CHINESE AFFAIRS.

No More American Troops Wanted—Fekin Held Till Order is Restored—Negotiations With Authorized Representatives.

The administration since the rescue of Minister Conger and all other Americans and conjointly all foreigners at Peking does not intend to further press the Chinese and will send no more troops there. Some seven thousand troops on the way will probably be sent to the Philippines. There is no war declared with China and negotiations are in order but not with Li Hung Chang until he presents credentials from the Emperor or Empress Dowager.

Order in the empire is demanded and duly authorized agents of the government of affairs will be necessary before the troops can be withdrawn from Peking. These requirements may soon be met when the trouble will be gotten over.

There are some dispatches indicating great disorders in Peking but if so they are destined to be but temporary as the boxers are dispersed and the city is policed by sections by the different powers.

Weary Willies to Meet in Grand Reunion.

An active market has developed in the padlock, shot-gun and bull-dog line, owing to the fourth annual convention next Wednesday of the "National Tourists' Union."

This is the annual reunion of hoboes.

Some few hoboes already have arrived and organized themselves into committees on credentials and entertainment, and have issued a programme for the convention.

They also have issued a list of "tourists who are qualified to sit in the convention." This list includes, according to their announcement, "tourists, printers, bindshifts (those who can cook anywhere), nestocrats (experienced sleepers), society tramps and bojjacks."

Here are the features of the convention:

10 a. m.—Address of welcome by Weary E. Bradford, head pipe of T. U. No. 13; response by Charles Fred Noe, grand head pipe of National Tourists' Union.

Onion Cotton will speak on "How We Got Here." Dusty Gilroy, chief route picker, will speak on "Transportation Problems." Professor Smoot Way and Gold Brick Potter will do the Covington cake-walk.—Britt, Iowa, Dispatch, 19th.

MISS PACKARD INSANE.

This is the Opinion of a Celebrated Scientist—Dr. Wilkinson Will be Charged With Abduction.

Special to The Charlotte Observer.

Philadelphia, Pa., Aug. 23.—

Dr. Robert H. Chase, one of the most celebrated scientists in the country, has examined Miss Josephine Packard, who eloped with her brother-in-law, Dr. Howard M. Wilkinson, from Dover, Del., and gives the opinion that she is mentally unbalanced. He advises her immediate subjection to treatment.

Wilkinson will probably be indicted at Dover for abduction, a crime that is punishable by long term imprisonment in that State.

The Tides Toward Mr. Bryan.

The New York World makes these significant reflections:

"In 1896 the independents were practically all for Mr. McKinley; this year many of them are for Mr. Bryan. The willingness of many more who supported Mr. McKinley in 1896 to consider calmly the issues and the candidates of this year shows that something has driven from Mr. McKinley some of the most intelligent, the most unselfish and the most patriotic of his supporters of four years ago.

"The men who have turned away from him are intelligently among the strongest men of an exceptional class of citizens. They are the leaders of those who put their country above their party. Some of them were the glory and strength of the Republican cause in 1896. They are now to be the glory and strength of the Bryan cause."

"Oh, George, dear, what makes you treat me so coldly?" "Coldly! Oh, darling, how can you doubt me? Don't you know you look so warm with the thermometer up in the nineties, that I couldn't think of treating you other than coldly, loving you as I do. I'm afraid you'd melt and run off the sofa." Then she suggested ice cream as a cooler.—Ex.

The Boy Wanted in Business.

"What kind of a boy does a business man want?" was asked of a merchant.

He replied, "Well, I will tell you. In the first place he wants a boy who doesn't know much. Business men generally like to run their own business and prefer some one who will listen to their way rather than teach them a new kind. Second, a prompt boy, one who understands seven o'clock is not ten minutes past. Third, an industrious boy who is not afraid to put in extra work in case of need. Fourth, an honest boy—honest in service as well as matters in dollars and cents. And fifth, a good-natured boy, who will keep his temper, even if his employer does lose his now and then.—Augusta Chronicle.
