The Beethoven Club Meets at Sunderland Hall.

The skies were cloudy and there was a suspicion of snow in the air, but a goodly number of the Beethoven Club braved the weather and rode out to Sunderland. The cordial welcome of Miss Montgomery, the hearty greetings of her corps of teachers, the cozy parlors and the presence of thirteen invited guests, assured at once a successful meeting. The absence of the president, Mrs. M H H Caldwell, and of the secretary, Mrs. W R Harris, was the only discouraging circumstance. But the first vice-president, Miss Lucy Lore, was equal to the emergency, and, with the assistance of Miss Van Wagner, quickly arranged a program of seven numbers, each an excellent selection. She then occupied the president's chair and conducted the business of the evening with grace and efficiency.

The opening number, Edward Elgar's brilliant duet, "Sleigh Bells," played in allegro by Miss Lore and Van Wagner was an inspiring beginning. The second number was filled by Miss J F Allison with a paper on "Beethoven in music and literature," with the pathetic incident of his closing days. The amount of information which she condensed in this paper was well worth the interest with which it was heard. Elgar's "Moonlight Sonata," a difficult composition, rendered with the perfection of delicate touch by Miss Lucy Lore, was the third number.

Miss Rose Harris, by request, filled the fourth number with Ethelbert Nevin's popular song, "The Rosary."

Miss Hervy stood fifth on the program and gave the club a correct idea of the science of music by reading the "Criticism of Henry T Finck on John Burroughs' Writings on Music." John Burroughs himself would no doubt have been edified, as was the club, by hearing this criticism. The sixth number was the lovely waltz song of Miss H Bailey, "Fleeting Days," sung in faultless time and tone by Miss Ada Craven. Miss Van Wagner crowned the enjoyment of the program with a double selection from Beethoven, "Sonata Quasi Una Fantasia and Opus Number 3."

The program was finished, the welcome which the club had had was doubled by the entrance of snowy trays heaped with food, fruit cake and delicious hot coffee, irresistible temptations of pretty china. It was enjoyment and appreciation of the generous hospitality of the hostesses when the check on the island gave warning of the importance of the hour.

The evening was rounded and the annual party closed the lowering of the lights. The lovely Concord looks from Sunderland out into the country, every fact of life and street located with accuracy. It appears a thriving city and its business legs not, either

A Negro Has An Accident at Harrisburg.

One of the negroes employed on the work train met with an accident at Harrisburg today (Thursday). A rail, used at a switch, called a switch point, accidentally fell on his great toe, cutting the end off of it. The negro was brought here and the wound dressed temporarily until he could get to Charlotte where it will be taken off.

Have Commenced to Build the Bridge.

Workmen are now at work down on Rocky River near the Black mill preparing to place the new iron bridge across. This is the place where the large iron bridge was washed away by the heavy rains. The old bridge has been taken out of the river and placed on the banks. The new bridge will be considerably higher than was the other, and it is not probable that the county will ever have to meet an expense account for a bridge at that place soon.

Telling of the Aberdeen Road.

On Wednesday and Wednesday night Messrs. R A Brown, Morrison Caldwell, Jno. This was not a regular meeting day but a time to talk over the matter. Everything is in good shape and they hope to commence work some of these days soon.

A Judge of the Old School.

A Judge of the old school is said to have once summed up a very complicated case in the following terms:

"Gentlemen of the Jury—You have all heard the evidence, you have all heard what the learned counsel have said. If you believe what the counsel for the plaintiff has told you, your verdict will be for the plaintiff; but if, on the other hand, you believe what the defendant's counsel has told you, then you will give a verdict for the defendant. But if you are like me, and don't believe what either of them has said, then I don't know what you will do." Household Words.

A Horrid Man.

"You would scarce believe it," said the coquette of uncertain years, "but when I was a giddy young girl I was positively ugly."

"Oh, I don't doubt it in the least," replied the crusty old bachelor, "but I've been wondering how some women manage to preserve their youthful attractions so well."

A Powder Mill Explosion.

Removes everything in sight; so do drastic mineral pills, but both are mighty dangerous. Don't dynamite the delicate machinery of your body with such a crude and dangerous remedy. Dr. King's New Life Pills, which are gentle as summer breeze, do the work perfectly. Cures headache and constipation. Only 25c. at Fetzer's Drug Store.

A Case of the Dead Alive.

St. Louis, Mo., Dec. 25.—An attempt to obtain the payment of an insurance policy on the life of a man supposed to be dead, but who has turned out to be alive, has come to light. On July 10th last Aaron Wolfsohn was living in Los Angeles, California. On that date his father, Benjamin Wolfsohn, a tailor, received news that his son was dead, from inhaling gas with suicidal intent, in the rooms of a woman who at that time refused to give her name. The son's life was insured for \$10,000 in the New York Life Company. Evidence was procured purporting to prove that the dead man was none other than Aaron Wolfsohn. The insurance was paid to the public administrator in Los Angeles, Cal., but the money could be turned over to the young man's father. Aaron was reported to have been seen in Chicago. The discovery was made by an uncle residing in that city, and the young man's parents were notified and on August 11th the attorneys, Sale and Sale of St. Louis, wired to the headquarters of the New York Life Insurance Company, which at once made a demand on the public administrator for \$10,000, the amount of the insurance on Wolfsohn's life, which is still held by him.

Still Driving the Filipinos.

A Manila dispatch of Wednesday evening says Col. Lockett with a force of 2,500, including artillery, attacked a force of about 1,000 Filipinos well entrenched among the mountains. He routed them without any fatal casualties, but the ruggedness of the country defeated his purpose to capture them.
