## THE SMALLPOX SITUATION.

Every Precaution Being Taken by Our Mayor and Board of Aldermen—The House of W D Morris Well Guarded—Vaccination Urged for Our People.

As stated just at press time last Saturday afternoon, there is a case of smallpox in Concord in the house of Mr. W D Morris at Forest Hill. The one who has the case is Manly Morris, the young man who some weeks ago came down town complaining and was sent to his home. Dr. Henry F Long, who is a smallpox expert and who held that office with the State Board of Health, was here Saturday afternoon and says that it is a discrete case. The patient is now at the period where his skin is beginning to peel off.

As soon as Dr. Long pronounced it smallpox the mayor called a meeting of the board of aldermen and steps were taken at once to harness the situation.

The house of Mr. W D Morris is now guarded well at all hours and no one is allowed to come in contact with this family. No one scarcely has been in contact in the last several weeks with the exception of Mrs. H C Morris and she has not been there for more than a week. She was vaccinated Sunday morning and also the boarders at her house. The report that this young man has been visiting about at Forest Hill since he has been sick is untrue.

There is no reason for our people or for others outside of town to become alarmed over the situation as the situation was viewed beforehand and we are prepared to manage it. Four good comfortable pesthouses are now furnished outside of town waiting for any suspects that our physicians may find. Mr. H Mc-Namara has charge of the buildings and will take care of any of the sick ones.

One of the best steps our town has been advised to take is to get our people vaccinated, as was urgently requested in Mayor Means' card.

## LATER.

We learn today (Monday) from Mayor Means that there are five more new cases in the house of Mr. W D Morris at Forest Hill. This does not make the situation any worse for our people though as it is nothing more than is of course expected as this family of eight persons are confined here in the house in order to prevent the spread of the disease.

## Josephine Klutz In Trouble.

Every morning of the week excepting Sunday the officers of the court house and several of the attorneys are visited by a negro woman named Josephine Klutz, whose mind is none too good. ## Complimentary to Mrs Marsh.

The Sunday edition of the Raleigh News and Observer speaks thus about Mrs Alfred Marsh, nee Miss Margaret Robinson, who has a number of friends in this place: "The acceptance by Mr. Alfred H. Marsh, formerly on the staff of the News and Observer, of a responsible position in Jacksonville, Fla., causes Raleigh to lose one of its most charming and popular young married ladies. Mrs. Marsh came to Raleigh as a bride in August last and by her charm of manner and loveliness made a host of friends here who regretted that she was not to be a permanent resident of the City of Oaks. The readers of Woman and Society department will have special cause to regret that she has returned to the home of her youth. Mrs. Marsh established this department and edited it with brightness and brilliancy until a few weeks ago."

## Lemons for the Hands.

One of the best possible man-care acids is lemon juice, diluted with a little warm water. It not only removes stains from the nails but loosens the cuticle far better than scissors will. Lemons are also excellent for whitening hands which have become tanned by exposure to the sun in boating or other outdoor exercise.—Home Notes.

## CONVERTED HIS MOTHER.

Moody's Mother Never Heard Him Preach Till He Was Famous.

Edward Kimball, who was responsible for bringing Dwight L. Moody into the church, tells in the following story of how the great evangelist converted his own mother.

For many years Mr. Moody's mother never sanctioned her son's choice of the pulpit as his life work. The mother never even heard her son preach until long years after he was world renowned. In 1875 he returned to his home in Northfield to preach, shortly after coming back to America from one of his great London successes. The family still lived on the old farm and still drove to town to Sunday meeting in the old farm wagon. The mother startled a daughter by saying to her:

"I don't suppose there would be room in the wagon for me this morning, would there?"

No one had ever thought of the mother unbending and going to hear her son.

"Of course there will be room, mother," said the daughter, and the mother was taken down to church with the rest.

Mr. Moody preached from the Fifty-first Psalm, and preached with a fervor that was probably inspired by the presence of his mother. When those who wished prayer were asked to arise, old Mrs. Moody stood up.

The son was completely overcome, and turning to B F Jacobs, now of Chicago, said with emotion:

"You pray Jacobs: I can't."

## The Way to Live.

Let us not burden our time with trifles and our souls with grievances. We are every one of us good, bad and indifferent in our daily journey, walking with steady or unsteady step directly toward an open grave, and why worry and fret over anything? What is the laurel wreath of fame but a shadow? What is wealth but a bubble? Let us do our duty—the right as God gives us to see the right, with malice toward none, with charity for all.—Industrial News.

## The Difference in Two Years.

Cotton Weigher Propst has added up his list of bales of cotton weighed during this cotton year which begins on Sept. 1st and has compared it with the report during the year 1898, from Sept. 1st to Jan. 1st. The difference between the numbers of bales weighed in '98 and '99 is 4,596. During the four months of '99, 7,362 bales were weighed. This is a great shortage in our last crop.
