wants to get rich without work, both Boers and British might as well clear out of South Africa. There won't be much left for them, when our hungry locusts swarm over their fair domains.

Chamberlain's Pain Balm Cures Others Why Not You?

My wife has been using Chamberlain's Pain Balm with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well. For sale by M. L. Marsh & Co., Druggist.
