

**A SURE CURE FOR CROUP.**

Twenty-Five Years' Constant Use Without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croup appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record in twenty-five years' constant use without a failure. For sale by M. L. Marsh & Co.

It will not be a surprise to any who are at all familiar with good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine, and in telling of the benefit they have received from it, of bad coughs it has cured of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by M. L. Marsh & Co.
