HOW IT IS USED TO MAKE FIRE.

An interesting relic was shown us recently by Mr. Jacob A. Smith, of Rowan. It is a piece of wrought steel brought from Germany by his great grandfather. It is heart-shaped, though rather slender and acute, measuring 3 inches in length and one inch at the oval end. Its purpose and use was to strike fire from a flint before the days of the Lucifer match. As it is only the class approaching relics of former days that may understand the significance of this little instrument it may not be amiss to relate the process of obtaining fire in those days.

When fire was wanted a flint and steel (back of knife blade serves a good purpose) and piece of punk (spongy, decayed matter from a hickory tree) were indispensable.

The punk was laid either above or below the flint and dextrous strokes of the steel on the flint produced sparks like those seen from an emery wheel. Good punk catches from every spark that lights upon it and burns like lint cotton before blazing. This smouldering punk is placed in straw or other combustible matter and swung vigorously with the hand and arm till it is fanned into flame. This is how they used to make fire.

NOW THAT Senator Pritchard has introduced a resolution into the Senate aimed at the best interests of the State, a resolution, too, which his Populist colleague, Senator Butler, will doubtless support, since he has come out against the constitutional amendment, North Carolina is virtually without representation in the United States Senate. The State is in much the condition that Virginia was when Mahone and Riddleberger misrepresented that State in the upper house of Congress at the time of the Danville riots. Virginia found a friend then in North Carolina, Senator Vance conducting a superb fight for the honor of the Old Dominion. No doubt Virginia will seize this opportunity of repaying that old debt through her brilliant son, John W. Daniel, Senator Morgan, of Alabama, it is said, will come to the defence of North Carolina and the State will not lack aid and support from other of her Southern sisters.—Charlotte Observer.

THE TUG OF WAR.

The British Can't Make Headway--Disasters the Rule.

The war in Africa is being far from a walk-over by the British, while it marks no recent special aggressiveness on the part of the Boers.

The Modder River battle some time since was exceedingly hard fought, and while a victory for the English it was hardly fruitful.

At Stormberg last Sunday the English seemed misguided and quickly lost nearly 700 men captured.

Another effort by Gen. Methuen on the Modder River on the 11th proved disastrous and demonstrated the fact that he cannot with his present force dislodge the enemy. It is uncertain what are the relative losses in this battle. The British had 320 wounded and some forty killed.

At Ladysmith the siege continues with an occasional sortie of some brilliance and calculated to cheer the English and hold the Boers at cautious distance. Recently a dash was made and a heavy siege gun was captured and destroyed. The Boers closed in on the rear but the British cut their way through and back to their stronghold. This seems the only cheering incident recently for the British.

The war is yet on British soil and three cities are cut off, though messages sometimes pass the lines at each, Ladysmith, Kimberly and Mafeking.

Rev. R M Hoyle and family arrived Wednesday night from Shelby to live here, the recent Methodist conference having assigned him to the Forest Hill church. The good ladies of the church were there that night and had a nice supper waiting for the minister and his family.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions, but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.

August Flowers.

"It is a surprising fact," says Prof. Houston, "that my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use and is excellent for sour stomachs and indigestion." Sample bottles free at Fetzler's drug store. Sold by dealers in all civilized countries.
